Is that opportunity taps at least once at every man's door. There is no better way to be ready for those opportunities than having a good Bank Account. Do not wait until you have a large sum.

 Yorkville, S. C.
"Any Man Can Earn A Dollar"

Russell Sage, "but it takes a wise man to use it." That was his motto. "Buy wisely, judiciously," he said. If you buy or sell stock or bonds, your BROKER should help you to earn a dollar, in a measure, because he enables you to save money by buying judiciously and to make money by selling advantageously. Your wisdom is using a dollar, combined with the broker's facilities in buying and selling, thus adds to your earnings.

Do you buy or sell stocks and bonds or real estate? If so, I may be able to help you finance your deals, as I have been "buying judiciously" and have provided "available collateral" against any possible need in financing.

The Same Old Story
 The sixty-second annual statement of the Mutual Benefit Life Insurance Company, and is another testimonial as to the efficiency, economy and wisdom of the management of this company. It is a statement that strengthens its hold upon all familiar with its long and honorable career, and liberality toward its policy holders. I will not undertake to quote figures, because to many they would be of little interest, but will say that the Mutual Benefit is in a class all by itself, and guaranteed its policy holders more than any other company, and it is of course gratifying to me to know that the more familiar the people become with its record and policy contracts the easier it is for me to get business. You owe it to yourself to investigate the Mutual Benefit before placing your insurance.
