— New York, November 21: The pastor of the well-to-do Collegiate Baptist Church of the Covenant astonished his comfortable congregation tonight by a declaration accommon what the management of the congregation of the congregation tonight by a declaration accommon what the congregation tonight by a declaration accommon what the congregation accommon what the congregation accommon what the congregation accommon was a congregation of the congregation accommon to the congregation of the congregation accommon to the congregation of the congregation accommon to the congregation of the congregation of the congregation of the congregation to the congregation of the congregation of the congregation to the congregation of the congregation of the congregation of the congregation to the congregation of the congregation to comfortable congregation tonight by a declaration concerning what rich men should do. "The intelligent gymnastics" said the Rev. Dr. Haywood, "of the average New York preacher when confronted with the text, 'It is easier for a camel to go through the eye of a readle then for a rich man to enter needle than for a rich man to enter the Kingdom of Heaven, are pitiable I am perhaps the largest property holder here tonight, but I deny the holder here tonight, but I deny the right of any man to exploit the land while there are hungry stomachs to fill. I let my property to tenants for just as little as will pay taxes and the expenses of one girl whom I am putting through college. I have known but two religious men in my life. One is dead and the other is on the Bowtist church, held in Greenwood last is dead and the other is on the Bowery. He has given millions to the poor and he lives the life of a day laborer. There is stamped on the face of J. Bads How, sometimes called the millionaire hobo, more worldly wisdom, more saintliness than any other face I -By reviving a rabbit and a dog

which had been previously shocked to death by electricity, says a New York dispatch, Dr. Louis: G. Robinovitch, a young Russian wonan who came here from France highly credited by European medical societies, has started movement which, it is believed, will at least result in the saving of the lives of many men who have received presumably fatal electric shocks. The demonstration, which was private, was given at the room of officials of the movement which, it is believed, will at shocked to death in their power houses. Dr. Robinovitch first applied an eleccurrent to a rabbit until the several doctors present declared the ani-mal to be thoroughly dead. She mal to be thoroughly dead. She then applied an electric current of four-teen volts intermittently to both ends of the rabbit's spine. This "rhythmic excitation," in a few minutes resulted in restoring the heart beats and in twenty minutes the rabbit was bound-ing friskily about the room. The same result was reported in the case of the dog, only a greater voltage was em-ployed, and it required a longer time. — In an opinion written by Judge Walter I. Sanborn of St. Paul and con-curred in by Judges Vandeventer, Hook

and Adams, with a special concurring opinion by Judge Hook, the United States circuit court for the eastern district of Missouri last Saturday handed down an opinion declaring the Standard Oil company of New Jersey an illegal combination potenting in restraint The opinion of the court was filed simultaneously in St. Louis and in St. of the United States circuit court of appeals, although they were sitting for the purpose of trying this case as the circuit court for the eastern district of Missouri. The decree of the court dissolving the Standard Oil trust becomes effective in thirty days, when no doubt a stay will be granted for the purpose of an appeal. When the decree takes effect, unless a stay is granted, an infunction will issue restraining the an injunction will issue restraining th Standard Oil company from a further continuance of its business under its present formation. It appears from the Hook that the company can not do business under any form while stifling competition, for, he says, on this sub-ject it is thought that with the end of the combination the monopoly will na-turally disappear, but should it not do so, and the members of the combina-tion retire from it except one who migh perpetuate the monopoly by the aggregation of the properties and instru-mentalities, it would constitute a vio lation of the decree of the court.

