

governor has given the letter to the press. It is as follows: "His Excellency, the Governor of South Carolina: Dear Sir: I have just written the governor of North Carolina, calling attention to the fact that October 7th, A. D. 1905, will be the 125th anniversary of the battle of King's Mountain, one of the pivotal engagements of the war for independence, fought within the borders of your state. It is quite customary to observe such a date with especial commemorative celebrations, and I venture to suggest that measures be taken by the chief executives, the patriotic societies and citizens of the two Carolinas, Tennessee and Virginia—from which states the patriotic volunteers were drawn—to mark the important anniversary by suitable exercises. My attention was called to the date by preparing a lecture upon King's Mountain, a president of the Presbyterian Historical and Presbyterian church in our country, north and south. It seemed to me that the two Carolinas might most fittingly take the initiative in such a measure; although I am sure that Patriotic Societies of Revolutionary descendants in all parts of the nation will cheerfully co-operate."

GENERAL MA IS NOT A JOKE.—There has been a good deal of fun poked at General Ma, and it is admitted that pictures of his Manchurian army show about the worst collection of yellow misfits ever seen outside of a slushbox. But he is the only Chinese military man whose professional value has been proved. In China it is averred that he has never been defeated. He is trying to make soldiers. He has employed competent expert entomologists and has commended the modern instruction of his troops. He has not progressed very far in the direction of modernity. For instance, the punishment for defective marksmanship under his orders is beating with rattan rods, and he has no compunction about decapitation in the interest of discipline, which may do in China, but would never become popular in a civilized community. He is popular with the Chinese people, and it is within the range of possibilities that he should become the head of a great Chinese uprising, in which case the troubles of the czar would be multiplied.—Atlanta Journal.

WONDERFUL BOLL WEEVIL STORY.—The secretary of agriculture has received a report from a correspondent in Texas, newspaper stating that two fields of cotton, covering about six hundred acres in Baxter county, have been entirely cleared of the boll weevil by millions of ants, now swarming on the plants. The roads near the field are said to be filled with ants carrying off the dead boll weevil. Secretary Wilson has telegraphed expert entomologists connected with his department who are now in Texas, to make a thorough investigation.

Special Notices. No Gloss Carriage Paint Made will wear as long as Devoe's. No others are as healthy, because Devoe's weigh 3 to 8 ounces more to the pint. Sold by J. J. KELLER & Co. No Preaching Sunday. There will be no preaching at Enon next Sunday, the regular day, the pastor, Mr. Lambert, having been called to Alabama on account of the illness and death of his mother. A Yorkville Woman Asks "have you a floor paint that will last two weeks?" Yes we have Devoe's; It has a beautiful gloss and will wear two years if properly applied. J. J. KELLER & Co.

Special Notices. Letter to M L Carroll Yorkville S C. Dear Sir: The cheap paint to buy is the one that covers more than you think; the cheap one to wear is the one that is young when old. Mrs Moore, of Kelsey, N Y, bought 16 gallons Devoe to paint her house two coats; her painters said it would take that. Had 6 gallons left. Mr James Ackley's house, in Cairo (Catekill Mountains), N Y, was painted Devoe; it wore 14 years; and the paint was in good condition then. He was going to paint, the last we knew, though. That's the way to preserve a house; repaint when there's no occasion. Yours truly F W Devoe & Co. P. S.—J. J. Keller & Co. sell our paint.

