ing that he was the soldier. - A determined effort will be made on the part of the American Federation of Labor, says a Chicago dispatch, to bring about the unionization of farmers of this country and their affiliation with the American Federation of Labor for mutual benefit and protection. In Wisconsin and Minnesota a number of farmers' unions have been formed already and according to the statement of the officials of the Federation, the affiliation of these farmers' unions with the American Federation of Labor is merely a question of time. The leaders of the Federation are highly enthusiastic over the prospect of an alliance between the city wage workin Pittsburg in November. It is not North Carolina. expected that the plan of affiliation will meet with any opposition from the Federation.

Balsam mountains by an old mouncrime was made by the trapper's son. The dying mountain lad stated that the mountain climber was found one morning by his father and himself, caught in a bear trap on Balsam mountain. He was mangled and in that should he survive he would in a cave, and since the mountaineer's confession the skeleton has been unearthed. The old mountain trapper and his son left the state, but the dving condition to tell the story of his crime. Mr. Nelson says that he time, but refuses to divulge them pardon the old trapper.

- Baltimore Sun: The Medical Rec-

years was made totally blind by drinking two ounces of wood alcohol. After about four days he was totally blind and at the same time suffered from nausea and chilly extremities Six months of treatment resulted in partial recovery of the sight, but the left eve was ever after insensible to green. As wood alcohol is in effect a dangerous poison it is to be regretted that its use is extending, being employed by dispensers of cheap whisky and by compounders of so-called medicines. Grain alcohol is bad enough if used constantly as a stimulant but wood alcohol is 50 times worse. Bibulous ful about the quality of their potations They should have an idea also of the composition of the ready-made elixirs, bitters and medicines they consume. "Jamaica ginger" is sometimes made with wood alcohol instead of grain alcohol, it is stated, so that it needs to be bought, if used at all, from stated that the authorities at Washington are beginning to analyze for themselves the patent medicines on the market, with a view to the collection of the full revenue due on account may prove useful to the public in more

YORKVILLE, S. C.:

TUESDAY, OCTOBER 3, 1905.

GOVERNOR Glenn of North Carolina has just returned from a trip through ers, the farm hands and the farmers. New England. He says that from It is expected that the western far- what he saw during his absence, he is mers will be well represented at the satisfied that prohibition will prohibit, next meeting of the American Feder- and he hopes to see the day when the ation of Labor, which will be held liquor business will be stamped out of

As the result of the strike against it last week the Charlotte Observer has -The murder of a tourist in the arranged to send four young men to the Mergenthaler Linotype works to tain trapper is reported in Asheville, learn to operate the type setting maby W. B. Nelson, a lumberman, to chine. When the young men come whom a deathbed confession of the back the Observer proposes to give them steady employment at a scale of wages to be agreed upon.

COUNT Stangiska of Russia, son o a high official of the Siberian railroad. and a cousin of M. Witte, has come to agony. The mountaineers were afraid America to learn the railroad business. He is now with the New York Central make trouble for them. "We uns road, having worked a week or two as didn't want him to law us," the dying brakeman. He proposes to learn what boy declared, "and so dad raised his he can of all the different departments rifle and fired." The body was hid of railroad work, practical and theoretical up to the general management.

SENATOR Tillman's demand for an investigation of what is behind the son returned a few days ago in a Richland distillery meets with our most hearty approval. As to whether the personnel of the real stockholders will give the names at the right of the Richland Distillery company can be fully developed we are more now until the governor is asked to than doubtful; but we still have a very strong suspicion that if the senator can get to the bottom of the matter, he ord describes a case in which a man of will uncover some people who have een running with the hare and bark ing with the hounds. That Richland distillery proposition should be probed to the very bottom.

ACCORDING to the general tenor of the dispatches from Tokio, it is beginning to seem apparent that Japan had better reasons for making peace with Russia than were expected. The story is that the war was costing a great deal more than was expected and that the government could not have raised the money for more than six months longer. In addition to this, it had developed that the rice and cereal crops of the empire were both refined or elevating. Altogether, the majority of Rock Hillians would no going to be very short, and altogether the outlook seemed so blue as to make it evident that the struggle would be hopeless.

THE Charlotte papers have about won the strike that was declared a competent and reputable dealer. It is against them by the union printers last was for nine hours pay for eight hours work. The papers had a pretty hard time of it for several days to get out of installing a system of sewerage in even fairly good shape; but they are This latter topic is a live issue in Rock of their spirit content. The analyses now beginning to look like their former selves. Some of the strikers have understanding that from hence forward the offices are to be run as open shops. That is, the proprietors are to control their own business and employ union men and non-union men alike as they see proper. Under the union system the people who pay the bills have but little to say as to who shall be employed or how employes shall work. Where the union has control, it is su-

Enforce the Law.

