A Second German Raider Slips int

The German converted cruise Kronprinz Wilhelm, another of those eiusive raiders of commerce in the south seas, slipped into Newport News, Va., last Sunday, and asked for fuel and provisions. The second of the raiders brought The second of the raiders brought as thrilling a story as did her prede-cessor, the Eitel Friedrich, writes an Associated Press correpondent under date of Sunday. Her record of de-struction, however, was accomplished with only four guns, two taken from the German cruiser Karlsrhue and two captured from the British merchant steamer Lacorentina, sunk Oc-tober 7, 1914. The most connected story of the voyage from New York, 255 days in all, during which the ship never touched land, was told tonight by Over Lieut. Alb Warneke, the first

"We left New York August 3," said Lieut. Warneke. "Three days out, off the Bermudas, we met the German cruiser Karlsrhue. We took from her two 3-inch guns, which we mounted. Lieut. Capt. Thierfelder, navigating officer of the Karlsrhue, took comas large a circle of admirers as any minister in that city. He always men. We made for the South Atlanpreaches to large congregations, who tic and the first ship we encountered was the British steamer Indian Prince which we sunk September 4, 1914. I want to say that Sir Edward Grey, the British premier, has been kind to us and that if Great Britain had been organized as well as we were to patrol the South Atlantic we never could those two big guns on our afterdeck. He sent them to us on the British corentina. The Lacorentina could not use her guns because she did not have any ammunition. After we took the guns and what of her cargo we wanted, we put some bombs into he and down she went.

"Some of the merchant ships we sunk with our own guns, some we blew up with bombs and in some cases we were compelled to ram the ships.
"We took on board from enemy's

loupe, but could only find this grey blue and so you see we are strange looking German sailormen today. From the Guadaloupe we also got shoes, leather and thousands of dol-lars worth of things which were on their way for the French army."

Lieut. Warneke was asked if the Cronprinz Wilhelm had not hoped to denwald which was held up by the United States at San Juan, P. R., several weeks ago. He made no direct reply to the question, but declared that the action on the part of the United States in denying clearance to the Odenwald was "the worst thing America had done."

"Why did you Americans not give clearance to the Odenwald?" he asked. "We heard all about it by our wireless. We did not need any newspapers. We had good wireless ap-paratus aboard all the time. The denial of clearance to the Odenwald was the only bad thing America has done. You simply held that ship up in Puerto Rico until the British could

come and try to catch up."

Lieut. Warneke said that most of
the 1,000 saiiors and passengers taken were sent from time to time by Ger-man ships to Buenos Ayres, Rio de Janeiro, Pernambuco and Santos. Three hundred and sixty from the French steamer Gualdaloupe were

sent ashore at Pernambuco.
Several weeks ago, the officer said, the Prinz Wilhelm was getting short of coal and supplies and some of her crew and prisoners were afflicted with beri-beri, caused by lack of vegetable food. It was hoped to get supplies from the German ship Macedonia, which was reported to have escaped from Las Polyana Market and without close parallel among the peoples of earth from Las Palmas. This vessel, they learned, however, had been captured by British ships. This hope gone, they steamed north and were in touch

with events transpiring regarding the Prinz Eitel Frederich. It was reported tonight that the Wilhelm's original destination was New York, but that warnings were oort. Although officers would not adocean off this port until the Eitel Friedrich was interned. As soon as his news reached her, she was or dered to creep in through the allied ships off the Virginia coast. Allied

ships were said to be off this coast last night. The signals from four of them were plainly heard, he declared.

A member of the crew of the Prinz
Wilhelm, who formerly was in the United States navy, declared the ship witnessed an encounter between the Karlsruhe and the British cruiser Bristol. "When off the Bermudas," tering the village shop during the week to be greeted with marked coldness by Suffolk and Berwick came up and we were forced to run. "Our next capture was the British steamer Potaro, which we sent down on January 10. This vessel was in ballast. On January 14 we came up on the British steamer Highland Brae. In addition to a crew of 91, this steamer had aboard 51 passengers. We took what we wanted from her transferred crew and passengers to the Wilhelm and sent the steamer to the bottom. until March 24 when the Royal Mail line steamer Tamar bound from San-tos to Havre was overhauled off the Brazilian coast. We took off the 33 officers and men and sent the ship to the bottom. Four days later we cap-tured the steamer Coleby which was bound from Roasiari to St. Vincent. The crew of the last named two ships we now have aboard here.

