Rock Hill Herald, Tuesday: S. L. Weatherly, who resides on Ebenezer avenue, made a business trip yesterday in the Mt. Holly community. From the cotton fields of P. L. Reynolds, who farms large in that neighborhood, he picked two almost fully open-ed bolls and fetched them to the Herald office this morning. He says that Mr. Reynolds has about 75 acres in cot-ton and expects to have his first bale ready for the market about August 20. He has reduced both acreage and fertilizer for this crop this year. Death of Chester Lady. Her many friends throughout York county, will be grieved to learn of the death of Mrs. G. B. White, which occurred in a Chester hospital Wednes-day afternoon, following an illness of several days. Mrs. White was a native of Chester county, the daughter of the late W. J. and Margaret Henry. She was 61 years of age. Mrs. White was for many years a member of the Associate Reformed Presbyterian church, and was known far and wide as one of the most devout of church workers. She is survived by her hus-band, Dr. G. B. White, and one son, Mr. M. H. White. Two brothers, So-licitor J. K. Henry of Chester, and Dr. H. M. Henry of Oak Hill, Ala., also survive. The funeral of the deceased was held in the Chester A. R. P. church yesterday afternoon and the interment followed in Old Purity

Green, in the suit brought by the National Union bank and the First Trust and Savings bank relative to certain taxes paid un-der protest. The decision upholds the contentions of the plaintiff in one respect and denies the claims in another. The county treasurer is required by the order to refund to the banks some \$1,100 of the taxes paid under protest. An appeal to the su-preme court will probably be taken by both sides to the litigation. It will be remembered that the county assessors accepted the returns as handed in by the banks, the state board accepting he returns also. As was customary in making the returns, the banks omitted to include certain county and school district bonds, which had been purchased as non-taxable, also certain United States bonds. The comp-troller general afterwards instructed the county auditor to include these bonds as taxable values, taxing them against the stockholders rather than Mr. L. R. Commercial Grading of Corn.

The grades for commercial corn which were promulgated by the secretary of agriculture on January 3, 1914 and which went into effect on July 1 1914, have been generally adopted throughout the corn belt and in the cities in that part of the United States and at the gulf ports, but are not in use in the cities along the Atlantic seaboard. The grades include the classification of white, yellow and mixed corn into six grades and "sample" and have been recognized by the Grain Dealers' National association, the state associations affiliated with this organization, the state grain inspection departments of Washington, Minne-sota, Illinois, Missouri, Kansas, Oklahoma and the department of agricul ture, commerce and industries of the state of South Carolina. In order that the producers, dealers and con-sumers throughout the United States nay more fully understand the correct interpretation of the government corn grades, somewhat detailed explana-tions are given in Bulletin 168 of the department, grades for commercial corn. The and discussion as to the best method of dealing with the situation ensued The mayor said that no direct charges had been made, but that he understood that they were to be brought out at a campaign meeting within the next few weeks. Speaking of the rumor in regard to contracts being let by the committee on streets, the mayor said that it was a well known fact that contracts had been secured at a lower rate than ever before. Furthermore, he declared that if he could find out that the rumored charges were true he would do all in his power to have the guilty parties found out and ac-

tion taken against them. Referring to the rumored accusations of graft money being received from the Bonsal line authorities, from the ice plant matter and that he had received \$30,-000 from blind tigers, Mayor Grace announced that he would brand them as "lies" in advance. Continuing his remarks the mayor said that it was ndirectly known that he had attempt ed to get the responsible party on the stump and there air all scandals and charges, if there be any, against his administration. Referring especially to the rumor that council had received a tremendous bribe from the Bonsal road, Mayor Grace said: "Such runors are cowardly, dirty and charac-eristic of the gentleman responsible for the assertion." He requested that the statement be made a matter of record and that the word "characteristic" be underscored. Every cent of fines collected from blind tigers and illegal whisky dealers during his ad-ministration, the mayor said, could be accounted for. In this respect it was stated that the total of these fines collected annually amounted to be-tween \$5,000 and \$10,000 more than
