There Is A Reason

During the first three month During the first three months of 1909 more new business was written by Mutual Benefit Agents In South Carolina than during any similar period of the fifteen years since this grand old company has been doing business in the state, and more than twice as much as during January, February and March of 1908, and this in the face of the fact that it is claimed that financial conditions are claimed that financial conditions are not so good as previous to October, 1907, and also that more life companies are seeking business in the state than ever before. My personal business during the three months just ended was more than four times as great as in 1908. There must be substantial reasons for the increase, don't you reckon? Well, there are. You will be able to fully understand and appreciate them if you will call and let me tell you something of the company's record covering a period of 64 years and explain the policy contracts it is offering. t is offering.

THE DARK CORNER. CORNER

EVERYBODY WHO IS ANYBODY AND EVERY-BODY WHO WANTS TO BE SOMEBODY, HAS EITHER READ OR THEY ARE GOING TO READ THE "DARK CORNER."

As descriptive of the conditions it describes, the name "DARK CORNER" is all right; but as descriptive of the purpose it was intended to accomplish and the actual results that it is attaining, the name is a misnomer. "The Searchlight of Truth on the Pathway of the Gropers," would be a more comprehensive name were it not too long.

But don't gather the idea that it is a dull sermon or a curtain lecture that you are asked to read. Far from it. The book is full of thrilling interest from cover to cover. It's a love story. No man or woman has ever read it yet without deriving benefit that was far out of proportion to the cost-ONLY \$1.00 A COPY.
