A Statement.

In the report of the Grand Jury to the presiding judge, mention was made that H. E. Johnson, magistrate of Bethel township had failed to dock of Bethel township. Since that report was made and published, I have examined the case of the state vs. Alex Cook for cock fighting. Since that report was made and published, I have examined the case of the state vs. Alex Johnson and find that the Defendant Cook was not charged for cock fighting but was charged with "crucifying animals," the offense being fighting cocks with steel gaffs (the same being the offense Mr. Sanders alluded to in his report to the Grand Jury). The circuit court shows Cook was tried, convicted and sentenced to pay a fine of Ten Dollars. The case was appealed to the circuit court and the appeal was dismissed and fine collected and paid to the county treasurer. I make this statement in justice to Magistrate Johnson. M. L. CARROLL, Foreman of the Grand Jury. Nov. 27, 1911.

Fifteen Cents For Your Cotton. Farmers Who Have Been Hoping for 10c Will Greet the Good News With Rejoicing.

When the cotton season first opened the farmers thought they would be lucky to get 12c for their New York exchange manipulated things so well, from their point of view, that before one-fourth of the crop was harvested the market went below 10 cents, and in this manner the sharks of Wall street robbed the hard working farmer of the farmer's justly earned money. The decline did not stop at 10c, but kept descending, until today cotton is selling in Yorkville at and below 9 cents.

To counteract the direful effect of 9-cent cotton and avert a possible repetition of the awful "panic year," the allied commercial and industrial world should align themselves with the farmer.

Yorkville concern of established reputation, a concern directly interested in the welfare of the farmer, is announcing in this issue a plan whereby the farmers of this section can realize 15 cents for their cotton, even if the buyers only give 9 cents for it, and this is the entering store of J. Q. Wray. The page ad we are running announcing the opening of the great Piercing Arrow Sale, with its great advantages, tells the tale with all the strength of simplicity. When this store makes an announcement the people take notice—it's always known. The sale has been well advertised, and the opening next Saturday will be, without question, a big one.

The Cotton Market. Yorkville, Nov. 28.—Cotton 8.11c. New York, November 27.—Spot cotton closed quiet, 10 points lower; middling uplands, 9.30; middling gulf, 9.55; sales, 100 bales. Futures closed steady, as follows: January, 8.82; February, 8.87; March, 8.94; April, 8.97; May, 9.00; June, 9.03; July, 9.08; August, 9.10; September, 9.13; October, 9.17; November, 9.03; December, 9.08.

TURN YOUR LAND

Now is the time to turn your land, and the OLIVER is the right plow to use. They are guaranteed to do the work with less effort to man and beast—and the price is right. One big advantage in favor of

OLIVER PLOW

is, you can always get repairs for them when you want them, and they are no higher in price. Last, but not least, they are guaranteed against defects. Tongueless Disc Harrows, Stalk Cutters, Drag Harrows, are in season now, and we are overstocked on them. Call and see us.

South Bend

The Master Piece

THE South Bend Watch Company might use garnet jewels in their watches instead of ruby and sapphire jewels as many other watch companies do and thus greatly reduce the cost of production.

You would not notice the difference in buying.

But, if garnet jewels were used, the watch would not have any such lasting qualities—and the South Bend Watch Company believes it is better to have smaller profits and satisfied customers than large profits and dissatisfied customers.

That's the way we feel about it, too, which accounts for our giving South Bend watches the preference.

T. W. SPECK, The Jeweler.
