

THE CLANSMAN IN NEW YORK.

Dixon's Play Enthusiastically Received By Large Audience.

To all appearances "The Clansman" completely captured the hearts of New York audiences gathered in the Liberty theatre Tuesday night, says a dispatch. The applause began early and kept up till passages in the play were frequently interrupted. This continued till at the end of the second act the curtain rose again and again, while the players grew weary of bowing their acknowledgments. Finally, after continued applause and loud calls of "author" and "Dixon," Mr. Thomas Dixon, Jr., appeared and bowed again and again to the salutes that greeted him. When the audience at last quieted down Mr. Dixon spoke as follows:

"My profession for twenty years has been public speaking and if there is one thing that thrills me it is the sound of my own voice. I've a notion that it has tired other people, too. People say, 'The Clansman has been a success in the south. You have demonstrated tonight that there is no south, we are all one people. The simple fact is that joy, sorrow, peace and suffering are all universal and belong to the human heart everywhere.'"

These sentiments were followed by another outburst of applause, which lasted for several minutes. Respectfully and bowed again and again to the close of every act and even the rise of the curtain.

The above are facts that are true and plain to every right-thinking person. It has been a mystery all along why so little interest is taken in such matters by our people. Why not go to a little extra trouble and raise every two or three years. This can be done on hundreds of farms in Dorchester county. And yet if there is a single farmer in the county who does not raise any such energy, it is unknown to the writer. We hope this matter will receive due consideration by the people of our county. It will mean a saving of thousands of dollars to the farmers and taxpayers of Dorchester county.

CHARLES IN TROUBLE.—President Roosevelt, it is stated on the best authority, has told District Attorney Capers that he will not be appointed to the judgeship in case provision for a new Federal Judge for South Carolina is made by congress. There is some doubt, also, about Mr. Capers being reappointed to the position he now holds.

THE TERM OF DISTRICT ATTORNEY CAPERS ended on December 16. There has as yet been no reappointment, for the reason that an investigation is being made by an agent of Attorney General Moody into certain charges made against Mr. Capers.

AT THE DEPARTMENT OF JUSTICE it is acknowledged that formal charges have been filed affecting the efficiency and character of Mr. Capers. What these are, or who filed them, the department will not disclose. They are of a character, however, calling for investigation, and this is under way.

IT IS THE PRESIDENT'S purpose to reappoint Mr. Capers by his present position, unless this investigation should disclose facts that make such reappointment impossible.—News and Courier.

ITALIAN COTTON LABORERS.—The experiment of Col. Maxwell, the largest individual cotton planter in Louisiana, with importing Italian families on his plantations for the purpose of obtaining laborers in his cotton fields, proved so successful, that it is probable that an effort will be made not only in Louisiana, but also in Tennessee and other states, to import Italian laborers to supplant the negroes working in the cotton fields.

NO SILVER DOLLARS OF 1905.—Many inquiries have been received regarding the item recently published that \$1,000 is offered for a silver dollar of 1905. The man who made the offer stands by it and believes that almost any coin dealer would double it, on the ground that no silver dollars were coined in 1905, as no law was passed authorizing the secretary of the treasury to coin them.

AT THE END OF 1904 the quantity of silver dollars in circulation was so great that no necessity was felt of continuing their coinage. Besides, the amount of bullion available for the purpose was at that time limited. It is possible that the coinage of silver dollars may be resumed this year.

GOVERNMENT OFFICIALS in Washington said Wednesday that counterfeit 1905 silver dollars are likely to turn up as a result of the publication. Whenever a premium is offered for silver dollars the counterfeiters become very busy, because they are able to put even more silver into a dollar than the government does and still make a handsome profit, provided they don't get caught.

GREENWOOD BOND CASE.—The case of Graham and Marsh, the former auditor and latter treasurer of Greenwood county vs. E. Ellen Polson and others, was decided by the supreme court of the United States last Monday adversely to the county. The opinion of the court was delivered by Justice McKenna and affirmed the decision of the United States circuit court for the district of South Carolina.

THE ACTION was brought to compel payment of interest on the bonds of Ninety-Six of Asheville, afterwards of Greenwood county, to aid in construction of the Greenville and Port Royal railroad. The road was never constructed, but the circuit court held for

POISON ON THE GROUND THAT SHE WAS AN INNOCENT PURCHASER.

The case involved the validity of a South Carolina state law directing that taxes should not be collected to pay bonds given on railroads that were never built, but the court held that the obligation of the contract must not be thus impaired.

IMMIGRATION IN 1905.—The officials figures given out Wednesday by the bureau of statistics on Ellis Island, N. Y., show that the immigration during the year 1905 was enormous. It was far greater than in 1903, which had been the banner year and also more than in 1904. The grand total is nearly up to the million mark.

There was substantial increase in all classes, despite the fact that the immigration figures were larger than ever before, in the history of the port, the number of persons traveling in the cabin and steerage ports the various lines from foreign ports the Hamburg-American line, then the Cunard line. Of the total of \$70,012 steerage passengers brought here, about 718,000 were immigrants.

PROFIT IN MULES.—With ordinary farm mules commanding the prices that they now do we cannot understand why South Carolina farmers persist in paying prices rather than raise all they need at home and a few county mules can be raised in this county successfully as has been demonstrated at the state farm. A sound young mule of good size is worth from \$200 to \$250, and it has been asserted and uncontroverted that the cost of raising a mule is not more than \$75 at the maximum, while under favorable conditions the cost is less than \$50.—Sumner Item.

The above are facts that are true and plain to every right-thinking person. It has been a mystery all along why so little interest is taken in such matters by our people. Why not go to a little extra trouble and raise every two or three years. This can be done on hundreds of farms in Dorchester county. And yet if there is a single farmer in the county who does not raise any such energy, it is unknown to the writer. We hope this matter will receive due consideration by the people of our county. It will mean a saving of thousands of dollars to the farmers and taxpayers of Dorchester county.

THE GREENVILLE NEWS.—The Greenville, S. C. News makes announcement of the fact that Mr. Geo. W. Brunson, Jr., is to take the editorship of the News, some two or three months ago, the resignation of Mr. R. W. Simpson, Jr., of the editorship of the News, some two or three months ago, the editorial work has been done, and well done, by Mr. Douglas Jenkins, the telegraph and printing department of the News and has been newspaper service on the Norfolk Dispatch and Charlotte News and is now editor of the Norfolk Dispatch. He goes to his new field well equipped for the work before him. He made many friends while he lived in Charlotte and these hope that he will find his new position an agreeable one.—Charlotte Observer.
