Paragraphs That Are of More Especial Interest to Women

Game Pie
Game pies are now enjoying a return to favor.

Make a paste of five cupfuls of flour, three-quarters of a cupful of fat, three-quarters of a cupful of fat, yolk of one egg and half a teaspoonful of salt.

Progress of Women.
Many women are being employed to help repair roads in Great Britain.

Unless the heat has been too great it should not be burned, and unless there is too much fat it should not have a hard crust but simply a well and evenly browned under surface.

Where the People of America Come From.
High hope for the proposed Americanized program is held out by a study of the remarkable way the United States has absorbed the amazingly large foreign element of its population.

History records no similar movement to population which in rapidity or volume can equal this. Compared to it, the hordes that invaded Europe from Asia, great and enormous as they were, were insignificant.

WHAT BETTER CHRISTMAS GIFT
COULD YOU WISH FOR THAN A PHONOGRAPH? DO YOU REALIZE THAT MUSIC IS AS MUCH A NECESSITY IN YOUR HOME AS YOUR WIFE AND CHILDREN?

WHAT MUSICAL INSTRUMENT, IF ANY, HAVE YOU IN YOUR HOME?
WE HAVE THE EDISON IN SEVERAL GOOD STYLES. COME TO SEE THE EDISON AND HEAR IT PLAY AND SING AND TALK.

you couldn't claim to be a good cook unless you could make beaten biscuit, and you surely have to be a pretty good cook to make them.

With the young American cook the ability to make mayonnaise, which really doesn't involve any actual cooking at all, might be regarded as the test.

If you want a light omelet you must beat the yolks and whites separately. This means that they must be separated and beaten each with a clean whisk.

Melt a little butter or fat on a frying pan, and when hot but not smoking turn into it the yolks of two eggs well beaten.

Unless the heat has been too great it should not be burned, and unless there is too much fat it should not have a hard crust but simply a well and evenly browned under surface.

One of the new hand bags looks like a squat little old lady in a very bouffant skirt, fringed about the lower edge.

The two plumed fans are charming. They are made simply of two big, slightly curled plumes—curled just enough so that each frond curves gracefully toward the end.

A panel of light shade—beige or gray—up the front of some of the laced black kid boots of the moment adds distinction to them and gives an interesting trimming line and color contrast.

Flowered silk umbrellas in flowered silk umbrella sheaths are sold in some of the smart shops. They are a pretty note on a rainy day.

Steel rings are used on some of the new suits in such a way that they suggest a steel chain. They are not actually linked, but each is lapped over the next to it, so that the appearance of a chain is given.

Around the Dining Table.
To make any candle fit any candlestick, you can mold the end in warm water; then if it is too large for the stick, you can mold it with your fingers, drawing it out lengthwise a bit, or, if too small, you can crowd the soft end down into the socket till it spreads enough to stand steady.

If your rented house or apartment is cursed with a poisonous-looking "art-dome" on the drop light over the dining table, take heart—you can hide it. Make a shirred cover for it of thin silk of a tone harmonious with the coloring of the room.

Do not, as has often been advised in print, attempt to use blotting paper under place doilies to protect a table from hot plates. The blotter will mat into the softened varnish.

Can You Make an Omelet?
What is the test of a good cook? Is it the ability to make bread? Perhaps it was once, but in these days of baker's bread there are many good cooks who cannot master this task.

and mothers and 6,500,000 children of foreign-born fathers and native mothers, or vice versa.

If your extension dining table doesn't lock when it is reduced to its lowest terms, put into the pine frame underneath a screw eye and a hook; otherwise some day when it is loaded with china, a well-meaning person may try to pull it from one side.

A few bits of charcoal dropped in the water with cut flowers helps to prevent the stems from disintegrating before the beauty of the blossom is gone.

EUROPEAN IMMIGRATION
Where the People of America Come From.
High hope for the proposed Americanized program is held out by a study of the remarkable way the United States has absorbed the amazingly large foreign element of its population.

"Who can estimate our debt to immigration? Thirty-three million people have made the long voyage from alien shores to our own since it was proclaimed that all men are born free and equal, and liberty's eternal fire was kindled first on American soil.

