If You Should Be Laid Up. For several weeks or months by reason of accidental injury or sickness would the income on which you depend for the support of yourself and family, or even for yourself, if you have no family, continue, or would it stop and leave you in debt at the end of the month? Do you know that statistics prove that you are more likely to have a claim under a disability policy than to have your home burned? You doubtless carry fire insurance, and you display wisdom in doing so, but you will be showing still more wisdom if you protect yourself against loss of time by reason of accident or sickness if you will see me and get a Disability Policy in the Acton Life, the strongest and most liberal company writing this class of insurance. Ask about it. I also sell Accident Tickets covering any period from one to thirty days.
