W. B. MOORE & CO.

Don't Fail to Remember.

My methods are fair and square because I do the business before rendering bills. I am doing more to put life and value in real estate in the territory in which I operate than any other man they know. I do not mean to do anything and be your own judge as to whether I spend the money I make to drive the business. If I act my part well, it does appear to me the public can well afford to assist me in building up the value of their own property. It matters not whether you own real estate or not. If you are a citizen, it is your interest to do all you can to enhance the value of the country. Low prices and means poor and unintelligent people. High priced land and good roads mean intelligent and thrifty people. Remember, no one man nor set of men can do this. It must be done by all pulling together. If any of you need guardians, call on your neighbors to have them appointed. I am not in that business, only making suggestions to the best of my ability.

**MY BUSINESS IS TO BUY, SELL, EXCHANGE, LOAN, OR BORROW, ON COMMISSION, BUT you must send me the money and expect to do business profitably with questions only.** If I have all the talking to do, you can justly say "Poag is trying to get too smart." Tell me what you want done, and what you are willing to do. Remember, the importance of keeping secrets. I find trades go through much smoother when neither the buyer nor the seller knows who the transaction is for. If you want to know whether I am up and ready to do business, try me with reasonable propositions. Some folks who don't make half a dozen deals a year think they can make trades as good as a broker who is in the business day in and out. It has always been said "Practice makes perfect." If I did not make my clients more than I cost them, my business would not grow. I do not send me the picture of any of my clients you see going around complaining, that I made bad trades for them.

Our Spring Millinery

Trade this season has been a big source of wonder to us. At the beginning of the season we purchased a stock that seemed to us would more than supply any reasonable demand. How much we were mistaken is evidenced by the fact that we have since had to make three separate orders. We received four dozen hats by express yesterday and have several dozen more that are coming by fast freight. Our sales are larger than ever before, our qualities are better, our styles the most fashionable and the work of our trimmer the most satisfying. Altogether our Millinery this season has been most surprising to ourselves and to our customers. If you would have a stylish hat that is correctly made and at the right price, the place for you to get it is at this store.

Straw Hats For Men.

Yes, we've got them. All kinds, all sizes, all styles, all prices from 10c and up. If you want one of those feather-weight hats, so popular these days, that look so cool and comfortable, and are as cool and comfortable as they look see us. We also have a full line of the better kind of Felt Hats.

Special For This Week.

Yesterday we received about 1,000 yards of Fancy Colored Muslins. The same quality that we sold at the first of the season at 12 1/2 cents a yard, and which has since been sold by some dealers at 15 cents a yard. During the balance of this week if the Muslin lasts that long, we offer it to our customers at the low price of TEN CENTS A YARD. This is an exceptional offer and is worth your time to investigate.
