

Humorous Department.

Accounted for it—A soldier, being photographed, happened to mention the name of the regiment to which he belonged...

"Well," said the soldier, "I've seen Col. — a good many times on the parade grounds, to say nothing of South Africa, and he never looked like that."

"Yes," said the photographer, "but you must remember that the colonel was neither on the parade ground nor in South Africa when he was photographed."

"Well, but I've seen him alone, and he always looks as if he were going to jump down your throat. In this you'd think he couldn't say 'bo' to a goose. Was he alone when he came here?"

"Well, no," said the photographer, with unconscious irony, "he had his wife with him."

"Oh," said the soldier, thoughtfully, "that accounts for it."—Tit-Bits.

Hard to Settle.—Life Guards at a Jersey seaside resort tell with great glee of an incident that happened there last summer. A German, with his boy of 10 years, was standing at the rail of one of the piers, quite at the end thereof, when suddenly the youngest toppled through into the water...

How Turner Had His Way.—The late J. M. W. Turner, one of England's most famous artists, served for some time on the hanging committee of the Royal Academy, and one day when he strode into the picture room he was struck by a picture sent in by a young provincial artist of the name of Bird...

Quite Obvious.—The physicians in Mankato had agreed that during their Chautauqua assembly they would employ a call boy, and each was to pay his share of the expense. This was to be called an arrangement laughed or not, without disturbing the speaker, as it was embarrassing to him and looked as if they were doing it to advertise without expense...

Grieved.—"Now, what are you feeling about?" "Oh, I am utterly wretched. He doesn't love me as I love him."

"How do you know?" "Why, we discovered last evening that the day we have set for our wedding day is the opening of the baseball season, and also there's a big bargain sale on at one of the downtown stores."

"And he wanted to change the date of the wedding?" "We both wanted to change it, and I just couldn't dream of missing those bargains."

"Well, then, I—" "But he wanted to have the wedding a day later, while I suggested having it a day sooner."—Houston Post.

Carless.—George Westinghouse, the famous inventor and manufacturer, is a firm believer in the excellence of his products. The story is told that a letter received some years ago by the Westinghouse Machine Company said that the writer had been using one of its standard vertical engines with eminent satisfaction...

Progressive Courtship.—"No, Annabelle Green, I cannot marry you. My rich bachelor uncle declares he will cut me off with a nickel if I wed without his approval. And the young man with a weak chin sighed forlornly."

"Very well," replied the determined girl, "I will go to your uncle. What is his address?" "Don't go, Annabel!" cried the youth, "it would only prejudice him still more against me."

"You mistake my meaning, Clarence Prouns," said the girl, "if I can't marry you I will marry your uncle."—Cleveland Plain Dealer.

Getting it All.—The doctor told him he needed carbohydrates, protoids and above all, something nitrogenous. The doctor mentioned a long list of foods for him to eat. He strolled out and waddled into a Penn avenue restaurant...

USES OF LEMONS.

How They Help One to Keep in Good Health.

It is well for people to know before typhoid fever comes walking into their homes that Dr. Asa Ferguson of London, England, discovered that lemon juice is a deadly foe of bacilli, and will cause the germs to shrivel up and die almost immediately.

A few drops of lemon juice in a glass of drinking water will kill any typhoid germs that may be in the water, and make the drinker immune from typhoid fever.

There are a great many things that lemons are good for besides making the refreshing lemonade. Most every one knows that to take hot lemonade when going to bed is good to break up a cold. Not so many know that the juice of half a lemon in a cup of black coffee, with any sugar, will cure sick headache.

To take a strong, unweakened lemonade before breakfast will also prevent and cure bilious attacks. To take lemon juice mixed very thick with sugar, will relieve that annoying sickening cough.

If you drink a glass of water with lemon juice squeezed in it every morning it will keep your stomach in good order, and prevent you from having dyspepsia.

When you have a bad headache rub slices of lemon along the temple and it will soon give relief.

It is good if a bee or insect sting you to put a few drops of lemon juice on the spot.

To saturate a cloth with lemon juice and bind on a cut or wound will stop its bleeding.

If your fruit juices, such as cherry, strawberry, etc., do not jelly readily, add lemon juice to them, and it will cause them to jelly.

Lemon juice and salt is good to remove iron rust.

If you have a corn that bothers you, if you have a corn, after taking a hot bath and cut away the corn.

Now, if you want to have a beautiful complexion, squeeze lemon juice into a quart of milk and rub it on your face night and morning.

There are many useful things that lemon will do for you if you only know what they are and try them. They should be used more freely than they are in most homes, and they might save you doctor bills.—Philadelphia Record.

He Could.—A northern visitor in the south tells the following story to illustrate the taciturnity of the southern negro.

"For this reason, after I have given the new gun a thorough test, I shall insist upon all of my men carrying it when engaged in work not apt to require a regular revolver. For the ordinary policeman, however, I hardly think that the gun would be sufficient for the majority of cases in which the police officer is called upon to use a gun at all he should carry a knife, a dagger, and obviously the chemical gun would not do that."—Cleveland Plain Dealer.

The Latest Thing in Stoves. For a midnight supper, as for any other meal at any other time, the very latest thing in stoves—the best that stove-artists can do—is a New Perfection Oil Cook-stove. It concentrates the heat when you want it and where you want it. It is as quick as gas, standard and handles hot cook, cheaper than electricity.

MEDICAL COLLEGE OF THE STATE OF SOUTH CAROLINA. D. E. BONEY Life, Fire and Live Stock INSURANCE. Town and Country Property.
