

HOTTEST OF HOT STUFF

Noted Scientist Isolates The Pepper Of Pepper.

DISCOVERY OF NOTED IMPORTANCE

A Small Pinch of the Stuff on the Tongue Burns Like Red Hot Poker—Possible Practical Use of New Discovery Not Yet Figured Out; But That Will Regulate Itself.

Frederick J. Haskin. The hottest stuff on earth—the constituent of red pepper which makes it burn your tongue—has been isolated, analyzed and put up in a little bottle by Dr. E. K. Nelson, of the bureau of chemistry.

Dr. Nelson may be said to have taken the pep out of pepper, and thereby to have produced pure pep.

This remarkable substance bears about the same relation to red pepper that saccharin does to sugar. It has the essential quality of pepper—the burning quality—intensified about 500 times, just as saccharin has the sweetness of sugar greatly intensified.

In soldiers' rations, a very small tablet of saccharin does the work of many pounds of sugar. A little capsacin, as it is called, will do the work of tons of red pepper. It will not give the faint flavor which pepper derives from its essential oil, but it will give the sense of hotness with the most astonishing generosity. A mere pinch of capsacin would make a whole kettle of soup so hot that no one could eat it.

The strength of this substance is almost incredible. Dr. Nelson has about two ounces of it. He calculates that one of those ounces, if sufficiently diluted, would be enough to put a pebbly taste on the tongue of every man, woman and child in the United States.

Dr. Nelson has a solution of capsacin in alcohol, which consists of one part of the hot stuff to 100 thousand parts of alcohol. Waiving the prohibition law in the interests of science, the doctor allowed a newspaperman to touch with his tongue a single drop of the precious fluid on a flask of glass. It may be stated that if this concoction were placed in general circulation, it would breathe a new meaning into the term brewer.

This substance was isolated long ago by a British chemist named Thresh, who swallowed some of it in a capsule, and had one of the most intense and violent stomach aches in the history of science. His discovery attracted some attention at the time but was soon forgotten. It remained for Dr. Nelson to analyze the substance. He not only did that, producing the acid and the base of which it is made, but he also made synthetically a substance almost exactly like it.

The doctor had some interesting adventures with his discovery. From working in his laboratory with the fumes of capsacin, his face became so red and irritated that he had to give up shaving for a while. A little of the vapor got into his eyes, and he was temporarily blinded. But he found that the substance has absolutely no permanent effects. His eyes in due course returned to normal, and were no worse for the experience. His whiskers were unharmed.

By way of trying out the effect of capsacin vapor, the doctor placed a very small pinch of it on a piece of metal, and heated it until it vaporized. He then opened the door of his laboratory and drove the fumes out by placing an electric fan behind them. He himself remained behind the electric fan. Across the hall a conference was going on, and it presently testified to the power of capsacin by exploding into a terrific series of sneezes and coughs.

But the doctor got an even more dramatic illustration of the strength of this remarkable substance quite unintentionally. A minute quantity of capsacin had crystallized on a bit of filter paper, and this piece of paper the doctor burned, forgetting that there was capsacin on it. The vapor blew out the building and had much the same effect on the occupants of that floor as a fire alarm. When they were all out, a man from the floor below came up to see what was the trouble, but he did not stay long. For some time there was nothing done in that part of the building.

You might think, from all this that capsacin would make a splendid fumigant to rid a house of insect pests, but this does not seem to be the case. The doctor says that he has just as many cockroaches in his office as he ever had, and that the presence of capsacin vapor in the air does not seem to annoy them at all.

In order to produce this substance, the doctor took 50 pounds of the hottest red pepper he could get and put it through a number of chemical processes, finally eliminating everything but this one substance. The substance consists of tiny, clear white crystals, not unlike little diamonds. It is literally impossible to do anything with the substance in a pure state. A bit of it on the skin will redden and irritate the flesh. The smallest possible pinch placed on your tongue will make it burn for hours, as though it had touched a red hot poker. The substance has no odor; but if in sniffing it you should draw an infinitesimal part of it up your nostril, the results would surprise you.

The practical minded layman wonders what is the use of isolating this strange substance. There are several possible uses. Capsacin may be of great value in medicine as a counter irritant. It would be possible to make with it a thing similar to a mustard plaster, but vastly more efficient. Then, too, it can be used in making

condiments. An extremely small amount of this substance distributed through some food, such as starch, colored black and ground, would probably get by the average man as pepper.

