

SOUTH CAROLINA NEWS. The Frequent Railroad Wrecks. Columbia correspondence News and Courier. The railroad commission will in its report to the legislature discuss the frequent wrecks that have occurred in this state during the past six months. The report will review every one that has occurred and there will be several important suggestions made. From a statement made by Chairman Garris this morning all of the blame will not be put on the management either. The commission keeps a record of the wrecks in this state and the roads all file official statements with the commission as to the causes of each wreck, with the number of lives lost. This will be added to the report. In speaking of the wreck at Chester Wednesday, Mr. Garris said: "I am satisfied that the cause of this wreck was the criminal carelessness of the employees of the road, taking the official statement handed out by the officials as a ground for this assertion. In some of the wrecks the public has been quick to place the blame upon the management, but in this and in several others investigation has shown that they were caused by neglect of duty on the part of the employees of the road. Dismissal and punishment for this sort of business, and I think that such cases are for the solicitors to take cognizance of." The commission will commence their annual inspection Monday, going over the Southern from Charlotte to Augusta, and over the Carolina Midland as far as Hardeeville. The inspection was delayed a little by the death of the superintendent, who desires to accompany them.

You Don't Have to Die to Win. RECENTLY I published a statement setting forth some of the options GUARANTEED in a 20 Payment Life Policy as issued by The Mutual Life Policy as issued by The Mutual Benefit at age 35 for \$10,000. Now call your attention to the Mutual Benefit 20 Payment Endowment issued to a person aged 35, amount \$10,000, annual premium \$498.50. After two premiums have been paid the company will loan \$604.00 on the policy or pay the assured \$604.00 for it if he desires to surrender to the company. If his condition does not warrant him in paying the third premium, or he does not desire to do so, and does not take his cash surrender or loan value, the company will carry the whole \$10,000 7 years and 46 days longer, and should the assured die during the seven years the assured \$10,000 on the policy or pay his beneficiary \$10,000. If he does not desire either the cash surrender, loan or extended insurance he will be given a paid up policy for \$800. If he lives to the age of 70 the company will pay him \$980, and if he does not it will pay his estate \$880. If Five Premiums are Paid The loan or cash surrender value will be \$1,727.10. If no more premiums are paid the assured does not take his cash surrender, loan or paid up value, the whole \$10,000 will be carried 15 years longer and should the assured die during the 15 years the \$10,000 will be paid to his beneficiary. Should he live the time out then the company will pay him \$750 in cash in addition to the twenty years protection given for five years' premium. If he lives and pays for 20 years then the company pays him, while living, \$10,000 in cash. The premium is reduced annually by dividends, and the average annual cost is not likely to exceed \$40.00. So, you see, with this kind of insurance you win whether you live or die. SAA M. GRIST, Special Agent.

The Enquirer will be sent to new subscribers from this date until January 1, 1904, for \$1.75.

G. H. O'LEARY. Be Just To Yourself. Before you decide to buy any article in our line—Furniture, a Stove, Carpets, Mattings, Rugs, Oilcloths, Mattresses, or other articles for your home or office, don't you think you should be just to yourself and come and see our goods and get our prices before you buy elsewhere? You will find our qualities away up and our prices extremely modest. At least do yourself the justice to come and see us before buying any article in our line. G. H. O'LEARY.
