REVIEW OF WAR ACTIVITIES Situation as it Appeared from London

Viewpoint Yesterday. Announcement by the British admiralty of the sinking near the English coast of two British passenger steamcoast of two British passenger steamers by German submarines with an attendant loss of upward of 150 lives, was the most important war news of the day so far as the British public was concerned Both steamers crowded on full speed in an effort to escape, and the fact that they were overhauled, shows that Germany now has some of her most modern submarines en-gaged in the blockade operations

against the British isles. Outside of the sinking of these tw Outside of the sinking of these two steamers the only news of importance yesterday was of the renewal of activity by the Russian Black sea fleet, which bombarded forts on the Bosphorus, and the announcement from Petrograd that the Baltic fleet had been re-inforced by modern fighting units, presumably dreadnoghts built in Russian yards.

The battles in the Carpathaian passes are proceeding with ever-increasing violence. The Russians now hold the western passes and are advancing into Hungary, but the eastern passes remain in the hands of the Germanic allies, who, however, are strongly pressed by their re-inforced adversaries in Russian yards.

The situation is unchanged in east Galacia and Bukowina. In north Poland the Germans claim to have driven the Russians from Tauroggen, which they stormed. In the west the mine warfare con-

At the request of the shipyard owners, the British chancellor of the exchequer, has promised to submit to the cabinet a proposal to prohibit the sale of intoxicating liquors in Great Britain during the war.

The Case of the Eitel.—While every precaution is being taken to guard against possible violations of American neutrality if even the German commerce raider Prinz Eitel Friedrich makes a dash for the sea through the Virginia capes, says a Washington dispatch of last night, naval officials here are almost a unit in the belief that the Eitel will cruise no more until the war is over They think Commander Thierichens is enjoying the trouble to which he has put British and French cruisers patrolling the Virginia coast and is awaiting the expiration of the time limit given him for repairs before interning his ship. ambassador, called at the navy department and it is understood, assured

limit or otherwise violate neutrality.

It was learned yesterday that Great Britain had made representations to the state department in regard to the Eitel, taking the ground that in allowing the ship to dock, clean and repaint, the port authorities at Newport News had not observed the Hague treaty stipulations against increasing the nayal strength of the ship under such naval strength of the ship under such circumstances. Department officials however, do not accept this view.

'Best Fire Medicine"

About a year ago, I accepted the agency of the Pyrene Fire Extinguisher for York county, and announc-ed the fact in an advertisement in The Enquirer, and explained what the ex-tinguisher would do, and also announctinguisher would do, and also announced that the insurance rate on all automobiles carrying Pyrenes would be reduced 15 per cent, but to my surprise, sold comparatively few, and quite naturally, I think, came to the conclusion that owners of burnable property either doubted the claims made for the Pyrene as a fire extinguisher or attached no imprortance made for the Pyrene as a fire extinguisher or attached no importance to being in position to extinguish incipent fires. I sold two Pyrenes to the Clover Cotton Manufacturing Co, They were installed in the picker room. Following unsolicited letter was received March 20, from Mr. M. L. Smith, treasurer and general manager of the company: ager of the company:

Clover, S. C., March 20, 1915. Mr. Sam M. Grist, Yorkville, S. C. Dear Sir: Please send us six cans Pyrene. This is the best medicine for fire we have ever used. We often have fires in our picker room, and have never used hose since we put in Pyrenes. Yours respectfully,

M. L. Smith, Treas. You may see the day when you would gladly pay \$100 for the use of a Pyrene Extinguisher for three minutes, and won't be able to get it. Like Insurance, it cannot be bought if you wait until you need it. Those who buy in anticipation of the need, get them for \$7.00.

THOMSON CO.'S MILLINERY OPENING LAST FRIDAY AND SATURDAY WAS MUCH MORE SUCCESSFUL THAN WE HAD HOPED FOR. FRANKLY, WE WERE SURPRISED AND MORE THAN PLEASED AT THE LARGE NUMBER OF LADIES WHO HONORED US WITH THEIR PRESENCE. Many were the pleasing compliments passed upon the display of Pattern Hats, and these Compliments must have rung true, because during the two Opening Days we had the pleasure of taking MORE Orders for Hats than at any previous Spring display. And to get the orders we find it necessary not only to have the HATS of Style and Quality, but we must have the RIGHT PRICES. The Volume of sales indicates that we have this season all three of these requisites—QUALITY, STYLE and LOW PRICES. We are sure that we never had prices quite and LOW PRICES. We are sure that we never had prices quite so LOW for High Class Millinery, and we are quite willing to leave the Style and the Quality to YOUR judgment. A fair comparison is all that we ask you to give our Millinery. If you will do this YOU will certainly wear Millinery from THOMSON CO.'S this season.
