Chalmers Automobiles— The Car That's Worth the Difference. . . .

Mr. Business Man: If you are thinking seriously of buying an automobile of any style, we want you to do yourself the justice of carefully investigating the claims of the CHALMERS line. Fix in your mind, if you please, just such standards as you think you ought to find in a car, make those standards as high as you please, then compare your standards with what other cars have and then come and carefully and rigidly investigate the CHALMERS CAR and see if it is not the One car that comes nearest fitting in with what you would want in a car. There is no secret about the superior qualities of CHALMERS cars—they good qualities stand out boldly, inviting the closest inspection and criticism from the man who has ideas of his own. The Chalmers is not a "cheap" car—it is the Car that is WORTH MORE than others at a like price, and lots of cars at a higher price. Come and let us Tell You Why.