The scientists, however, do not pursue their investigations with a view to discovering immediate practical application. They proceed on the principle that you must get the knowledge first, and apply it afterward.

Some years ago, for example, Dr. Nelson, who is a specialist in essential oils, devoted much time to isolating and studying the essential oil of American worm oil or chenopodium. He did not know what use would be made of his studies, but they resulted in the discovery that chenopodium is the best cure for hookworm, and it is now widely used as such. Dr. Nelson has a little bottle of this essential oil, and he will let you smell it.

You will then understand why hookworms leave home.

DOGS OF ST. BERNARD.

They Fared Hardly Because of the Great War.

At one time during the war the press of the world went for the St. Bernard dog, which, said the current story, was a victim of the food shortage. It was not made quite clear whether the monks of the hospice were reduced to dog-meat or what, but that the St. Bernard was doomed everyone admitted. It made a good story.

The chief reason it made a good story is because of the romantic atmosphere surrounding these dogs. There have been tear-stirring pictures of a traveler half-buried in the snow, obviously lost and in great peril; over him would be standing the great blunderheaded St. Bernard, a flash of liquor tied round his neck. Under the picture would be the word "Saved!"

From this and similar pictures the world pictured these dogs hunting diligently night and day over the expanse of mountains for stray travelers.

A pretty picture, but not strictly true. What the good canons of the

hospice did was this: Send a dog down each side of the pass every day during nine months of the year, to guide any travelers waiting at the refuge below. The pass frequently, almost invariably, was lost in the snow, but the St. Bernard never failed to keep to the safe road and bring the party back to his kennel at the hospice. Often the snow would be as deep as the height of the dog; his blunt nose he used as a snow-plough; no snow-fall, however heavy, could stop him.

The first attack on the St. Bernard dog came from the Swiss war-office; the St. Bernard pass being a frontier post, and the Swiss being mobilized during the war, this line was heavily guarded. In the winter the garrison took to skiing; the dogs, as dogs will, adopted the new playmates with eagerness, and took to capering and racing with the skiers.

The war department was informed by the commander of the pass that "the inopportune gambols of the animals occasioned frequent collisions."

As a result the great St. Bernards were kept in their kennels. It was soon after this that, visitors being reduced to the irreducible minimum of nothing, the question of the cost of living came to the hospice, and made it expedient to survey the kennels, with a view of cutting down the food-supplies.

The big dogs have big appetites; carting food for them up the pass was no light job, especially when food was scarce; only enough were saved to continue the race.

And that is the true story of the St. Bernard dog and the war. Incidentally, of course, the race is pretty well spread over the world now, and many St. Bernards of authentic strain are in the United States—Dearborn Independent.

Suicide by Permission.—Mere man has little voice in government affairs on Eskimo inhabited Little Diomedes, one of the Diomedes islands that are cut in two by the international boundary line across the Bering Sea between Alaska and Siberia. Women

and children do most of the ruling, according to reports reaching the Alaska Territorial Bureau of Publicity. Before a man can make a purchase he must get his wife's consent. If a mother is living with a married son or daughter her consent must be obtained. Wealth is estimated in skins and the rich provide for the poor.

Official suicide is provided for. When one of the natives lives of hunting seals and fishing and trapping and desires to end his existence he makes formal application to the governing body for permission to take his life.

REAL ESTATE AGENCY FOR SALE

82 Acres—Land, 5-room new dwelling; 14-room tenement house; 4 1-2 miles of York.

One Lot—On Wright Ave., 77x270 feet, more or less; 5-room dwelling; electric lights and water. See me at once. Price very low.

71 1-4 Acres—Good farm on Piedmont Road about 10 miles northwest of Yorkville. Has good new 5-room dwelling, good 4-room tenement house, good barn. Three horse farm of good fresh land open, and balance in timber. Offered for quick sale.

60 Acres—King's Mountain road, 11 miles from York. Five-room house, on the York and Clover road, 1 1-2 miles from Clover.

51 Acres—On Pinckney road, 2 1-2 miles from York. Two 5-room houses on the York and Clover road.

Five Room House—On one acre lot, on Charlotte road, near Cannon mill. Good New Four-Room House—Lot 100x400 feet, on Charlotte street.