ed in the St. Paul mine at Cherry, Ill. on Saturday, November 13, twenty having been given up for dead one week. The rescuing forces had made almost superhuman efforts to get to the buried miners; but were held back by the fire and cave-ins. week some thirty or forty bodies were recovered; but all of them were burned and swelled and were beyond recogni-The hundreds of neople, including women and children on the above have given up all hope. gotten through the barricades of debris and smoldering fire, in their search for dead bodies, a party of rescuers on Saturday ran upon a bunch of twenty who had taken refuge in one of the galleries, and thrown up a barricade to protect themselves against further encroachments of the fire. The men were gotten to the top in safety. It developed that they were all but exhausted. They had subsisted at first on the remains of their lunch baskets and then upon bark, and got water that seeped through the walls of their barricade. They operated under the leadership of one of their num-ber, and held religious services twice a day. After the rescue of these miners, it was hoped that others would be found alive; but later all hopes were abandoned. A dispatch of Sunday from Cherry, relates these pathetic incidents of the terrible imprisonment: Letters written in their underground prison by some of the miners rescued alive yesterday came to light in varitouching was written by John Lorimer to his wife, Sadie. Lorimer is a young Scott from Ayrshire, whence he came to America ten years ago. "He just laughs and says he will go back to the mine when he is well," said his wife today, "although I'd be willing, after happened to support he would only get safer As was the case at the home of each of the score of men rescued alive yesterday, Lorimer today received in his bedroom many callers who wished to congratulate him on his escape. Lorimer's letter follows: "Dear Wife:—I am still living, although it is now 5 o'clock Sunday morning and there is little hope as the black damp is getting the best of us. There are twenty-one of us altogether here. Dear wife, do not grieve; we will meet again. God bless you; believe in Him. He will take care of you. I zuess we will meet in a better land. When you get over this let them know at home (Scot-land). That is all, dear. God bless All of the farewell letters were written on pages torn from the time book carried by Mine Boss Walter Waite. Waite had the only lead pencil in the group and it was passed from hand to hand in order that all might write. One instance of the self-sacriwrite. One instance of the self-sacrifice of the more sturdy prisoners was related by Lorimer today: "Walczinski, I think that was his name, was 60 years old and the weakest among us. Lorimer. "Our greatest suffering from thirst, for only thimblefuls could be got from the seepage. Walnot stoop over but had to lie on his face to drink. We made holes in the nd with our fingers and then ed for the oozing water to fill them. When water filled a small hole there was not a man but craved it madly.

stronger men frequently passed

heir turns to let the other men drink."

Lorimer's account of the chivalry of the stronger toward the weaker miners

is disputed by Ine Antoinez, one of the

rescued men. According to Antoinez, the sick man was able to get enough

to drink only after a brawny miner, Yorkville Enquirer,

who believed in the survival of the fittest, had been felled with a pick han-dle and beaten into a sense of brotherly love. This miner, whose name An-toinez would not divulge, drew a knife to enforce his edict that the water should be reserved for those who had the best chance to survive the longest, but nearly all the able men in the sealment of commerce and labor, is reported to be \$88,883,350. In no one month his knife. This figst occurred about the

### YORKVILLE, S. C.:

### TUESDAY, NOVEMBER 23, 1909.

THE Columbia luncheon affair ha about been threshed out, and the result

week, resolutions were adopted requesting the newspapers of the state to refrain from advertising offerings of intoxicating liquors for sale.

DISPATCHES of the past few days indicate that the United States government is going to make a thorough investigation of the recent killing of the two Americans in ...caragua. From present indications it would seem that President Zelava is to be held to strict account for his acts.

THE negroes of South Carolina believe in compulsory education and they New York Edison company, who says that each year a number of men are years the more intelligent whites will wish they had done likewise. The less intelligent whites will still be as they are now, oblivious to the real significance of the situation.

