—Using the comptroller general's reports for the source of his information, Mr. Henry W. Miller, who last week appeared before the state board of equalization for the Southern railway, made an incisive analysis of the tax situation in this state. sis of the tax situation in this state, showing the injustice prevailing in the great inequality of valuation. He said: "In 1895 the report shows that there was given in for taxation money on hand to the value of \$3,950,-256. In 1905 it had shrunk to \$1,146.84? 256. In 1905 it had shrunk to \$1, 146,647, while the bank statement 146,647, while the bank statements show that there was on deposit by individuals in the state, national and private banks, \$37,090,719. I make the assertion that there is more on deposit in the savings banks of the city of Charleston than is reported for the entire state, and in looking at the value of money in Charleston county for 1965. I notice the ridicular at the value of money in Charleston county for 1905 I notice the ridiculously low figure of \$110,265. "The solvent credits as given in for 1895 were \$4,261,997, while in 1905 they were \$1,789,611, the comptroller general's report shows these remarkable figures: Horses, average value per head, \$53; cattle, \$9.92; mules, \$55; sheep, \$1.04; hogs, \$2.12. Anybody knows that it is impossible to buy a good horse or mule for less than \$200, and here we have an assessment of about twenty per cent. Gold and stiver and plated ware were assessed in 1905 at \$288,861. a shrinkage of \$100,000 in ten years. Planos and organs are assessed at an average of \$31 and carriages at \$17. Whoever heard of such values? The census report shows the average value per acre in 1900 of farm products \$4.47. which is \$1.44 greater than the average value per acre placed on the land which raised these ducts \$4.47, which is \$1.44 greater than the average value per acre placed on the land which raised these products. The comptroller general's report, page 32, for 1905, gives the total fire insurance risks written in the state for 1904 at \$114,758,986, whereas the total of all insurable property in the state according to the tax values is only \$90,682,862. It is well known that all the property is not insured, but assuming that fifty per cent at full value is insured, the per cent at full value is insured, the total valuation would be \$230,000,000. The tax value is therefore less than

An Anderson special of September 14 to News and Courier: As a result of a disturbance near Piedmont caused by negroes who and will probably be sent to the asy lum. They are undoubtedly crazed with religious frenzy. They talk ir-rationally and imagine they are idol having destroyed much property in their houses, such as pictures, mirrors, clocks, and musical instruments. One of those in jail is quite seriously wounded, having three bullets in his body. The dead negro is said to have been a negro of prominence and worth several thousand dollars. Mr. and Mrs. Jas. Long who were attacked by the negroes, are both quite badly hurt, having been assailed with rocks. Dr. Tripp, who was shot in the capture of the negroes, is seriously wounded, but will recover. It is said that he was shot by one of his own party by mistake. He was wounded in the breast. The negroes, it seems, started out on a regular rampage, and first attacked a house occupied by their own race. They struck terror to the hearts of the struck terror to the hearts of the inmates and they fled. The negroes proceeded to the house of Mr. Long, who is a prominent citizen of that section, and assailed Mr. and Mrs. Long with rocks, and wounded them badly. As soon as the reports of the outrage went out a crowd gathered to begin a hunt for the negroes. They were surrounded in a house and af-ter several shots were fired by both sides they were captured. It was in this skirmish that Dr. Tripp and the negroes were wounded. The one who died was named Reed and he was very badly shot up. The two who have been examined for lunacy are William and Elsey Anderson, un-cle and nephew. Deputy Scott, who made the arrests of the negroes, reports that the house in which the men were captured was a complete wreck so far as the furniture was concerned. Nearly every article of household adornment was broken into pieces, the negroes claiming that into pieces, the negroes claiming that such things were idols and should be destroyed. They claim that there must be a revolution among the people and that they must change their manner of living. It is plainly a case of religious fanaticism carried to an alarming extent and is something out of the ordinary in this state. of the ordinary in this state.

POOR CAR SERVICE.

Correspondent Complains of Charles ton Division of the Southern.

Editor Yorkville Enquirer: As a frequent traveler on the Mar-ion-Kingsville branch of the Southern ion-Kingsville branch of the Southern railway, I want to enter a protest against the disgraceful service that is given to the patrons of this line. I have no particular kick on the schedules as they are at present, although I am sure they could be very materially improved in several particulars; but I do want to make a streetous kick at do want to make a stree ous kick at the trains—or rather the the trains—or this branch. The cars used the trains of this branch would be a disgrace to a jerk-water railroad in Porto Rico or Sen Domingo. The cars are not kent San Domingo. The cars are not kept clean; at night they are only half lighted; the windows, or a majority of lighted; the windows, or a majority of them are in such condition that the sashes cannot be raised or the blinds cannot be lowered. And then too, all these trains should have a porter for each, to assist passengers on and off the cars, especially ladies with children and bundles. The conductors are courteous, high-toned gentlemen, but at best they can only help one or two at a time.

