YES, we are much gratified with the reception that has been accorded our Spring and Summer Millinery. Our many lady friends who have visited our Millinery department have been exceedingly complimentary in their remarks in regard to the artistic trimming of Miss Cone. But the ladies have not confined themselves to complimentary remarks, but have been giving their coin of the realm in exchange for our Millinery in a way that has all but led us to believe that the cream of the Millinery trade was being accorded to us. But their is another important item that enters into our large Millinery sales besides its artistic merit and quality, and that is our LOW PRICES, which have contributed in no small degree to our increasing sales in our Millinery department. If you have not seen our Spring Millinery we cordially invite you to come and see what we have to offer you.

\$

Do Not Runaway

With the Idea

That our Millinery takes up our whole time, for such is not the case. Our Spring Dress Goods have come in for quite as much favorable comment as our Millinery. Our Dress Goods counter has been the Mecca of very large numbers of discriminating lady buyers who know what the qualities of Dress Goods ought to be, and at about the prices such goods out to sell for, and the result has been a much larger trade in the finer grades of Dress Goods than we dared to hope for at the beginning of the spring season. But at the same time want you to remember the fact that we HAD and NOW HAVE a line of fine Dress Goods that for varieties, quantities, qualities, beauty and low prices has never been surpassed on this market.

We Want You to See the Goods Offered By Other Merchants, but ask You to See Our Goods Before You Buy.
