HYMENEAL

MARRIED—At the home of the bride's parents, Rev. and Mrs. E. B. McSwain at King's Creek, on Wednesday afternoon, September 20, Mr. A. G. DILLINGHAM and Miss LOLA McSWAIN, Rev. A. T. Stondenire officiating.

If a judge is not frightened by anybody and will carry on a court as his court, then you will have your administration of justice as it is in England. The tendency of legislation ought to be toward giving the judges more power and then making the judges responsible for the results. It is not difficult about making the judges responsible either. I know it is proposed to make a short cut and cut the head without any reason, just because the people wish it, under the theory of a judicial review. The foundation of the basis which I have stated, namely, that the courts have not fulfilled the function that they ought to fulfill, but do not agree that therefore you ought to kill the court, and that is what I think you are doing if you make an election. Gentlemen, that won't do. Make your judges responsible. Impeach them. Impeachment of judges would be a very beautiful thing in these times. I have known instances in congress where there was ground for impeachment that ought to have been carried through, but on inquiry I found that the difficulties between the members of congress and the judges, and the thing had passed away. It is not necessary that we should have an impeachment of the legislature, that is a clumsy method, as it is. We can have some other method of investigating the qualifications of judges, and if they don't fill the measure, to remove them. Have some sort of judicial hearing in which the facts shall be considered.

A Strong Bank Helps

YOU AS A BUSINESS MAN—HELPS YOU AS A FARMER—HELPS YOU AS A WAGE EARNER—LABORER, OR IT MAKES NO DIFFERENCE HOW YOU EARN YOUR MONEY.

When you place your money in the bank and pay it out by check you have a perfect receipt; you have a full record of your expenditures so that at any and all times you can tell just how and where you stand.

No man can afford, if he considers his own best interest, to do his business any other way, than through the bank.

Against all the conveniences, all of the advantages, and all of the profits you have in keeping your money in the bank, you can bring up one reason for keeping it out of the bank and that is the bank might "Bust." In answer to this we will say that since the existence of the National Bank law it is proven by statistics that the loss has not exceeded 1-20th of 1 per cent. In other words only 5 cents on each \$100.000.

We have taken all of these features into consideration in buying our SCHOOL SUPPLIES and the children will receive the same prices, if they come alone as you do. We have the SCHOOL BOOKS in now, and can furnish any books you need.