One Good New Five Room House—On lot 100x200 feet, near graded school.

70 Acres—With two houses, within two miles of courthouse.

C. F. Sherer Residence—Five room house, on lot 110x250 feet. Good barn. East Jefferson street.

Four Room House and Lot—On same street.

Two Lots—On Lincoln street, opposite J. E. Johnson's residence; 80 foot front, each.

48 Acres—Of land near New Zion church. Will sell cheap.

Five Room House—A Good Store Building and Two Acres of Land, at Filbert, belonging to Mr. E. L. Wood.

C. F. SHERER, Real Estate.

J. C. WILBORN, Real Estate, YORK, S. C.

DESCRIPTIONS OF TOWN AND FARM PROPERTY OFFERED FOR SALE

60 Acres—Inside of corporate limits of York, facing Charlotte street for one-fourth mile. Property of Geo. H. O'Leary. For quick sale, \$150 an acre.

Beautiful Cottage—In Rock Hill. Six rooms with bath, lights and water; on Saluda street. Formerly known as the Harry Ruff residence. Price, \$5,000.00.

A Nice Home and Lot—On King's Mountain street in Clover, S. C. Good neighborhood. Four-room cottage. For immediate sale, \$1,500.00.

The Beautiful Home-Farm—Of J. Pink Adams. Two miles of Clover. The main dwelling house has seven good rooms. Another good residence with four rooms. Good barns, fine pasture, flowing water. Ninety (90) acres under cultivation; about fifty (50) acres in timber and pasture. Can divide this into two farms. Price \$1,400.00.

Beautiful Farm—Of W. H. Sherer, about one-half miles of Clover. Beautiful six-room residence. Fine state of cultivation. Forty (40) acres under cultivation, balance in timber. An ideal home and small farm; close to school. All conveniences. Price, \$2,200.00.

101 1-2 Acres—Joins the land of S. S. Glenn, T. G. York and others. About eight miles of Gastonia, eight miles of Clover, and eight miles of Belmont; fine sand and clay road to Gastonia; Belmont and Union road to Union road of Gastonia. 11-2 miles of school. Has two good dwellings, four rooms in each. Lies on the public highway, Gastonia and Rock Hill road. Produced in the year 1918 with one man's work and a negro man and his wife, the following crops:

Table with 2 columns: Crop and Price. 14 bales of cotton @ \$2,450.00, 450 bu. corn @ \$2 per bu., 900 bu. oats @ \$1.15 per bu., 70 bu. wheat @ \$2.75 per bu., 5,000 bundles of fodder @ \$2.50 per hundred, 60 gallons of molasses @ \$1 per gallon, 420 bu. cotton seed @ \$1 per bushel, Other hay crops @ 150.00.

Total income \$4,470.00. 65 acres in cultivation, 361-2 acres in timber. This land lies perfectly level. It is one of the most beautiful farms in the county, and makes a bale to the acre under favorable circumstances. It is all fresh land and a man buying it gets a good start with land to make fine crops. There is not a waste acre on this farm. I often wonder why people would prefer to buy two or three hundred acres with one-half or two-thirds of it waste land. Paying \$50 to \$60 in preference to buying a farm like this. The price is \$100 per acre.

67 1-2 Acres—More or less, joins the land of Mr. Tumbling, Revels and others. One good residence, one story, six rooms. Forty-five (45) acres under cultivation; balance in timber. Two miles of Bethesda church, three-fourths of a mile from the station of Guthrieville school and depot. Fine level land. A part of the beautiful farm of Amos Revels' estate lands. Price \$85 per acre.

119 1-2 Acres—One and one-half miles of York. One good dwelling house, two stories, seven rooms. Price \$55 per acre.

50 Acres—Near the farm of John S. Feemster, R. B. Hartness and C. M. Imman. One good four-room dwelling house; good barn. Forty-five acres in cultivation. Price \$30 per acre.

113 Acres—Near Smyrna. One good dwelling house, four-rooms. Good barn and other necessary out-buildings. Price \$40 per acre.

64 Acres—The property of J. L. Templeton, joins the land of Felix Quinn, E. M. Walker and others. A nice six-room cottage; 45 acres in cultivation. Fine corn and cotton grit. See me for price.

