-The final chapter in the litigation of the state against the Waters-Pierce Oil company, the payment of probably the largest fine ever assessed against a corporation, nearly two million dollars, was enacted in a spectacular manner at Austin, Texas, last Saturday afternoon. From the American National bank one-half of the total amount was carried and delivered in two automo biles at the state treasury. Then, at breakneck speed, the cars were driver to the Austin National bank, and a similar bundle of currency taken on and similarly disposed of. In the telescope valises, those in charge of the payments carried bills of different denominations up the capitol steps. When the fine bearers reached the treasury department, doors were locked and Attorney General Davidson and other officials were sent for and the money counted. The fine, \$1,808,753.95. was paid with 718 one thousand dollar bills, 160 ten dollar bills and the remainder in smaller currency. Colonel Roosevelt spent part of yesterday sorting his kit, while Kermit and several of the men went to try their luck with the rifles. Colonel Roosevelt's first hunt was favored by fine weather. He bagged two wildebeests and a Thompson gazelle. He was somewhat disappointed, however, as he had been anxious to secure a Grant's gazelle, whose massive horns are much sought after for trophies. Smallpox is prevalent at Nairobi, and two cases have developed among the porters at Kapiti. These have been quarantined, the strictest precautions being observed to prevent a spread of the disease among those in the Roosevelt party. The police are still protecting the Americans from annoyance. They will not permit any except those designated by Colonel Roosevelt to go with the expedition. It has been definitely learned that none of Mr. Roosevelt's baggage has been stolen. Game was numerous on the plains today.

If it were possible to stir the blood of the Christian world in behalf of their co-religionists, it looks as if nothing more should be needed beyond the news that is daily coming from Asiatic Turkey. There may be two sides to the story; but the only side that has so far appeared is that the wild Mohammedan Kurds and Circassians are massacring defenseless Christians for no other reason than that they are Christians. there is room for difference of opinion among banking people, some holding ber the interview with Dr. Mell in re-to one view and some to another; but gard to his meddling with the military however, this may be there is no question of the fact that such abundant banking facilities are a great convenlence to the people concerned.

The establishment of a second bank at Yorkville has done much to double the banking capital at this place, without appreciable injury to the bank already in the field, it having continued to prosper and develop as rapidly as before.

But, of course, the question as to whether there are too many banks is question, doctor; say, the charges not to be settled by off hand opinion, are all true or false. If false, say so; whether that opinion be interested or disinterested. So far as we are able to the real test.

And there has been great benefit to the country. Not only has much general good been derived from convenient banking facilities; but the educational value of the various institutions to the country as a whole has been almost beyond estimation. And better Tompkinsville, Staten Island, at noon still, this educational work seems to have only fairly commenced.

After considerable fighting in which any lives were lost, the Yildiz Kiosk, the official home of the sultan of Turkey fell into the hands of the Constitutionalist party last Sunday, and fur ther developments are uncertain. While the Associated Press is carry

It seems that most of the troops in Constantinople, garrisoned in the various fortresses and in the Yildiz palace were more or less loyal to the sultar forces of the Constitutionalist up as required. > John and Dolph Neely of Ebeneze - There was lots of politics in the National Conference of the Daughters of the American Revolution in Wash ington last week. There was a hot contest for the position of director general, the division being along the lines of administration and anti-administration, and after the vote was cast, twenty hours were spent in counting and recounting it. There were 873 ballots cast, and Mrs. Matthew T. Scott of Illinois, was elected president general over Mrs. William Cummings Story of New York, by a majority of only eight votes. Mrs. Story wanted to make the election unanimous; but because of so much strife in the campaign this was impracticable. During Saturday the convention approved the election of the various state regents. They included: Alabama, Mrs. Robert A. McClellan: Arkansas, Mrs. John Barrow: Florida. Mrs. J. M. It had been hoped a rate of \$4.05 would be made on rails. Although no decision has been reached, it is regarded as practically settled that the rate adopted by the house will stand. No action was taken on the crude petroleum schedule but it is admitted that some protection will be provided for by the senate committee, or on the floor of the senate, giving protection for the producers. It is not likely, however, that the 50 per cent ad valorem rate desired by the independents will be allowed. The house placed petroleum on the free list.