> J. S. BRICE, Esq., who introduced and secured the passage of the first bill that was avowedly intended to kill the state dispensary, and which bill did inflict one mortal wound, from which mortal wound the said state dispensary did finally die, had the satisfaction of being in at the death. The last pen scratch on the report of the winding-up commission is his signa-

SINCE it has developed beyond questhon that the sugar trust has stolen legal combination operating in restraint at least thirty or forty millions of dolof trade and ordering its dissolution. trade and ordering its dissolution, the opinion of the court was filed simulation operating in restraint trade and ordering its dissolution. It is decision the government and prosecution and in St. Louis and In Paul. In this decision the government of the United States wins a sweeping victory and according to Frank G. ernment's special prosecuting officer, widespread than that of two years ago. by two or three would make the divi-the government has won every point As to whether the full vindication of dend look too small to be attractive to ed this decree are in effect the judges might be possible. To us, however, it or have to give it to The Enquirer on the United States circuit court of merely sounds like the threat of any merely sounds like the threat of any the right and proper ground that that other kind of a thief, who feels that he is strong enough to hold his own against organized society. But even if it means panic, the prosecution should go on to the limit. This govpermanently stand on any other foundation than decency and justice.

> rounding counties will do well to realize that they are close on the era of establishment of cross-country the more important towns in the Piedare dreaming. We think we are merely reading the logical outcome of existing conditions-increasing power development, greater need for quick communication and the promise of sub stantial returns for capital invested in that in case of division the sixty dolenterprises of this kind. There are a great many people who are doubtful as pers in proportion to the circulation of to the effect that such development nesses; but we beg leave to throw out the suggestion that those who undertake to stand too stubbornly in the way

cause for much gratification in the success of the dispensary winding-up aggregate of overcharges; but the situation is not yet satisfactory. As we see it, the "overcharges" collected is merely a payment to the state of amounts officials. The whisky houses had to pay graft to do business, and they added their graft on to their regular prices so as to keep from losing money. They no doubt, also increased their profits by decreasing the commercial value of. their wares by means of water and otherwise. It is not probable that the winding-up commission has done any not touch the fellows who got the graft -the trusted agents of the state who, while it was their duty to provide only pure liquors, allowed their fellow citizens to be poisoned with all kinds of adulterated stuffs. These dishonest officials are still enjoying their ill-gotten crime may be committed, and law, justice, decency, the eternal fitness of things, demand that they be punished. Unless they are punished, the whole long desperate fight for right and decency will be only partially successful.

"A Quarterly Complaint." Elsewhere in this issue, we are reproducing from the Rock Hill Herald, the official publication of the disbursements of the county board of commis-sioners of York county during the quarter ending, September 30. This publication by the supervisor is in com-pliance with an act of the legislature, which recognizes the right of the tax-payers to know what goes with their money. The law not only requires that the report be published; but provides the county board of commissioners has seen fit to cause the official publication in a paper that is unable to give the report anything like the circulation it can get through The Enquirer, and realizing that unless it is published in The Enquirer, more than half of the taxpayers of the county will never have an opportunity to see it, we are reproducing it at our own expense, not that we think that any considerable that we think that any considerable and the line will compete with all oth-number of our readers would be so er steam lines. Thus Anderson and unjust as to expect us to do so under the circumstances; but because we desire them to have this information, and we know of no other way by which and we know of no other way by which it can be brought to their attention.—

the main line of the Seaboard Air Line, thereby giving points in this section

The Enquirer is a little milder this quarter in its criticisms than it was last quarter. Here is what it said last

uarter: "Inasmuch as no direct pay goes with t. The Enquirer desires to claim cred it for placing the quarterly report of disbursements of the county supervisor before at least fifteen hundred York county families who would not otherwise have had the opportunity to see it. The Enquirer has 2,150 subscribers in all, and of these we estimate that seventeen hundred are people who take no other York county paper. The En-quirer has at least one thonsand more subscribers than any other paper in

The county board no doubt appreciates The Enquirer's kindness in re-producing the quarterly disbursements ach quarter without cost to the coun-

