FORD PRODUCING

Present Production Greater Than for Same Period Last Year. Ford is building cars at full speed. And, according to an official statement from the factory at Detroit, the de-

mand for Ford cars and trucks still exceeds the output, despite the fact that a new high level of production has been reached. By the first of May the figures rep-

been produced in one day so far this ment hereinafter to be ordered, and if year. Since the month has 25 working no objection is made to the said sale, the same will be held on June 15th,

new high record.

A comparison of Ford production figures for 1920 and 1921 disclose the fact that for April, 1921, the output was greater by 34,514 than for the corures for 1920 and 1921 disclose the fact that for April, 1921, the output was greater by 34,514 than for the corresponding month of a year ago. output for May, 1921, will probably overshadow May, 1920, by between fifteen and twenty thousand cars and trucks.

Approximately 43,000 men are at work in the Detroit plant of the Ford Motor Company. The factory is operating on full time, six days a week and three shifts a day.

"We were never in a better condition than we are right now," said Henry Park recently.

Years Ago

IT WAS IN JULY, 1899, nearly twenty-two years ago, that I made my first contract to represent the Mutual Benefit Life Insurance Co., as Local Agent. I had had some previous experience in life insurance, and was fairly well posted on the contracts, business methods, records as to service and square dealings with policy holders, etc., and chose the Mutual Benefit because I was convinced that although it paid its Agent smaller commissions than any other company it GUARAN-TEED its policy holders MORE and each one whom I insured would be a booster, and incidentally a sub-agent, without pay. Subsequent develop-ments have more than justified my expectations. Every policy holder is en-tirely satisfied and there are several hundred of them. The large majority have more than one policy—some as many as 4, 5 and 6, and one has ten, taken out at different times, in some instances there being as many as 21 years between the taking out of the first and last.

If YOU should happen to know a Mutual Benefit policy holder ask him what HE thinks about the Company. I have a list of more than 500 in York county. It is too long to publish, but you are at liberty to examine it and select any number you care to and ask for opinions. Look Before You Leap!
