GENERAL MERCHANDISE.

**The Spring Trade.**

ALTHOUGH we probably have the largest and most complete stock that we have ever had at this season, we are still adding to it daily, and the attractions we will open during the entire spring will be unexcelled as to quality, style and price. It has often been said that it is impossible to please everybody; but we have reason to believe that we can come very near doing that very thing, and we intend to prove that we are correct in our belief.

**Clothing That Fits**

We have already sought to give some detailed information as to our tremendous stock of ready-made clothing for men and boys; but this has been next to impossible. People who will undertake to come and see will readily appreciate the reason. There is too much of the stock to admit of a description. We are undertaking to fit almost anybody in almost any kind of a suit, and we are coming pretty nearly up to the scratch.

**Dress Goods**

Dress goods in all the newest weaves and styles have recently been put on exhibition and our stock is receiving daily additions. We are ambitious to supply all the ladies of this section with all that they can desire in this particular, and we will be pleased to have examinations and criticisms.

**Lots of Shoes**

Our stock of shoes is simply tremendous. It includes everything for men, women and children and we are receiving additions continually.

**Notions.**

Our notion department is receiving more attention this year than heretofore, and it is our purpose to have new attractions and exhibitions constantly.

Almost everybody calls at Heath's while they are in Yorkville, and the few that fail to do so are the losers by their neglect.
