colds.

Scraps and facts.

-Joseph L. Bristow has tendered his resignation as fourth assistant postmaster general, and the president has appointed him as a special commissioner to make an investigation into the present trade conditions and freight rates between the west coast of South America, and the east coast of the United States and Europe. The special object of Mr. Bristow's work is to determine the best policy of managing the Panama canal. While engaged in the work Mr. Bristow is to have \$15 a day salary and is to be allowed \$5 a day for a stenographer. - William H. Sheppard, whose home city is Staunton, Va., and who for the past fourteen years has been a Presbyterian missionary in the Congo Free State, on last Saturday presented to the president a handsome rug, a cover let of palm fibre linen and a unique pipe, all of the articles being manufactured and used by the natives of Central Africa. Mr. Sheppard told the president that since he went to Africa, the natives have introduced printing presses and now print the Bible in their native language, although prior to fourteen years ago the language had not been reduced to reading characters and the natives had never even heard of a book. Mr. Sheppard is in this country on a year's leave of ab-

sence and expects to return to Africa at the expiration of his leave. - The Cleveland, Ohio, Plain Dealer prints a story to the effect that government detectives have secured conclusive evidence that Mrs. Cassie L. Chadwick squandered a great deal of the money that she secured from Ohio banks on diamonds, and other precious stones which she gave away to her friends. It has been learned, says the Plain Dealer, that Mrs. Chadwick bought precious stones abroad literally by the peck and smuggled them into the United States. Up to this time more than \$100,000 worth of these stones have been traced to the parties who now hold them, and all of these

will be recovered. The government will get 10 per cent of the value of the IF the wickedness of a monopoly be stones recovered on account of tariff gauged by the extent to which it adduties and the balance of their value. vances prices and adulterates its prowill go to the receiver of Mrs. Chadducts, is Standard Oil less righteous wick's effects to be turned over to her than the South Carolina dispensary creditors. gang?
