## November 5th Passed

They Are All Voters and Progressive. The Progressives, in one sense, play-l havoc with some office-seekers. ed havoc with some office-seekers. Did you notice the figures in the newspapers? 427—77 and 8—85. Look at the difference—342. It says: President. Why? Teddy was too Progressive. The "before-the-war" voters are the boys who helped President Wilson and all that did not were not Southern Democrats. It leads us to think that progress will help trade; that business will be better; that we can show you, among the essentials can show you, among the essentials that you need: Wash Pots, Gray-cote and Tinware, Stove Pipe, Fry Pans, Sifters, Spoons, Rolling Pins, Coal Scuttles, Well Buckets, Brooms, Lamp Chimneys, Lamps, Groceries, etc. Bring in your HIDES.

## Look Before You Leap.

While it is true that there are stil many people who buy Life Insurance from an agent instead of a Company and who sometimes find that the agent, either through ignorance or intentionally led them to believe that his company and the contracts (policies) were among the best. There are thousands of others, and their tribe is increasing daily, who are influenced almost entirely by the com-pany and its reputation FIRST and the contract next. They look and then eleap, while the other class leaps and then looks, and as a result, often concludes that had it looked before leaping it would not have leaped No company has an all-round reputation for squarer dealing with every policy holder and of writing liberal policies as has the Mutual Benefit Life Insurance Company, of Newark, N. J. No company is stronger. Look Before You Leap! Test my assertions. If you are not entirely satisfied that they are true you are under no obli-
