Considerable cotton has been sold here again this week. Local cotton buyers have been fairly busy since Monday. Most of the cotton sold is the property of "small farmers," that is farmers who have only two, five or ten bales to sell.

THE CASH AND CARRY STORE
Here Is Where the Cost of Living Comes Down to Rock Bottom.
We have had many years of experience in the Family and Fancy Grocery business.
We have sold goods on credit and we know what that means. YOU have either got to pay the other fellow's debts along with the cost of delivery or we "bust."
We think we know a lot about goods, and where to get the best values for the least money. These conditions are necessary in order that we may give you the best Service.
We have come to this community because we had concluded from previous investigation that it is one of the best in South Carolina, and in this we do not believe we have made any mistake.
We understood before we came that the family and fancy grocery people here are high class, intelligent men who give most excellent service and our information along that line is also confirmed.
We are not here intending or expecting to make any great business sensation. We only seek to give good, intelligent service and make an honest living.
By saving the cost of book-keeping and cutting out losses through bad accounts we can sell you goods at a reasonable, uniform profit and by carrying your goods home yourself you save the cost of delivery.
Those who are interested in our system can best satisfy themselves by giving us a thorough test. Nothing can be established either by us or the other fellow by an occasional cut price on some one, two or three articles. But if you will try it for say a month and keep yourself the account that has heretofore been kept for you, you can tell without question whether or not there is any merit in our system.
We will be glad to have you come and see us.
WYCH ELDER, Proprietor