"History records no similar movement to population which in rapidity or volume can equal this. Compared to it, the hordes that invaded Europe from Asia, great and enormous as they were, were insignificant.

"Of the 33,000,000 who have come more than 14,000,000 still live among us, and their children and children's children are now in good truth bone of our bone and blood of our blood.

"Not long ago America crossed the hundred-million line in the number of its citizens, and it is interesting to note the composition of that population.

"To begin with, there are 11,000,000 colored people, including negroes, Indians, Chinese, etc. Then there are 14,500,000 people of foreign birth among us.

and mothers and 6,500,000 children of foreign-born fathers and native mothers, or vice versa. When all of these have been deducted from the 100,000,000 only 54,000,000 remain of full white native ancestry.

"Yet the 35,000,000 American people who are of foreign stock—that is, foreign born or the children of a foreign-born parent—include some of the most illustrious citizens of our Republic. Even the president of the United States himself has only one ancestor who was born in America, and the list is long and notable of statesmen, captains of industry, leaders of finance, inventors, makers of literature and progress, who have strains of blood not more than one generation on this side of the sea.

"An examination of the statistics of American immigration shows that since the foundation of our government the United Kingdom of Great Britain and Ireland have contributed 3,400,000 of her people and Germany more than six million. Ireland with more than four million; Great Britain, with a little less than four million and Scandinavia, with something less than two million, have together with Germany, contributed more than half of the total immigration to our shores since the beginning of the Revolutionary War.

"When we take the German immigration of the United States between 1776 and 1890 and compare it with that from other countries, a somewhat startling result, and one usually unsuspected, is disclosed. The total arrivals of aliens in those 114 years aggregated 15,639,000, of whom more than 6,000,000 were British and Irish and 5,123,000 were Germans, which shows that one alien out of every three arriving in America during more than a century of our existence was a German. Only the United Kingdom shows a greater proportion.

"Since 1890 the trend has been very different. With more than 17,000,000 immigrant arrivals since that date, only 1,925,000 have been Germans. If from this number a proper deduction is made for those who returned to their homeland and those who have died since their arrival, it will be seen that there are fewer than a million former subjects of the kaiser in this country who have not been here more than twenty-six years. Of more than 8,000,000 people of German birth and immediate ancestry among us, less than 1,000,000 fail to have the background of birth or long residence in America behind them.

"It is interesting to note the other foreign elements that have entered into the make-up of American population since 1776. What a wealth of blood that wonderful little island, Ireland, has given us! More Irish people have crossed the seas to become part of us than have remained behind. It is remarkable that so small an island—smaller, indeed, than the state of Maine—could in a century and a half send us enough people to duplicate the present population of eleven of our states having an aggregate area as large as the United Kingdom, France, Germany, and Austria-Hungary together.

"Austria-Hungary stands next on the list of contributors to the immigrant stream that has flowed from Europe to America. Although Austro-Hungarians began to immigrate in considerable numbers only when the arrivals from western Europe had begun to fall off, sufficient have come from the dual monarchy to populate the state of Texas to its present density. Italy has sent us enough of her people to duplicate the population of Montana, Wyoming, Idaho, Oregon, Nevada, Utah, Colorado, Arizona and New Mexico, while England's and Scotland's contribution, 3,889,000 in all, together with Ireland's 4,500,000 gives a total of 8,398,000, or plenty to populate all of the states lying west of Texas and the Dakotas. The Russians who have come to our shores number 3,419,000. They could replace one-half of the population of New England."

It is estimated that the war between Russia and Japan is costing \$3,000,000 a day.

Trade With Germany.—German toys valued at hundreds of thousands of dollars are on the American Christmas market, the Washington government reported yesterday. Figures at the department of commerce showed that German dolls and toys valued at \$515,000 were imported in September and October. Imports in November and December are expected to swell this to \$1,000,000. That Germany is losing no time in her efforts to get a foothold in American markets is shown by other imports in October as compared with September. In October imports from Germany totaled \$2,157,608, an increase of \$500,000 over September. Furs, toys, silk and sugar beet seed were the principal commodities imported. Exports to Germany from this country in October more than doubled as compared with the previous month. In October exports totaled \$20,663,521, compared with \$8,356,937 for September. Of the exports in October \$12,000,000 consisted of meat and dairy products. Cotton shipments amounted to \$5,500,000.