I hope the echo of this kick will go all the way down to Charleston and up by Washington and back to Columbia to the railroad commission and b fruitful of results. MILEAGE BOOK.

Aside From the Fact You Can

That no company in the United States of established and recognized standing writes as liberal policy conguarantees as much to the policy holder as does the Mutual Benefit Life Insurance Company of Newark, it is the only company doing business in this section today that pays all its policy holders annual dividends. If you are a wise man you will use the same kind of discrimination in buying life insurance you would in buying any other valuable piece of property, and buy from a company and not from an agent as it is the former and not the latter with whom the contract is really made. It is a duty you owe yourself to thoroughly understand.

INCORPORATED.

The magic of a name has seldom been better illustrated than in the constant and rapidly growing demand for farm implements and machinery bearing the name OSBORNE. This demand is not the result of chance, but comes solely from the knowledge among the farmers of the world that any machine or implement made at the OSBORNE works is constructed of the Best Material, and Assembled in the most skillful manner to do the most effective work

with the least expenditure of motive force. The Osborne reputation for honest goods and fair dealing is a guarantee that the Osborne standard of excellence will be maintained-and that excellent reputation will be faithfully guarded as long

as the Osborne name endures. OSBORNE MOWERS

We sell the OSBORNE line of MOWERS and RAKES because we believe they are superior to any machines of their kind manufactured in the United States. The Osborne Mowing Machines give the highest efficiency in the cutting of all kinds of grasses, vines and cane with the least amount of power required for driving. Every Osborne machine is built on scientific lines that have not only gone through the theoretical stage, but which have been put to the severest tests that hay cutting machines can be put to. If you are considering the question of buying a Mower now is the time to do and it will give us pleasure to point out to you the various points it superiority of the OSBORNE MOWERS. It has its superior points and we think we can show them to you so plainly that you, even though you may be skeptical about it, will be convinced that the OSBORNE MOWER is the machine to buy for ease of operation and economy in the running. At least see the OSBORNE.

OSBORNE HORSE RAKES

If you buy a Mower you will of course need a RAKE. The Os-borne Horse Rake is just like the Osborne Mower—the best of its kind. The Osborne Rake is made of steel, thereby insuring the greatest strength and durability. It contains many essential and convenient features not to be found on any other Horse Rake, and will do the most satisfactory work in all kinds of hay fields. Let us show you where the Osborne Rake is the best to buy and the

OWENSBORO WAGONS

The OWENSBORO WAGON needs no introduction to York County wagon users. You can see them almost every day on almost every highway. Every man who has ever used an OWENSBORO WAGON will tell you that it is the best wagon he has ever used. They are built of the very best materials from the ground up. They will carry their full rated capacity and some over for good measure. If you contemplate the purchase of a Farm Wagon you will do well to see us about the OWENSBORO before you close any trade. It will cost you nothing to see it was might save you same trade. It will cost you nothing to see it—we might save you some money in the purchase price, and if you should buy an OWENS-BORO you will never have any complaint to make of your choice.

THE BEST IN BUGGIES

While we are talking about rolling stock we want to tell you about our line of BUGGIES—we carry a full line of Buggies from the best makers of their respective grades in the country. All users of BUGGIES will tell you that the SUMMERS and the TYSON users of EUGGIES will tell you that the SUMMERS and the TYSON & JONES stand at the very top of the heap—they have gotten to that point solely by reason of SUPERIOR MERIT AND WORK-MANSHIP—these Buggies represent the very best products of the most expert and efficient builders of buggies. Then we also sell the PIEDMONT and the KING BUGGIES—cheaper than the first two mentioned, but such as will give the buyer of either of them the VERY LARGEST VALUE FOR THE MONEY THAT THEY REP-RESENT. We are large buyers of Buggies and can give you prices that you will consider well before you buy elsewhere. If you want to buy a Mower, a Rake, a Wagon, or a Buggy, see us before you buy. It's to YOUR INTEREST TO DO SO.

'IT MUST BE TRUE." Old Man Ben Johnson, the amiable grocery merchant, said that John Barnwell, the competent electrician and singer, told him that "Toothy White," the tusk puller, said that

Smith, the gay widower had declared that J. A. Tate, the cheerful old bachelor and clerk said in plain oysters, caught Rusty McCorkle up a greased telephone pole, making a very broad statement saying that in

measures more, covers more space, wears longer, cost less and has a pos-itive guarantee with each gallon.
