Campaign promises are easily made. My purpose is, if elected, to give the people a plain, honest and business-like administration.

I consistently advocated prohibition and was among the first to give money and lend influence to push that movement more than twenty years ago.

Solicitor J. K. Henry, who is a candidate for congress from the Fifth district, states today his platform on which he is seeking election. It is safe, sane and sound and shows what he elected, he will try to do. The platform follows:

You ask for my platform as a candidate for congress, the coming primary. I give it to you my ten-fifteen.

2. A revision of the present schedule by gradual reduction on iron, wool, leather, wood and the necessities.

3. A commission to be elected by congress, bound by law to a gradual reduction of tariff on all articles during a number of years till not more than 20 per cent is charged on any article.

4. Reform the civil service with compensation to the government employees in proportion to their work and hardship; each to be provided with safe and adequate equipment. In case of injury or death while in service a reasonable provision for their dependents.

Wesson's COOKING OIL.

Has been advertised frequently, but have you ever tried it? It is absolutely pure and tasteless, and far superior to Lard, although cheaper. I have it in stock, and for that matter have handled it for several years, both loose and in bulk, at 15 cents a pound, and a still higher grade in quart cans at 35 cents. It can be used for cooking as well as salads, etc.

Helms' Pickles, Beans, Ketchups, etc., are considered, and rightly so, at the head of this class of goods, but a little higher than ordinary. You will find them here.

Many Successful Men. Yes, many of America's MOST successful men have started life with a few hundred dollars. And any young man of ordinary intelligence, and with a reasonable amount of ambition and determination, can make a good start toward success with that much.

And it isn't hard, either; merely a matter of systematically saving a part of his income. It may cause a little deprivation at first, but after a while it will get to be a habit, and won't be missed. And when the time comes to take advantage of some business opportunity, it is surprising to find what a substantial asset these little savings have built up.

You can start an account here with \$1.00.