The Herald knows the same as The

Enquirer that its readers are entitled to the publication of the reports and he Herald believes that if the report e Herald practically every family in the county would have an opportunity to read the reports. Not quite two years ago the editor of the Herald appeared before the board when the contract for this printing was to be awarded. The editor of The Enquirer was also present and he remembers well our statement to him and the poard: that the entire county should be favored with the report and by pub-ishing the same in The Enquirer and the Herald practically every home in the county would have the report be-tore them. The editor of the Herald attempted to make an agreement with Mr. Grist along the above named lines but to no avail. He positively refused to enter into any such agreement. He wanted the whole thing and got it that year, but this year the contract was awarded to the Herald. There has been complaint ever since and we expec when The Enquirer publishes the other report, if it publishes it, it will be acompanied by another complaint.
The trouble is not with the county

board. It is in the law. By right the reports should be published in every paper in the county, each paper receiving the same amount of money for s publication.—Rock Hill Herald. The Enquirer has no complaint on its own account; but being under the mpression that this contract is not beng awarded in accordance with the business considerations that should govern, desires the public to understand the facts. If understanding the facts, the public is satisfied, then so are we.

Three years ago when called upon to make a bid, we felt then as we feel now, that the elements of competition among the possible bidders were not such as to warrant bidding on equal terms, and when we prepared our bid, it was with a view to putting on rec ord the fact that we stood ready and willing to do anything that was in reason.

Our proposition was that we would do the work done for \$60, the amount authorized by law to be paid, or conjointly with any one or all of the papers in the county and take our pay or pro rata part of \$60, divided in equal proportion to the number of papers that went into the arrangement and printed all four of the reports.

The proposition did not take into consideration the only element that should determine such competitions, that of the circulation of the papers competwas the thing to do, or give it to some other paper arbitrarily.

The award was, as we anticipated, made to the Rock Hill Herald and the Yorkville New Era, both of which toernment, nor no other government can gether did not have much more than half the circulation of The Enquirer, for a few dollars less than sixty dollars. The Enquirer was left out. The Herald THE good people of York and sur- and New Era had made an arrangement, whereby they would have the reports set up on linotype machines in Charlotte, use the same type, one after the other, divide the expense and the amount received, etc. The New Era We make no pretensions at became defunct after printing one of prophesying and we do not think we the installments and the Herald finish-

ed alone. The next year, the time the Herald refers to above, the conditions being the same. The Enquirer made the same proposition, except that it stipulated lars should be among the various paeach. This we calculated would give ald about \$20. The commissioners seemed just a little nervous about the matter this time and did not know exactly what to do. The editor of the Herald was willing to agree to The Enquirer's proposition, provided we would allow him the use of our type after we had used it; but as that would not only involve the reduction of the amount we would have otherwise received, and put us in the position of furnishing a would-be competitor with the means of competing with us we, of

ourse declined. Our bid last spring was exactly the ame as on the occasion referred to, equal to those already paid to dishonest and we heard nothing more from it, until upon inquiry of the secretary of the board we were advised that the award had been made to the Rock Hill

Herald for \$55. The Herald's suggestion that the report should be published in every paper in the county and that the board should pay the same amount to each, does not strike us. In the first place, because of the nature of this particular report, the publication in one paper is sufficient for all legal purposes. In the second place the advertising value of ail the papers is not the same. The same advertisement cannot even be produced in a paper of larger circulation at the same cost as in a paper of smaller circulation. But this aside, since the law provides for publication ing. December 4, for the purpose of fixing a roster for the following week. in only one paper and stipulates the amount to be paid, it strikes us that t is proper for the board to spend that \$60 where the advertisement will go to the largest number of taxpayers

- Anderson, November 20: Announce nent was made several days ago of the purchase of the properties of the Anderson Traction company by a syndicate composed of the Dukes and several prominent citizens of the Piedmont section of South Carolina. Announcement was made today by a committee representing the syndicate that it is the intention of the new purchas-ers to extend the Anderson-Belton line from Belton to Greenville, and as soon as that is completed a line will be built from Greenville to Spartanburg, and ultimately the line will be extended to Greensboro, via Charlotte. It is also innounced that the line will be extended southward from Belton to tap the Seaboard Air Line, either at Greenwood or Abbeville, the latter the more probable. A freight service will be given, as well as a passenger service, Greenville will be given close connec-