225 Acres—The property of Pierce Love, two and one-half miles of McConellsville, on public highway. Five room dwelling. Good four-horse farm open for cultivation; 75 to 90 acres in timber, some of which is fine saw timber. This is a very fine farm. It is worth over the price. We have fixed \$50, so that we may make a quick sale. \$50.00 per acre.

J. C. WILBORN, REAL ESTATE,

300 acres—The property of A. A. Burris. Sixty (60) acres in bottom land now being dredged on Turkey Creek. Fifty acres of upland in cultivation. Good quantity of pine timber. Seven miles of York. Price \$11 per acre.

51 1-3 Acres—One and one-half miles of Beersheba. One good dwelling, five rooms. Two barns. Thirty five acres under cultivation. Good school near by. Price \$7,500. Property of J. M. Mitchell.

134 acres—More or less. Property of Mrs. S. J. Barry. 100 acres in cultivation; balance in timber. Has large barn six stalls and two sheds. This is very fine productive land. Two miles of school.

Beautiful nine room residence formerly known as the Scott Wilson place, now the property of J. P. Barnes; nine miles of Bethel Church, seven miles of McConellsville. 150 acres in cultivation. A big paying proposition. Plenty of tenant houses and plenty of wood to do the farm. Price, \$65 per acre.

90 acres—Joins the land of R. T. Sandifer, C. B. Conrad, J. A. Conrad. This is a very fine farm, much of this land makes a lot of cotton for the farmer. Has from 40 to 45 acres in bottom land. Fine state of cultivation; with one of the best pastures in York County. Two miles of McConellsville. Dwelling house has four rooms. Price \$60 per acre.

228 acres—More or less, joins the lands of W. H. Beard and others. The property of Fred G. Cook, one dwelling house, two stories eight rooms and seven horse under cultivation, fifty acres in timber, fine orchard, three miles of Bethel Church, seven miles of Clover, on the fine sand and clay road, one and one fourth mile from school. It has three other houses, two of these houses are two stories high both have six rooms each, the other house has five rooms. If the tenant house in the yard had four good rooms, has good big barn, double crib, lumber and wheat house two stories high, cotton house shedded. Option expires the ninth day of October. Price \$50 per acre.

64 acres—Joins the land of Sidney Hogue, W. O. Youngblood's estate land, one dwelling four rooms. Sixty acres under cultivation, forty acres in saw timber and wood, six acres in bottom, three miles of Tizrah. This is a good paying farm. Option expires September 13th.

The beautiful home of P. G. Gorth at Bethany; including saw mill, roller mill, cotton gin and all attachments. One dwelling, two stories, ten rooms. Also his small farm near this home. See me at once for quick sale. This is one of the finest propositions in York County.

406 acres—Known as the Saunders place, three hundred and fifty-six acres in timber and wood; has eighty-eight acres of bottom land, six miles of McConellsville. Has only about three horse farm open on this splendid land. For a man that is willing to work and clean up a farm, there is not a better chance in York County than this. Will accept \$7,000 for this farm if bought before the first day of January. Terms: One-fourth cash, balance three to seven years to pay. Possession given immediately if the tenants are not interfered with by this year's crop.

61 acres—A fine residence and farm of George Revins, half a mile of Bethesda Church. The Rock Hill and Guthrieville road divides this place. Forty (40) acres under cultivation, twenty acres in timber and wood, one mile of depot and school at Guthrieville, has a good barn. This is perhaps the best small cotton farm in York County. It is a "jim dandy."

87 acres—The property of J. F. A. Smith, Cotton Belt section. A six room residence in use at the moment, has three acres of orchard, four of bottom land, half a mile of Cotton Belt School, has two tenement houses, five rooms each; option expires in October. This is one of the finest residences on a small farm in York County.

99 acres—The best farm in five miles of Tizrah station. Level land. Good dwelling house with six rooms. About thirteen acres in timber, balance in cultivation. Has good orchard. Half mile of Tizrah station. I have a short option on this place, and it must be sold at once. Look it over and come and talk with me. It is the property of J. C. Wallace.

97 Acres—W. L. Wallace, near Meek Williams. Price \$4,200.00.

189 Acres—Residence and farm of Andrew J. Parrott, Filbert. Located on the Filbert-Clover road. Will sell as a whole or in sections. Look it over and make me an offer.

