Buy Furniture Now ---

We are saying this for YOUR benefit as well as our own. Yours, because we know that Furniture and House Furnishings are as LOW PRICED TODAY as they are likely to be—as low in fact as pre-war prices.

There are several reasons for this, among other things, money is scarce, the factories are overloaded, they need money, they want to unload, and to coax sales they have reduced prices to the limit.

That is why we say to YOU to BUY NOW—it will pay you to do so. Money talks with us just the same as with the factories—Our Prices are Very Low and you will find that you can buy some extraordinary values here if you buy NOW.

But of course, if you wait very long you will certainly miss some of our best values, because almost every day some buyer comes in and sees our offerings and the price and the quality make quick sales. IT IS A GOOD TIME TO BUY NOW.

ANNOUNCEMENT

Mr. Edsel B. Ford, President of the Ford Motor Company, gives out the following statement: "Another reduction has been made in the list price of all types of Ford cars and the Ford truck to take effect immediately."

Table with 2 columns: Model Name and Price. Includes TOURING CAR (\$415.00), RUNABOUT (370.00), COUPE (695.00), SEDAN (760.00), CHASSIS (345.00), TRUCK CHASSIS (495.00), TRACTOR (625.00).

"The big reductions last fall were made in anticipation of low material cost which we are now getting the benefit of, and this fact together with increased manufacturing efficiency and the unprecedented demand for Ford cars, particularly during the past three months permitting maximum production, have made another price reduction possible immediately."

"Ford business for April and May, 1921, was greater by 56,633 cars and trucks than for the same two months in 1920; in fact, the demand has been even greater than the supply, so that our output has been limited, not by unfilled orders, but by manufacturing facilities."

"During May we produced 101,424 Ford cars and trucks for sale in the United States alone—the biggest month in the history of our company—and our factories and assembly plants are now working on a 4000 car daily schedule for June."

"The Fordson tractor is still being sold at less than the cost to produce on account of the recent big price reductions, and it is impossible, therefore, to make any further cut in the price of the tractor."

Can you afford to go without a car any longer when Fords are selling at these new low prices? There is no reason now why you should delay purchasing a Ford car, Ford truck, or Fordson tractor.

We will gladly advise you concerning the delivery of a Fordson tractor or the particular type of car in which you are interested. Just phone us or drop us a card.
