- Due West, January 8: Burglars entered the Due West postoffice this morning at 1.30 and blew open the postoffice safe. The yeggmen used nitro-glycerine or some highly explosive material, for the safe door was hurled across the room, knocking off the ceiling. The postoffice is situated in the heart of town, there being several residences nearby. The robbers evidently were very nervy. Several people in town heard the noise. The tools of the burglars were left in the postoffice. Though the sound of the ders of Guthriesville. She was in her explosive was heard last night, the dis- 44 year. covery was not made until Mr. George Collins opened the office this morning. The robbers knew their art, for the Coop Milk Cow, with Calf two and one-half weeks old. front of the safe was completely demolished. The yeggmen secured 25,600 one-cent stamps and 32,000 two-cent stamps, \$194 in eash, making a total stamps, \$194 in each, making a total loss to the office of \$1,090. No trace of days. 'SHALL I BE A SAVER OR SPENDER?" Ask Yourself the Question?

Eever since money was coined there have been two factions— one arguing that coin is round, therefore, designed to roll, the other arguing that being flat it was made to be piled up. An overwhelming proportion of young men have affiliated themselves with

the "rolling class."

The modern young man is a money-maker, but not a moneysaver. His money is spent with as much zest as it is earned.
Saving money does not mean keeping it out of circulation, but sending it along in one's own name. Stinginess is as disgusing as

sending it along in one's own name. Stinginess is as disgusing as lavishness is disastrous. There is a happy medium.

Frugality is the rational ground between the two. Thrift must be cultivated. There is a great demand today for the prudent young man. He stands higher in the estimation of his employer than the improvident one. The man who exercises good judgment in dealing with himself is likely to use the same discretion with his employer's interest.

employer's interest.

It is possible for every man to save a part of his earnings, and at the same time keep these earnings active by depositing them in a good bank.

Lay the foundation for your future by opening an account in our bank and let this bank help you as it so well can.

Greater Interest in Good Music

And WHY?

It is a notable fact that more people are today taking far greater interest in the better class of music than ever before, and it is also true that there is a cause 'for' this rapid development. What is it?' We believe it is almost wholly due to the far-reaching and elevating effects of the Phonograph. Think for one moment of the advantage. The Edison with Mr. Edison's latest invention—the Amberol Recard—the longest Record in the world, and the price anly 50c. And the Victor—the greatest disc machine made—with music from 35c. to \$7.00.
