Trade In Dirt, Get Rich And Feel Happy.

MEN, WOMEN AND CHILDREN, trade in dirt. It will become a fad and your neighbors will follow suit. And before you are aware each of your properties will be doubled in value. How many poor people do you know who are trading in dirt as a profession? Favor this office with your trading, and give us a chance to show you how much good can be accomplished in the entire state. If you are in the class of business before making charges, therefore you run no risk. Always bear in mind the commissions clients pay are saved in various ways. We claim to do the business better than you can because we are in position and have the experience. Then the money earned is re-invested to advertise the advantages and inducements of our state, as well as other people's property. Where do you see a broker spending time, talent and money on other people's property as this office does? If you need glasses to see your own business, let us send them to you. South Carolina has more advantages to offer than most any other Southern State. We should strive with united efforts to induce the best class of citizens to come and cast their lots with us. We don't need to try strange passenger emigrants any more. They have already been tried. When prospective buyers apply to this office, we desire to be in position to sell them any class of property they wish to buy. Therefore we need all the property on our list possible. We are growing to be Bureau of Information. Buyers apply to us for information from all sections, at home and abroad. How can an individual expect to handle his property in the same advantageous way? Don't be fighting your own interests. We can't do you good unless you let us. We are after bringing good citizens from abroad to put money in our Banks and your pockets. We have a grand selection of property to sell or swap, and my list grows daily. Bring, or send your propositions. They are the things to do mutual good. You should know I'll do business if you make reasonable propositions, otherwise I would not spend so much money advertising. Have recently sold several houses and lots of property. I have been advertising over 15 months without a previous offer. Thus you see it requires time, money and patience to drive this business. From the date of its incorporation in 1845 up to and including May, 1903, the Mutual Benefit Life Insurance Company refused to issue policies on the lives of women. Such points were the following: notice was placed in the hands of the agents of the Mutual Benefit: "The Company will consider applications for not more than \$5,000 on the lives of women who are in receipt of an income from their own labor or property and who expect to pay their own premiums. Such policies will be made payable to the insured or their estates, or to anyone dependent on them for support, or who would sustain commensurate pecuniary loss by reason of their death."
