

MR. BRYAN A BOLTER.

Will Not Support Candidate For Governor Because He Is For Liquor.

In a statement in which he declares that the crusade which he feels impelled to wage against the liquor interests of the state and nation over-shadows a personal and political friendship of twenty years, says a Lincoln, Neb., dispatch of Tuesday, William J. Bryan, this evening announced that he had bolted the banner of the Democratic state ticket in Nebraska and would support James C. Dahlgren for governor. Mr. Bryan says he regrets that he is compelled to take the stand on political regularity—but says he feels it his duty to do so because of the position taken by the Democratic nominee on the liquor question. The statement, which is, in a way, in an apologetic tone, does not indicate that Mr. Bryan will support the candidate of any other party, but announces that he is a prejudiced advocate of county option and the early closing saloon law, both of which are menaced by Mr. Dahlgren's candidacy. The statement is as follows:—

I am just leaving for Missouri and shall be absent practically all of the time for about a month campaigning in Missouri, Iowa, Indiana and Illinois. After that I shall be at liberty to speak for Mr. Hitchcock, the Democratic candidate for congress, and for the state ticket in Nebraska. I regret speaking for the state ticket, however, I shall not be able to present any arguments in favor of the liquor question. My position on the liquor question makes that impossible. I regret this exceedingly, but he has been a political and personal friend for twenty years and it would give me pleasure to speak for him if I could endorse the policy for which he stands, both of which he has chosen to make the liquor question the paramount issue and makes his appeal on that issue.

In spite of the fact that the last Democratic state convention voted down a declaration against county option by a vote of 82 to 209, he says that he will vote a county option bill if passed, and in spite of the fact that the state convention addressed the clock closing law by a vote of 710 to 163 he announces that he will sign a bill repealing it if such a bill is passed. He is having his opinion on non-partisan lines with the liquor question as the sole issue. His course is to be commended as the most honest way of making a campaign although it compels him to separate himself from friends who do not agree with him and to rely for support mainly upon those Democrats and Republicans who take his view of the subject.

Possibly it is just as well to have the issue clearly presented so that it may be settled this year instead of two years hence. Troublesome as the question is now, it would be even more embarrassing if present in 1912, when we have a presidential election on hand. If Mr. Dahlgren is elected it will be a declaration by the voters of the state against county option and against the 8 o'clock closing law. In other words the voters now are being asked to decide whether the state shall go backward or forward on the liquor question. To present arguments in favor of going backward would not only contradict what I have already said on the subject, but would embarrass me in the fight that I am now making to save our party from the odium of being the representative of the liquor interests.

The Real Business.—The state of South Carolina is forced to borrow more than a half million dollars already this year in order to meet the continually increasing expenses of the general assembly. Suppose we stop discussing the whisky question a while and try to devise ways and means of reducing expenses of the government as well as securing equitable returns of property for taxation. These are the most vital issues before the taxpayers just now.—Bamberger Herald.