WHAT DO YOU WANT TO BUY, SELL OR EXCHANGE? Don't be timid but say something. We never know how cheap property can be bought until offers are made. People make me tired asking "what is the least you will take" when there is nothing in sight to take. When fruit gets ripe, it drops from the trees. In like manner the price on property drops when owners get ripe to sell. Therefore, as well as all other specialties, Don't be sitting about idle when you can be making money trading in property throughout the country, helping yourself and putting life and value in your own as well as other people's property. Specialists are the order of the day. You employ Lawyers, Doctors and Ministers when you specially need them, as well as all other specialties. Bear in mind a Broker who studies trade year out and in can beat you five in the game. Otherwise he could not make enough to remain in business. The growth of my business is plain evidence of tact and talent. I drive on whether it is sunshine or rain. Then see the enormous advertising bills that have to be paid. My methods are fair and square. Clients furnish property, descriptions, prices and propositions. Trades are completed before bills are rendered. No retainer fees required here. I have grown my faith in my ability to take chances on paying the bills. I will exchange real estate for Factory stocks, or Factory stocks for real estate. Bull pups for calves, fish, or chickens, provided the deal is large enough and I can see my way clear to realize. I have only had one proposition but thus far have not been able to place the goods as the price asked is above the market. Bring, or send, your business troubles and pleasures to my office, and I will try to have them ground out for you. Remember I have farms all sorts and sizes to sell. Houses and lots, all sorts, sizes and prices. A good deal of second hand machinery. What I want are your propositions as nothing can be accomplished without them. Remember I buy for clients. J. EDGAR POAG, Broker, Rock Hill, S. C.

The "Druid" \$15.00. The machine that we are selling at this price is the equal of any machine sold on this market at three or four times the price in so far as good sewing, light running and lasting qualities are concerned. The only practical difference to be found between the machines we sell at \$15 and those sold on this market at \$30, \$40, \$50 and \$60, is the price. If you only want to buy a machine that will fill every requirement of the sewing room with a minimum amount of labor, our \$15 machine will fill every possible requirement. A \$60 machine will not do any more work or any better work. This is a fact that is beyond dispute. Is this machine guaranteed? It is guaranteed by the makers and the guarantee is further endorsed by us, which we think makes the guarantee absolutely good. The guarantee that goes with every machine we sell, reads as follows: We hereby warrant this Sewing Machine, No. 2, to endure the natural wear and tear of family use for 12 years and agree to replace free of charge, during that time, any parts that may prove defective, excepting only the wear and breakage of Needles, Bobbins and Shuttles. Strauss-Smith Co. (Signed) Strauss-Smith Co.

Been out of them for some time; have them in stock now. No. 2 Extra at \$1.15 a Kit. Respectfully, LOUIS ROTH.

"Proof of the Pudding." During the past six months, in York county, there have been to my knowledge four separate cases where men desiring life insurance have determined to look before leaping, and allowed agents of the various companies every facility for making a show down. The MUTUAL BENEFIT was a competitor in each of the contests, and each time its policy was selected and PAID FOR. The amount of insurance involved was \$27,000. For all these reasons, with any agent or company where the MUTUAL BENEFIT has entered strictly on its merits and has not delivered the goods! Dear Reader, do you imagine that it would be possible for the MUTUAL BENEFIT to win EVERY TIME if it was not "The Best Company and Sold the Best Policy?" The contracts of all the companies are good, and are liberal and attractive in every respect. The trying ordeal of being compared with those of the MUTUAL BENEFIT. Test my claim. That's all I ask. W. O. RAWLS, PLUMBER AND STEAM FITTER. JUST A WORD. We want everybody to know that we want all the business in our line that it is possible for us to get and to do. And we further want everybody to know that we do not want to do any work for anybody unless it is with a distinct understanding as to when the work is to be paid for. We make this statement because of the fact that during the past year or two we have been doing work for various parties who have not come up to time with the coin of the realm. In other words we have several hundred dollars' worth of accounts on which we are unable to realize. We are not in business for fun or for our health, but with the intention of doing good honest work for which we expect to receive prompt settlements when the work is done. We have adopted the rule of "NO MONEY, NO WORK," and will stick to this rule in future. We thank our customers who pay, for past favors, and solicit further business. W. O. RAWLS.

YOU SHOULD USE A CARBO-MAGNETIC RAZOR. It requires no honing—no grinding. It is always ready for use, because it is electrically tempered and hollow ground in its own peculiar way.
