No! "Auto" Track is Not Narrow Track

In talking with one of our customers about the Studebaker "auto" track wagons, we uncovered a surprising notion of his:

That notion—in his mind a firm belief—was that "auto" track wagons are the northern narrow track wagons. He was far from the actual facts, because "auto" track is neither narrow nor wide track. "Auto" track is a standardized width, developed to fit the tracks or ruts made by automobiles—every one of which makes a track 56 inches wide.

When standardization was first considered by the wagon manufacturers of both the south and the north, it was recognized that the constantly increasing number of automobiles were making, and would continue to make, the tracks on practically every road in the country.

These manufacturers foresaw the necessity of building wagons to fit this track. They saw the advantage to wagon users of being able to follow such roads without bumping, but running easily and smoothly in the established tracks, affording longer wagon service and doing away with the strain imposed on horses pulling a wagon that would not fit the roads.

Come in and examine our Studebaker "auto" track wagons. Have us show you by actual measurement—in case you, too, have had the wrong idea—that "auto" track is not narrow track.

IT'S NOT YOUR HEART IT'S YOUR KIDNEYS

Kidney disease is no respecter of persons. A majority of the ailments which attack the body can be traced back to kidney trouble.

The kidneys are the most important organs of the body. They are the filters of the purifiers of your blood.

All these symptoms are nature's signals to warn you that the kidneys need help. You should use GOLD MEDAL Bismuth Oil Capsules immediately.

In Olde Virginia
Where Cigarette Tobacco was born

"Along toward early autumn, after the tobacco crop had been cured, and packed away in the barns, the planters from up and down the river would foregather, usually at the Stobridge place, thence to set out on the first fox hunt of the season."

—Early Virginia, page 243.

Virginia-Carolina tobacco still holds the world's favor

WHEN, in 1587, the tobacco that we know as Virginia-Carolina tobacco was introduced into England, it quickly became "the rage". Since then it has gained steadily in popularity all over the world.

In 1918, in the United States alone, five times more Virginia-Carolina tobacco was smoked in cigarettes than all the foreign-grown tobaccos combined. That's because a cigarette of this sun-ripened home-grown tobacco has a crisp, lively relish that no cigarette of foreign or mixed tobaccos can match.

Piedmonts—made entirely of choicest Virginia-Carolina—will prove this to you.

The Virginia-Carolina Cigarette
Piedmont

NOTE—Virginia-Carolina tobacco is grown here in the U. S. A. Unlike foreign-grown tobaccos, it carries no import duty. Import duty doesn't make a cigarette any better—it merely adds to its cost. Piedmonts give you better value because all your money buys tobacco quality.