THE YORKVILLE ENQUIRER FOR 1920

Reduced Rates of Subscriptions to Subscribers in Clubs.

CASH COMMISSIONS TO CLUB MAKERS.

Club Campaign to Continue From November 1, 1919, to February 14, 1920.

With largely increased mechanical facilities, with editorial staff augmented, and an abundant supply of white paper, The Yorville Enquirer is now more interesting and valuable than it has ever been, and it is the purpose of the publishers to still further improve it during the year 1920.

In order that it may be still more useful to the public this paper should have a much larger circulation, something like 4,000 or 5,000 copies per issue, and as this increase can best be brought about through the co-operative efforts of those who take and read the paper and know what it is, we are asking, that each present subscriber do what he can to help swell the present mailing list.

OFFER TO CLUBMAKERS
We have the following liberal offers to make to CLUBMAKERS, all conditioned on the same rules and regulations heretofore obtaining, including the following:

CLUBMAKERS may return names as they get them, with understanding that the Clubmaker is responsible for each subscription at the rate of 5 cents per week until February 14, 1920.

To the Clubmaker returning and paying for the largest number of subscriptions by February 14, 1920, we will give a WOODSTOCK TYPEWRITER, one of the very best visible writing type machines on the market, and worth One Hundred Dollars in Cash.

For the Second Largest Club we will pay FIFTY DOLLARS CASH.

Third Premium, 112-Piece Dinner Set.

For a less number than FIVE NAMES, Cash Commission, and also CASH COMMISSION on all names over and above the number necessary to secure any of Premiums mentioned above.

THIS IS IMPORTANT
Please remember, that under no circumstances must the Subscriber receive the paper for LESS than the Subscription Price advertised for Clubs, \$2.25 a Year. The Publishers are bound not to violate this rule.

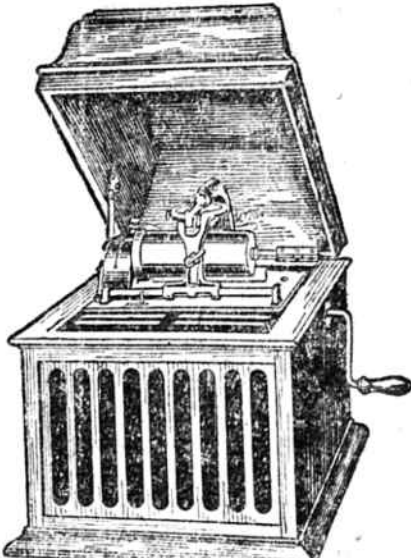

NEW SUBSCRIPTIONS
ALL NEW SUBSCRIBERS who give the Clubmakers the Cash (\$2.25) with their subscriptions, will be entitled to receive The Enquirer until January 1, 1921, without charge for the time previous to January 1, 1920.

NO EXTENSION
Last year for reasons that were deemed sufficient, there was an extension of the time during which subscriptions were received at club rates, \$2.25 per annum. The time was extended from February 1 to March 15. This year there will be no such extension, the club rate of \$2.25 will be continued until February 14. On that date all unpaid subscriptions will be dropped from the mailing list and the subscription price from then onward will be not less than \$2.50. At the rate at which the cost of white paper is now going up, it is quite possible that the subscription price after February 15, may be \$3.00 or more.

A BETTER ENQUIRER
Kind words of commendation and appreciation from our subscribers and others who are not subscribers, mean a larger circulation, and a larger circulation of The Enquirer means a better and more valuable newspaper. We want all who can to act as Clubmakers, and those who cannot conveniently act as Clubmakers may feel assured that their words of commendation will be appreciated both by the Clubmakers and publishers.

Our books for the Club campaign will be opened SATURDAY, NOVEMBER 1, and closed SATURDAY, FEBRUARY 14. NEW subscribers who pay the Clubmaker the Cash along with their subscriptions, will receive the paper until January 1, 1921 without charge for the period previous to January 1, 1920.
