Say, Mr. Man--If YOU had to do all the drawing of water; all the churning; all the cream separating; all the axe-grinding; by the exertion of YOUR own physical labors, instead of by the labor of SOME ONE ELSE, don't YOU think you would get busy and buy a Gasoline Engine Pumping Outfit to lessen the burden on YOUR shoulders? We think you would. Your wife would enjoy life better if she had one of our ECLIPSE GASOLINE ENGINES to pull her churn and her separator and pump the water that she uses for washing, cooking, etc., and then you would be benefitted by having the engine to pump the water for your stock and the cow. The first cost of these wonderful little engines is very small, and the cost of operation is almost nothing. Call and let us tell you about this Engine and the price and cost of operation.
