Every family should have and wants a first-class Oil Stove. Up to the in-troduction of the PERFECTION, the one great drawback and objection to seem to be recovering.—Hartford dispatch to Baltimore Sun.

Seem to Baltimore Sun.

It is so arranged that it is impossible for the wick to crawl and cannot possibly smoke. Most oil stoves have been mussy things, hard to keep in order and clean. The Perfection is so compact and simple that it is as easy to keep clean as an ordinary lamp.

Another advantage of the Perfection Oil Stove is that it can be used for a stove for ten minutes and in one min-ute more can be converted into an il-luminating lamp for the reading table. The price is low, the stove is good, it makes a terrific heat in a few seconds and makes a beautiful clear light as a reading lamp. Come and let us show it to you.