A jury was empaneled and after the taking of expert testimo ny acquitted the defendant for the reason that he is now insane. John Williams plead guilty of for-

manslaughter and carrying concealed thirty dollars. David Bryant plead guilty of viola-

tion of the dispensary law, sentenced three months or \$100. William Clark plead guilty of as-sault and battery of a high and aggravated nature and was sentenced to \$50 or three months. Os Jeter plead guilty of assault and battery of a high and aggravated na-ture, and was sentenced to \$75 or three nonths. John Ross plead guilty of house-

moon the eclipse will reach a point where it will be total. For this reason it is somewhat unfortunate that the our is so unseasonable, for while parabout twice a year by all the inhabitants of the earth, the total eclipse is a phenomenon not to be seen as a rule more than once every two or three years by the inhabitants of any partic-ular portion of the earth's surface. There is and has always been some thing peculiarly uncanny and fascinat-ing about an eclipse of the moon, es-pecially if it be a total one. In the Limited times when the ancients saw the phenomenon year after year and had no inkling of what caused it, there were all kinds of ridiculous reasons ascrib-ed as to why that strange shadow should pass across the face of the heavenly body. The appearance was watched with the utmost interest by all these people and especially by the philosophers who imagined that in it they saw divine revelations of days that were coming, and forecasts of im-portant events concerning the differnt kingdoms. Since the development of the study

enlightening finger, has pointed out to her followers the true cause of the phenomenon, and with it the intricate and mysterious system upon which the universe moves, the eclipse of the moon as not lost in that paculiar attracion which characterized it in the olden times. As is well known to all who have of the universe, the eclipse of the mon is nothing more or less than the shad-ow of the earth, which is cast upon the

delved into even the upper layer of the science which describes the movements lunary when the terrestrial globe is just between the sun and the moon. Such position occurs only at rare intervals in the movements of these bodies, but the system is so accurate, and so in-fallible, that the complex movements of both the moon and the earth can be calculated and scheduled down to the last fraction of a second, and those who have studied the matter can predict for years ahead just the exact sec-ond when the shadow will touch upon the round orb of the moon. By a consideration of the cause of he eclipse and the relative positions f the three bodies, and also the cause

of the different phases of the moon, which are caused by the revolution of the moon around the earth, it is seen that an eclipse of the moon, whether total or partial, can occur only when the moon is full, for it is only at this phase that the three bodies can come into a straight line. The fact that there is not a total eclipse of the moon at every full moon is explained by the complicated motion of that body in go-ing from one side to the other of the spot at which the eclipse may occur. This is the same motion which makes the moon rise earlier in winter than in ummer, and which makes its point of ising vary during the different sea-

sons of the year.

The eclipse which will be visible at this place late Friday night and early Saturday morning will be a total one. For a short length of time the shadow of the earth will entirely cover the surface of the moon, and the luminary will be observed as a dull red or will be observed as a dull red or brownish spot in the midnight heavens. The eclipse is something out of the ordinary, and in most observers it gives rise to that chilly feeling of the sublime which cannot be explained. To see the chief luminary of the night shining brilliantly in the heavens, lighting the grounds almost as bright as the morning sun, and shining too, by light reflected from the center of this planetary globe, is something the white hold while not unattractive, is so the white people of the town presented which while not unattractive, is so the white people of the town presented which while not unattractive, is so the white people of the town presented which was very successful, the white people of the town presented which was very successful. which, while not unattractive, is so often seen that it draws no comment. shadow slowly but surely steals across the whole surface, and to think also that this shadow is caused by the vast body of matter upon which the observer stands, is something which canot fail to cause thoughts

one's thoughts.

The eclipse of the moon has always been watched with interest by all the astronomers, both of this and the analysis of the stronomers. astronomers, both of this and the an-cient times. To the modern observer surround the eclipse, and its
