"Resolved, further, That we send a copy of these resolutions to each of the above mentioned gentlemen.

"Resolved, That the secretary of agriculture of the United States be specially requested to give this matter his earliest and most careful attention.

"Whereas, the cotton producers of the south are in need of specific information from the department of agriculture of the United States as to the length of staple, gradings, etc., that are required by the consuming countries, and to engage in live stock raising, particularly in the raising of beef cattle.
