long distance ball throwing. The distance, however, was not measured. Dinner was spread at about 2 o'clock. Dinner was spread at about 2 octock. It was plentiful and consisted of the whole range of good things the ladies know so well how to prepare for such occasions. Everybody was invited to make themselves at home, and after a blessing that was invoked by Rev. Dr. J. H. Thornwell, the invitation was taken under very serious consideration.

with the exception of perhaps four or five, all the announced candidates for the various county offices were present. All spent the time pleasantly, and if any of them felt disappointment at the comparatively small attendance of voters, the fact was not mentioned. The reason of the failure of the formers of the surrounding country to The reason of the faintre of the farmers of the surrounding country to turn out was the fact that all of them are still busy in their crops. Had the date of the picnic been postponed two or three weeks later, it is probable that there would have been several thousand people in attendance.

Jim Gilmore Gets Ten Years.

Chester special of Tuesday to the Charlotte Observer: The June term of Charlotte Observer: The June term of the court of general sessions convened here yesterday morning, Judge Gary presiding. The only case of interest was that of James Gilmore, colored, charged with burglarizing a dwelling at Lowryville, occupied by ladies. He pleaded guilty and was given ten years in the penitentiary. Gilmore is a notorious and desperate character. Having made his escape from jail shortly after his first arrest, he evaded the ing made his escape from lail shorty after his first arrest, he evaded the officers for more than a year and it was only a month or so ago he was recaptured in York county. Sheriff Cornwell, unwilling to take further chances, has had him since that time chained in his cell.

Broke the Record.

Broke the Record.

Mr. H. H. Beard of Yorkville released 24 carrier pigeons at this place at surrise on the morning of July 1, for Charles Smith of Trenton, New Jersey, and according to the Trenton Sunday Advertiser, six of the birds made the trip, a distance of 508.16 miles, in 12 hours and 26 minutes, or at the rate of 1200 yerds a minute. According of 1,200 yards a minute. According to the Advertiser this beats all pre-vious records at Trenton, and is 1 hour and 37 minutes faster than the hour and 37 minutes faster than the best time that was made in a race two weeks before. Mr. Beard has a letter from Mr. Smith under date of July 4. In the letter Mr. Smith reports the subsequent arrival of some more of the birds and says that up to the Fourth eleven were still out. He expected most of them to get in eventually. Couldn't Control the Horses.

Rock Hill special of July 5, to News and Courier: William Irving Fayssoux, the eighteen-year-old boy of hypnotic and clairvoyant powers, has been here several days giving exhibitions. In the carriage drive yesterday afternoon a bad accident was narrowly averted. As it was an awning in front of a store was torn from the curbings and the vehicle in which Fayssoux and a committee of citizens were seated was completely wrecked. This gave the sceptical an opportunity to get in their completely wrecked. This gave the sceptical an opportunity to get in their work and numerous "told you so's," nevertheless it was very evident that it was from no fault of the blindfolded hypnotist holding the reins that the accident occurred. It was a plain case of very excitable horses running away. Mr. W. J. Roddey, who was one of the committee and was sitting on the seat by Fayssoux, stated positively that the latter was pulling with all his might to keep the horses from running into latter was pulling with all his might to keep the horses from running into the sidewalks. After the wreck Faysoux was anxious to complete the drive even with the same team, but the town authorities forbade it. The hypnotist gave a very enjoyable entertainment at Friedheim's hall last evening to a full house and will repeat it tonight.

At the Big Power House.

The situation at the plant of the Catawba Power company is very different from what it was six or seven months ago. Then the whole vicinity was alive with hundreds of busy laborers, mule teams, hoisting engines, etc. Now there are left only signs of the big population that used to be there. There are still standing scores of empty shacks and on the knoll that runs back from the power house is what looks like a cemetery of expensive machinery, hoisting engines, derricks, etc. These have all been gathered up from the river bank and placed on the side of the road for shipment elsewhere. Approaching the power house from the east, the visitor notes signs of "no admission for buggles," "danger," etc., and at the same time hears a hum of machinery, rather low of pitch, but very strong of volume. The situation at the plant of the of pitch, but very strong of volume. The reporter was there a day or two ago and found only one of the four big dynamos that have been installed running. Superintendent Cannon started the other one while the reporter was there. Mr. Cannon happened to be very busy just then, however, and was unable to take the time necessary to explain the workings of the big plant. He has three or four assistants and all of them are kept busy, not working very hard but watching and regulating very hard but watching and regulating principally. The river pours over the dam with a steady roar, and the back water extending from hill to hill formiles and miles furnishes an interesting view. The place is quite a popular objective for visitors who are constantly dropping in from the country surrounding, from Rock Hill, Fort Mill, Verkville and elsewhere. Yorkville and elsewhere.

Editor Yorkville Enquirer: Editor Yorkville Enquirer:
After careful consideration, I have determined to withdraw from the canvass for the office of county supervisor. I find that I will not be able to attend Vass for the onic variety of the campaign appointments and cannot canvass the county. Therefore, I think it proper to withdraw from the contest which I now do. At the same time, I am very appreciative of the encouragement given me by my friends, and sincerely thank them for their assurances of support, which I would be glad to receive, were I to continue in the field.

Very respectfully, W. J. Poag.

Actual Results.

Sensible business folks measure other folks, companies and corporations not by what they "estimate" that they can do but by what they actually accomplish. The record of the Mutual Benefit Life Insurance Company for the past 59 years, taken together with the unequaled liberality of its Policy Contract and its unsurpassed reputation for fair dealing with its members, proves that it furnishes the best insurance at the lowest cost price. An impartial investigation of the foregoing claim is sure to convince you that it is the whole truth. You will receive the proof by return mail if asked for.