Describing the dash of the Wilhelm into Hampton Roads, the officer said: "After we had arrived off the Virginia capes, a little to the north, think, we turned due west and put on all possible steam. We started about 7 o'clock Saturday evening. From that time until 4 o'clock this morning we ploughed the sea at a rate variously estimated from 23 to 25 knots. All lights were out and it was an anxious time for us. All hands were on deck and the crew at the guns. We had notice of the intern-ment of the Prinz Eitel and we judged that the enemy's ships off the capes might not be so vigilant. We steamed south. but as we got nearer the wireless told us that they were still in this vicinity.

Rebuilt Typewriters--

STANDARD TYPEWRITERS practically all sell at the uniform price of \$100.00 Each-That's the "list price"sometimes they can be bought for less-and when you have had it a week it is "second hand" and you could not get the price you paid if you wanted to sell. Of course the experienced Typewriter salesman can come along and tell you all about the little devices that his machine has that no other machine has-point out its conveniences-its two color ribbon, back spacer, tabulating device, etc., and make you think that his machine is the only one to buy. That's his business -that is exactly what he is paid to do-that's one of the reasons why you pay \$100 for a new Typewriter-You are asked to pay this price in order to help pay the cost of marketing the machine-and of course that is all perfectly legitimate and part of the business. But where do you come in? Aside from the pride you may have in the "very newest model" typewriter with all the "newest kinks," you haven't any more REAL TYPEWRITER value than you would have had you bought a REBUILT MACHINE. The New Machine will not write any harder, any faster, any better, any easier or any plainer than a REBUILT, and it's dollars to doughnuts that it won't look any better to your eye. This being TRUE do you think it good business to buy a New machine at \$100.00, when you can buy a Factory Rebuilt Typewriter of exactly the same make and model at a saving of from \$35.00 to \$50.00 or more? Of course, if you are flush with the coin of the realm, and want to be real generous to the Typewriter Salesman and the Typewriter Builders and pay them the \$100 anyway, why of course that is perfectly all right and furthermore it is none of our business. But if you are buying a Typewriter for business use, let us urge you to investigate the FACTORY REBUILT before you buy. Tell us what you want-We will be glad to make you a price and then you can decide for yourself. Look these prices over-They will give you an idea of the saving you will make in buying a REBUILT MACHINE: PRICES ARE VERY LOW-

Remington No. 6, Blind Writer \$19 to \$21 Remington No. 10, Visible Writer \$42 to \$55 Smith Premier No. 2, Blind Writer\$18 to \$20 Smith Premier No. 10, Visible Writer.....\$27 to \$42 Oliver No. 2, Visible Writer\$22 to \$25 Oliver No. 5, Visible Writer\$27 to \$38 Royal Standards No. 5, Visible Writer\$42 to \$45 Monarch No. 2, Visible Writer \$32 to \$46 Underwood No. 4, Visible Writer \$38 to \$57.50 Underwood No. 5, Visible Writer\$41 to \$65 L. C. Smith No. 2, Visible Writer\$32 to \$45 L. C. Smith No. 5, Visible Writer\$48 to \$55 A TYPEWRITER IN YOUR HOME-

Will prove its value in many ways-the children can learn to use it and the knowledge will be of value in later years-your wife can use it frequently and to good advantage-A Smith Premier No. 2, with double keyboard, has its advantages to the beginner, because it doesn't require the use of a "shift key" for Capital letters—the Remington No. 6 is a single keyboard, blind writer and the Oliver No. 2, is a visible writer-all of these machines are easily within your reach (see prices above) and will give entire satisfaction. The price of Rebuilt Machines is governed by the Serial or Builders' Number-the higher the Serial Number the higher the price-Express Charges, usually about \$1.50-are extra. THINK THE MATTER OVER-

See if you do not think a Typewriter in your home will be worth the price-and then see us.