Nothing that has ever appeared i this paper on the subject has been calculated to inculcate the impression that we believed that the mere voting out

The afternoon of tax on counties that should vote out that day will be spent in Mobile. dispensaries, because we considered This is as far as the president's ar- that rider to have been fixed merely for rangements extend. While on the the purpose of discouraging anti-dispensary votes, we have no hesitation in state fairs-at Raleigh, October 19th; saying that we do not approve of the policy that has been followed of renoving the constabulary from a counwith the closing of dispensary doors, As we see it, it is as much the duty of the state to enforce the laws against the sale of liquor as it is to enforce any round figures in the movement of other laws on the statute books. The cotton into sight for the seven days temptation to violate liquor laws is of 138,000 bales under the seven greater than is the temptation to viodays ending September 29 last year and late other laws, for various reasons, an increase of 51,000 over the same not the least of them being the element of personal gain. But for the brought into sight for the week end- state to say that it will not attempt to enforce the liquor laws in counties which refuse to engage in the liquor business seems to put the state in the position of saying that it has no other than a purely commercial interest in

This county pays about \$3,500 annually to magistrates and constables, before last. The movement shows and these officials can do a great deal 000, which is \$20,000 less than was receipts at all United States ports in enforcing the liquor laws if they the collision since September 1 to be 921,365 bales, will give the matter their attention; against 997,926 last year; overland but of course, unless they are properly

September 1 117,219, against 123,951 to the task that may devolve upon LOCAL AFFAIRS. in this office. The meeting is to be

But whatever may have been th motives of the people who succeeded have been 482,230 bales, against in getting the half-mill extra levy on 578,714 last year. The total of non-dispensary counties, or counties American mills, north and south, and that should vote out dispensaries, we Canada thus far for the season have do not want to be understood as opbeen 280,961, against 245,528 last posing the levy of this tax should it appear necessary or desirable. The en mercial year stocks at American forcement of the liquor laws may go by default for a time, through the terior centres have increased 159,222 negligence of officers who may be inclined to shirk their sworn duty

To turn this county over to the tigers without let or hindrance would soon bring about a condition that would be absolutely intolerable, and a condition that would enforce its own remedy; but we hope and believe that the good people of York county will not allow that condition to develop.

If the magistrates and the constables cannot enforce the laws under conditions as they now exist let us have nore constables-one or two if they can do the work or ten or a dozen if so many be necessary. If the law can be enforced without the half-mill, let it go at that; but otherwise put on the nalf-mill-a mill-two-mills or whatver may be necessary.

We can have prohibition if we want t, and as matters stand now our only alternative from prohibition is but little short of anarchy.

ROCK HILL AND VICINITY.

Building Operations—The Flower Shov -Carnival Company Will Not be Allowed to Show This Fall-Death of Doctor Lynn.

ondence of the Yorkville Enquirer ROCK HILL, October 2.-Mr. Perry had his shoulder dislocated and received other painful hurts while bring-

ing a cow to town.

The walls of the cotton warehouse located in the Hutchison grove are going up rapidly. Owing to some defect in the material on the ground for use in the city hall building, operations there have ceased for the present until U. S. postoffice is progressing rapidly. Mr. W. R. Carroll has information of a one-horse farmer who has already ginned seven bales, all in September This circumstance is unusual. Quite a large number of negroes

have left this section to work on the Great Catawba Falls railroad. The exodus continues in that direction. The spinning mills now have a satisfactory margin between the raw material and the manufactured product

and are making a very good profit. There is quite a satisfactory demand at the stores for seed wheat, and the dications are that whether the acreage be up to the usual average or not there will certainly be some wheat sown this fall.

A local cotton buyer remarked in the presence of the reporter a few days ago that the southern mills were just about ready to go into the market as the recent break occurred, and since then they have been inclined to be timid. The banks are paying out numbers

of bright new silver dollars that look as if they are just from the mint. The date however, is 1882. The dollars have evidently been lying in the treasury all the while and are just getting into circulation for the first time. A meeting of the executive commit-

tee of the York County Southern Cotton association has been called to be held in Yorkville next Friday, October 6, to consider several matters, among other things the best way to raise the 3 cents per bale assessment. The price of mules has reached unu-

sually high figures, the highest in fact that have ever been known, and some of the farmers are beginning to argue that the situation seems to demand the abandonment of the mule and the substitution of the horse in farm work. Mr. S. J. Ferguson of Chester No 4, the most popular and promising young

brought to this office yesterday an old copy of THE ENQUIRER of August 25, 1867. The paper was addressed to the late J. H. Crawford, long since dead. The first page of this particular issue is devoted to the proceedings in connection with the impeachment of President Andrew Johnson. It has been demonstrated within the

past few years that this is a good apple country if nurserymen will only be judicious in the selection of the right kind of trees. Trees should be put out now within the next month or two, and people who had not already made arrangements to do some planting should attend to the matter without more de-

