- Railway shopmen to the number of 500,000 are voting on the question of a strike for wages in closer keeping with the cost of living. Because of the questions raised by the threatened strike, President Wilson asked congress to forego its proposed recess and consider the questions first of allowing an increase in railroad rates to meet the demands of railway workers for increased wages and second to for increased wages, and second, to take action looking to the reducing o the cost of living. The shopmen, not-withstanding this proposal, went on with its strike proposition. The strike was commenced in Atlanta, Chicago and other points Saturday, and on Sat-urday night it was claimed that more than 250,000 shopmen were idle. The men are demanding pay at the rate of 85 cents an hour for machinists and 60 cents an hour for helpers, the new schedule to be retroactive back to January 1, last. The strike is spreading rapidly and promises to become generally effective. Unless an adjustment is reached within the next few days, railroad traffic will be tied up throughout the whole country.

- The Chicago race riots having apparently subsided Friday, it was announced that on Monday 15,000 negro stockyard laborers, would return work. During the night, however, six blocks of buildings inhabited largely by foreigners, were burned to the ground, and the decision to return the negroes to work was reversed. The ne-groes are charged with responsibility for the fires. People who were burned out have gone into camp on the nearby prairie. Troops are on guard. The rioting between the whites and negroes is said to have been started by the stoning to death of a negrowhy engroached on the white reservawho encroached on the white reservation at a bathing beach. After thor-ough examination the coroner reports that the negro was not stoned; but was simply drowned. There were no marks on his body. Governor Lowden of Illion his body. Governor Lowden of Illinois, is of opinion that labor troubles instead of racial animosity are at the bottom of the riots. The sentiment of most influential leaders of Chicago is ciational organizers, the associational organizers and publicity from most influential leaders of Chicago is ciational organizers and publicity from crystalizing along the line that it was a bad mistake to undertake the working of negroes and foreigners together, and plans are now being considered to send the negroes back to the south-

dent to call such a meeting but giving no authority for American representation "unless and until" the treaty's ratification has been accomplished. ratification has been accomplished.

The action was taken after Secretary Wilson, of the labor department had told the foreign relations committee that even if the treaty were rejected here, its acceptancy by other powers would validate the request it contains that the president call the first conference to meet here in Oc-

In committee the resolution, introduced by Senator Kenyon, Republican Iowa, was stripped of all reference to the fact that the conference was created under the treaty, the authoriza-tion as finally framed merely referring to "an international labor confer-ence." Unanimous consent for con-sideration of the measure in the senate was secured only after Chairman Lodge had assured treaty opponents that action in the matter could have "no effect whatever" assent to the treaty.

Many officials have indi-cated that this is the most practicable step which would be taken and the one most likely to have an immediat effect. Congress is discussing the living question and at the White House esident Wilson is said to be receive ing full reports on all phases of it The senate has adopted a resolution asking the banking committee whether reduction of the currency inflation would help the situation.

-The house of representatives has passed a bill amending the banking laws in two particulars so as to facilitate the carrying of cotton and other non-perishable marketable staples to a senate resolution recently adopted by the South Carolina division of United Confederate Veterans at Greenwood, indorsing the proposed league of nations. It has been duly filed with the consequence of requests from the South Carolina Cotton association. The result of the agitation was that the banking and currency committee reported a bill, which provides that "drafts and bills of exchange secured by shipping documents conveying or securing title to goods shipped and including demand obligations when secured by documents covering comsecured by documents covering com-modities in actual process of ship-ment, and also including bankers' ac-ceptances of the kind described in section 13 of the federal reserve act" shall not be considered as money borrowed and shall not be subject borrowed and shall not be subject to the provision that no one person could borrow over 10 per cent. of the bank's capital and surplus. Under ruling by the comptroller in 1917, it was held that if such drafts were held by the bank for more than a reasonable time, awaiting the arrival of the cotton of the cott faires at Washington is sounding American opinion.

Extreme American views are regularly transmitted to the Tokio press and while the papers here have not and while the papers here have not to this 10 per cent. provision. came promissory notes and subject t came promissory notes and subject to this 10 per cent. provision. Under the present method of handling cotton. this ruling tied up the banker and shipper of cotton and hampered the dealing in it very injuriously. The bill now makes it absolutely sure that as long as the goods are in shipment and the draft and bill of lading are held together, the 10 per cent. limit does not apply. In addition to that the bill amends the law so that a farmer or merchant may borrow on notes secured by shipthe law so that a larmer or merchant may borrow on notes secured by shipping documents, warehouse receipts, compress receipts, etc., as much as 25 per cent. of the capital of the bank providing the warehouse receipts securing the note are worth 10 per cent.

in the committee, and aithough the committee is 13 Republican and eight Democrats, all but one member of the committee voted for the favorable report and the house passed the bill refusing to recommit by a majority of 240 votes against 40.