643 Acres—Three miles Hickory Grove. Mrs. Warth, \$20.00 acre.

(10). 119 Acres—1 mile Sharon, L. H. Good, Price, \$5,000.

(14). 37 Acres—3 miles York. Price, \$60.00 per Acre.

(15). 150 Acres—3 miles Smyrna. Price, \$31.50 per Acre.

(17). 226 Acres—8 miles Clover. Price, \$60.00 per Acre.

542-5 Acres—J. P. Bales farm; one cottage, 5 rooms.

148 Acres—Property of W. T. Cain. One mile of Guthrieville. One dwelling, five rooms; fifty (50) acres under cultivation; about twenty in timber.

303 acres—The property of Miss Maggie N. Oates near Bethany High School, 100,000 feet of good saw timber. 50 acres of fine bottom land. Price fifty dollars per acre.

80 acres—Joins the land of S. S. Shuford, Foster-Jackson and others at Clay Hill, five miles of New Port, one mile of Forest Hill School; has two good rooms under cultivation very fine land, balance in pasture, fifteen acres in timber, two miles of Allison Creek Church, one mile of good school, on public highway, has one tenement house, ideal farm and can be bought right. J. D. Nixons.

184 acres—More or less, joining the land of William Oates and others, 130 acres in cultivation. 260,000 feet of timber, 5,000 cords of wood. The property of Mrs. W. B. Stroup.

110 acres—More or less, joins the land of Ed Brandon, Mr. Sparrow, Billy Stanton and others, one and one half miles of Brandon School, has small tenant house on it. The property of S. J. Clinton. Price \$30 per acre.

222 acres—Property of Sam Robinson at Clover. One dwelling house, two stories each, one hundred and fifty acres under cultivation, also another residence seven rooms, two miles from Tizrah station, one of the best in York County. If you do not think so look it over. This is a very valuable farm and is within one mile of one of the best towns in York County. Price \$25 per acre.

186 3-4 acres—Formerly the home of J. J. Matthews, joins the land of Pursey and McElwee estate, beautiful 7-8 acre, 300,000 feet of good saw timber, is now the property of E. G. Parsley. A very fine farm. Price \$75 an acre. Lies on splendid public highway.

64 acres—At Tizrah station, joining the property of Clint Jackson. One residence, 2 stories needing repair, also one tenement house. Price \$70 per acre and the next ten days.

80 1-2 acres—One residence, one barn, one crib, with wagon shed, two story lumber and cotton house, one good smoke house, one good shop, well house, well, spring. Between 50 and 60 acres in cultivation, fine orchard, good pasture. Plenty of good timber. Price \$42 per acre. Property of S. W. Gardner.

I have the R. M. Anderson's farm 6 miles of Rock Hill, sand and clay road splitting it. This farm contains 600 acres with five buildings and barn, there is not a better place for a horse farm in York County and none better located than this farm.

97 Acres—W. L. Wallace, near Meek Williams. Price \$4,200.00.

189 Acres—Residence and farm of Andrew J. Parrott, Filbert. Located on the Filbert-Clover road. Will sell as a whole or in sections. Look it over and make me an offer.

643 Acres—Three miles Hickory Grove. Mrs. Warth, \$20.00 acre.

(10). 119 Acres—1 mile Sharon, L. H. Good, Price, \$5,000.

(14). 37 Acres—3 miles York. Price, \$60.00 per Acre.

(15). 150 Acres—3 miles Smyrna. Price, \$31.50 per Acre.

(17). 226 Acres—8 miles Clover. Price, \$60.00 per Acre.

(18). 351-2 Acres—At Filbert—on King's Mountain road. Price, \$2,100.

(20). 63 res—6 miles York. Price, \$30.00 per Acre.

(22). 159 Acres—3 miles Smyrna. Price, \$3,500.00 total.

(23). 250 Acres—3 miles Sharon. Price, \$150.00 per Acre.

(24). 325 Acres—J. O. P. Price, \$25.00 per Acre.

(25). One House and Lot—Near the Cannon Mill. Price, \$1,750.00.

N. B.—Look at any of this property or else write for further information. I can give satisfactory terms on any purchase. If you want a farm after looking over the above, better phone me at once, because I am selling them very rapidly.

REAL ESTATE AGENCY FOR SALE

Room 204 First National Bank Bldg.

REAL ESTATE