In the opinion of local cotton dealers there is not a very strong disposition on the part of producers to hold for 11 cents. As a general thing, especially great excitement throughout Texas in the case of cotton producers who have obligations at the stores, cotton mitted at Edna, last Thursday, and is being marketed as rapidly as it can be picked. Many of the larger plant-Mrs. A. J. Conditt and four chil- ers are holding for 11 cents and over; but taken all in all the feeling that 10 cents is a good price is quite pronounced. The yield this year is small-The mother and daughter were as- er than last year and not up to the expectations of a month or six weeks street.

Mr. T. M. Whisonant was in Yorkville yesterday on business. he plaintiffs in the various cases and from the allegations in the various complaints it looks as if there is to be some pretty warm work when the cases come to trial,

COUNTY HIGH SCHOOL.

As the result of the failure of Yorkville to secure the location of the Presbyterian college, people who promoted enterprise have been casting about for some other practicable plan to make use of the King's Mountain Military school property, which was the basis of the Yorkville offer and several suggestions have been offered. One suggestion is to the effect that the subscribers be requested to subscribe a part or all of the amounts that they were willing to give to the college, and offer the school property along with a cash bonus to Bethel Presbytery, provided that organization will undertake the maintenance of a first-class high school.

Still another suggestion is that the property be donated to York county under similar conditions with the un derstanding that the county maintain such a school as a part of a still further developed public system. This idea contemplates the support of the proposed school from the general fund and from tuition. It is proposed that each school district in the county be entitled to a limited number of scholarships, in accordance with some equitable schedule to be agreed upon and that other students be charged tui-

tion on a reasonable basis. These suggestions, however, are merely in the nature of individual expressions. There has been no organized movement in regard to the matter and there is no certainty that there will be anything further about the matter.

ABOUT PEOPLE.

T. been released on bonds of \$7,000 his information included exact locations so far as this information could be imparted by means of description. who were alleged to be operating the portant details that were calculated to

in the vicinity of the stills at an early hour Saturday morning; but with the first signs of life in the neighborhood there was evidence of a general alarm. A man they met approaching on muleback, turned back at the first sight of them and foiled all efforts at pursuit. He lost himself in by-paths through the woods and was seen no more. It was impossible even to follow his

Several hours afterward the officers evident from the gears they wore, had been used in drawing a wagon. The men had no information to give out. The officers proceeded in the general direction from which the mule riders had come, and at length stumbled upon plant. There were twelve large mash der consideration, and it was agreed .— Chester special of October the site of quite an extensive distillery boxes all of them containing mash in different stages of development, the whole, together with the beer ready for use amounted to more than one thousand gallons. But the still was gone. The infor-

with a capacity of eighty or eighty-five gallons. There were evidences that it pointed to make the canvass. had been moved within a few hours before; but the trail could be followed only a short distance through the woods to a fence. Beyond the fence there were no further indications as to which way the big copper kettle had been carried.

There are numerous old gold workings in the vicinity. In fact the woods are full of holes, some going down to a depth of fifty or seventy-five feet. perhaps more. The mouths of several of these old mines were examined, and in the case of one there were ladders to the bottom. Deputy Sheriff Quinn and Constable Hay undertook to go to the bottom of this shaft but after getting down 25 or 30 feet they decided that the air was too foul to warrant further risk. Searching about through the woods,

the officers came upon a five gallon keg, covered with brush on the side of the road. It had been full of whisky and still contained about a quart. Near by was a trench that had been wery busy for the past week or ten days mowing and hauling in their workings, and there were leavines. evidences that there had been somebody in it recently. The officers investigated further and proceeding along the trench for a few yards came upon a small barrel of whisky. It also had been partly covered with brush and leaves. The contents included some thirty gallons or more.

Constable Jenkins had provided himself with several search warrants, and one of them had been procured with reference to the home of Alec Boheler, who had been especially reported in connection with the moonshining. Boheler was not at home but his wife was and she made strenuous objection to the entrance of the officers into her home. They paid no attention, however, and found along with a number of measuring pots, funnels, etc., a jug containing three gallons of whisky. The whisky was also seized.

According to the officers who were connected with the raid there is a considerable amount of whisky being made in the neighborhood, and the distillers have a preponderating influence over the people of the neighborhood. The people are not inclined to give out any more information than they can possibly help, fearing injury to their property or personal violence at the hands of the moonshiners.
