For McLaurin Only Bennettsville special to The News and Courier: The published session of the "political summer school" for this county has been withdrawn, as the farmers are too busy trying to pay their debts to attend political meetings. Very few would have attended anyway, unless McLaurin would have announced in advance that he would have been present.

State Librarian. Columbia special to the Greenville News: The governor has appointed Lavinia Laborde state librarian. The successful candidate has been a stenographer in the governor's office. She is an orphan and the main stay of a family of ten children and is well educated. She is the granddaughter of Maximian Laborde.

The Army and Navy.

Columbia Record, Monday: The army recruiting station in the Kendall building closed today and the officers in charge asparted for Charlotte, where another station will be opened. Just as they left a naval recruiting station was opened at Owings's drug store The same officers who were in charge of the station here last summer are here again. They will be here for a week or more, and no doubt they will receive more applicants than they can accept, but every one who wants experience in Uncle Sam's navy is invited to come forward. Last summer, with a week's work, 38 men were enlisted They were sent to Port Royal, where they have been in "training" before assignment to definite places on war ships. One of the recruits accepted is back with the officers, ready to assist others who may want to enlist. Jones For Governor.

August Kohn's letter to News and Courier: Strong pressure is being brought to bear on Colonel Wille Jones to make the race for governor of this state. He has received a great many letters and appeals, urging that he consent to make the race for governor. Colonel Jones has been regarded as one of the strong candidates for the United States senate; but he is not so certain that he can make the race because of his very large business interests in Columbia, and even if elected to the senate it would be of no pecuniary advantage to him if he had to sever his business connections nere. Colonel Jones is very much more of a business man than he is a politician, and if he has to enter a mud-slinging contest for either place he would not think of bothering with it; but he may decide to go into a contest in which, if successful, ne would not have to leave his home, nor would his business interests have to be entirely given up. It is a long time yet, how-ever, before the list of entries for any of the contests will be closed and very much can happen in politics in the

In the Home of His Friends.

Greenville special of September 27, to the Charlotte Observer: Senator Mc-Laurin attended the annual stock show at Fairview in the lower part of Greenville county today and was tendered a flattering ovation. Although asked on all sides for a speech, the senator de-clined even to make an after dinner talk, saying that he had merely come talk, saying that he had merely come down to see the exhibition and not to make a political speech. Soon after his arrival the men began coming up to shake hands with the senator, and before the day was over fully 1,500 men had shaken the senator's hand. After the county that gathered ter dinner the crowd that gathered around to converse with him attained such proportions that the senator retired to the grand stand in order that the events might be recommenced. Hun-dreds heard the senator converse who were not introduced. There were 4,000 people present.

Judge Buchanan to Retire.

Sumter Item: The rumors to the effect that Judge O. W. Buchanan would not be a candidate for reelection as judge of the Third judicial circuit at the approaching session of the general assembly, has been confirmed and he will retire from the bench at the expira-tion of his present term in December 1902. In reference to his determination not to seek reelection, Judge Buchanan says: "I have made up my mind to that effect. Many reasons have moved me effect. Many reasons have moved me to this conclusion. I have observed the helplessness of circuit judges upon their retirement from the bench after serv-ing three or four terms. I am now in my 43d year. If reelected, as I am as-sured I would be were I to offer for resured I would be were I to offer for re-election at the end of the next term I would be beyond 47 years of age, and with nothing saved. To leave the bench at that time or a later time I could not in the nature of things con-mence a professional career with any hope of success, for my energy and inhope of success, for my energy and industry would then be gone even if I nad the inclination to work. This is my time to quit. The public has a wonderfully exaggerated idea about the income of a circuit judge. They know nothing of the outgoes and various demands upon him by reason of his official post-

THE SCHLEY INVESTIGATION.—The proceedings of the Schley court of inquiry continue to drag along in tedious detail, developing a great deal of feeling against Schley, but little to show any culpable disobedience on the part of the admiral in the Santiago campaign. One of the charges against paign. One of the charges against Schley was failure to obey orders direct from the navy department and ne has produced an order from Sampson ad-vising him to disregard the department's instructions. There is evidence in the testimony that Schley is dislik-ed by a majority of his fellow officers. but nothing yet to show any serious neglect of duty or important shortcoming on his part.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Cataarh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a con-stitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send