Baptist Seventy-Five-Million Campaign.

The Baptists of South Carolina are definitely co-operating with the Baptists of the South in a great drive for subscriptions for Missions, Edu-cation, and General Benevolence, in the sum of \$75,000,000, to be raised on a five-year plan during the eight days beginning November 30th and ending December 7th. South Carolina Bap tists have accepted as their quota in the great drive the sum of \$5,500,000. This constitutes the largest undertaking ever assumed by the denomination in South Carolina and in the South, but by no means too large for them to raise with comparative ease. It only requires the general enlistment of all the membership. This will be done during the next four months through an organization, which is being per-fected, that will reach every member in every church throughout the State and the South. An every-member canvass of every church in the South will reveal their willingness to do a big thing and their ability to do far beyond anything that has been imagin-ed in all the past. The Baptists are so numerous that no individual will be called upon to do more than he has the ability to do, yet all will do more than they have ever done.

The big campaign was opened for South Carolina in Columbia Tuesday,

exceptions every association was well represented. The leaders of the Women's Missionary Societies were there in full force and are actively participating in the campaign. The Baptist women of the South home International Labor Conference.—So that the first meeting of the international labor conference created by the Versailles treaty may be held in Washington next October regardless of whether the treaty is ratified, the senate has unanimously adopted a joint resolution authorizing the president to call such a meeting but giving

Can And Will The Baptist Do It? The answer is an unqualified YES. And this answer is given because the undertaking had its beginning in the enominational heart and conscience The campaign was ordered by the unanimous vote of nearly five thousand messengers in attendance upon the Southern Baptist Convention at Atlanta last May. It was the expressed will of Southern Baptists that the money should be raised, and Southern toward giving Baptists have ability to match their will. In answer to the query "Can the Baptists raise \$75,000,000," Dr. E. Y. ## Seven Days More of Our ANNIVERSARY SALE

Our First Anniversary 10 Per Cent Reduction Sale of Furniture and House Furnishings, began last Friday and the first three days have. been entirely satisfactory from the standpoint of gross sales. If Sales keep up to the pace set the first three days for the balance of the seven days we will be entirely satisfied with the amount of business done.

TEN PER CENT REDUCTION ON THE PRICE OF FURNITURE TODAY

. Means a very decided saving to the buying of furniture and furnishings. It is not only a big saving for right now, but in view of the constantly advancing prices the buying now will mean a decidedly larger saving than the initial 10 per cent if you are contemplating buying furniture and furnishings a little later on.

WE WANT YOU TO BUY NOW-NOT'SO MUCH ON OUR ACCOUNT-

As upon your own account, because we know that later on, say sixty days from now, we will be paying much higher wholesale prices and in consequence you will be paying much higher prices for what you buy and you will hardly get any better, if as good goods for the higher prices than you can buy during this sale with a discount of 10 per cent off regular prices of today. Financially to us it would probably be to our interest to have you buy later on, and if you prefer to wait, why of course we shall not object; but if you are looking for more for the money you intend to put into furniture and furnishings we would say that your best time is during this 10 per cent reduction sale.

BUT PLEASE REMEMBER—

That whether you buy now or later it will be our pleasure to give you just as much for your money as you can buy anywhere at any time.

YEARS AGO PAINTS WERE HAND-MIXED

And practically all of it was white lead and linseed oil, and occasionally this mixture made a lasting job. White lead and linseed and oil are good as far as they go, but they DO NOT GO FAR enough. ROGERS PAINTS are Machine Machine-mixed in great mixers that insure uniformity of mixture, and besides being composed of White Lead and Linseed Oil, Rogers paints also have a proportion of ZINC. Science, Time and Old Experience have demonstrated beyond question that a Zincless paint will NOT stay on and give the same protection as will White Lead and Oil mixed with Zinc. Not all Zinc, but a proportion of Zinc is most desirable in a good Paint. That is why ROGERS Paints have Zinc in it.

CALL AND SEE US ABOUT PAINTS-

Let us give you some information about Paints. You may not intend to paint right away-BUT SOONER OR LATER you will eertainly want to use some paint and we want you to know about ROGERS Paints, their good qualities and staying qualities and their real economy, and we believe when you are ready to buy Paints you will buy ROGERS PAINTS.
