

GARNERED WITH SCISSORS

News From Within and Without the County.

CONDENSED FOR QUICK READING

Some Items of Fact, Some of Comment and All Helping to Give an Idea of What Our Neighbors Are Saying and Doing.

Chester Reporter, Jan. 26: A marriage license was issued Tuesday from the office of Judge of Probate A. W. Wise to Mr. J. H. Reid and Miss Macie Janet McWaters, both of Bascomville. Mr. Robert Worshy, aged twenty-five, a native of the western section of Chester county died of pneumonia yesterday at Lockhart, and will be buried today at Brushy Fork church graveyard. The sale of the McAlley lands yesterday showed that there hasn't as yet been that return to "normalcy" that Mr. Harding promised so glibly during the days ante-dating his induction into office. Several tracts were offered, but the highest bid received was \$50 for some of the land lying along the right of the road. There was a large crowd present; and under different conditions the sale would have been a tremendous success. Mr. H. B. Branch, secretary of the chamber of commerce, has a letter from Dr. A. D. P. Gilmour, in which Dr. Gilmour expresses deep regret that the plan of operating a special train to Spartanburg for the Billy Sunday meeting has been abandoned. Dr. Gilmour says that he is afraid that owing to the fact that Mr. Sunday already has numerous engagements and is deluged with invitations the great evangelist will not be able to visit Chester, but hopes that as many Chester people as possible will attend the Spartanburg meetings from time to time. At the meeting of the county directors yesterday the offer of Mr. S. M. Jones to lend the county \$50,000 at five per cent, pending the sale of the \$125,000 of road and bridge bonds, or a portion thereof, was accepted, also a proposition of another individual for \$2,000 of the bonds. A resolution was passed asking the legislative delegation to amend the act, so as to permit the sale of the bonds at a figure obtainable under present conditions, and a number of propositions were received, but all fell short of the minimum—par and accrued interest. Another offer was received yesterday from D. C. Heyward & Co., but amounted to only about \$71.2.

Cleveland Star, (Shelby), Jan. 27: There were 26,792 bales of cotton ginned in Cleveland county from the crop of 1921 prior to January 16th, 1922, as compared with 27,876 bales ginned to January 16th 1921. This information is furnished by special agent, Miles K. Ware, of King's Mountain. Practically all of the property owners living on East Marion street have signed a petition circulated by Mayor Gardner in which they pledge themselves to pay for 12 feet of hard surface road. The road being built by the state highway commission to Cleveland Springs is only 19 feet, but this is too narrow in town and abutting property owners have signed up to pay for the wider road as far out as the corporate limits, making the width 30 feet. Mrs. Wallace has been appointed home economics demonstrator for Cleveland county, succeeding Miss Elizabeth Cornelius who resigned to accept similar work in Kentucky. Miss Cornelius will leave about February 1st at which time Mrs. Wallace will enter upon her duties as successor. Mrs. Wallace has been home economics demonstrator in the Bolling Springs high school where she has been doing a splendid work and is therefore well qualified to carry on the program which Miss Cornelius has begun. Mrs. O. P. Hamrick has been elected by the board of trustees of the Bolling Springs high school to succeed Mrs. Wallace as home economics demonstrator in that institution.

Mayor J. T. Gardner spent last week in Chicago, attending the National Good Roads Association which was attended by 21,000 people from all parts of the country. The meetings were held in the coliseum where one of the national political parties held its meetings two years ago. All kinds of road machines were on display, together with all types of hard roads. Mayor Gardner feels that he was greatly benefited by his trip and gained information that will be valuable to Shelby which is about to spend \$400,000 for hard surfaced streets. Over two million dollars worth of machinery were sold each of the four days of the meeting. While there, Mayor Gardner had an interview with Chairman Page of the state highway commission who assured him that the Charlotte-Asheville highway via Shelby was on the program of roads to be built by the state and that he hoped work could be done on this stretch this summer. Mrs. W. E. Poovey, wife of the pastor of Central Methodist church, is a fancier of fine birds. Buff Orpingtons are her favorites. She has a flock of 18 hens of which she speaks with an almost personal affection, calling them her "Golden Beauties." John Henry VII and John Henry VIII head her two mating pens. She has, by careful selection for ten years, developed a winter-laying strain. As an evidence of her success she has had 90 biddies hatched in January and has lost only five of them. And from the dozen remaining hens she has received nearly 200 eggs in the same period. "Winter-laying hens were hatched from winter-laid eggs" is her philosophy.

WOMAN'S WORLD.

News of Especial Interest to Feminine Readers of The Yorkville Enquirer.

- New Mexico has twenty-six women holding official position.
Only 1 per cent of the women in Ethiopia can read and write.
Nearly 30,000,000 women in the United States are eligible to vote.

Five thousand women in France between the ages of fifteen and thirty are taking part in athletics in which men have figured mainly in the past.
Even after her marriage, Princess Mary of England, will continue to draw as long as she lives, an annual income of \$30,000 from the government.
Fatness, so repugnant to women in general, is highly regarded in Central Africa, where the beauties are so fat that they have to be supported when they walk.
Miss Ruth Vincent, Denver's only woman policewoman, is making a tour of the Eastern cities for the purpose of studying the methods used by women police.

TOO MUCH GOVERNMENT

Lawmakers Would Take Away All Personal Responsibility.

We ask every one who reads this paper to read a short article which we copy from the New York World on this subject. It is so in keeping with what we have been trying to say and so much better said that we want every one to read it.

We are going to copy several paragraphs from it. Listen to this: "Every business man finds an inspector at his elbows, a federal slouch at his heels. Houses are searched, homes outraged and the public highways dappled in the blood of offending citizens by a multitude of agents and inspectors ignorant of and indifferent to the law of the land and the rights of the citizens."

And another paragraph: "In the United States we are in flat defiance of all our proclaimed principles, building a series of bureaucracies that will put to shame the best efforts of the government of the Czar of all the Russians when in the heyday of its glory. We are surrounded by agents, special agents, inspectors and spies, and the people are called upon to supply through their taxes, in harmful and un-American activities whole armies of individuals who should be engaged in productive industry."

And then here is another extract: "Nobody escapes. Everything in the moral, industrial and commercial world is to be owned, operated, super-

vised or censored, from the birth of a baby to the burial of a corpse, and the worst is not yet."

We are, in fact, the most governed country in the world, and the tendency is growing to be even more governed. Where the end is no one seems to have the slightest idea. Listen to this conclusion of the article in question: "The American people are in the progress of being governed to death as well as taxed to death, in order to support the armies of office-holders who have undertaken to regulate them from the cradle to the grave. What makes a bad matter immeasurably worse, they seem to have lost all their capacity for resistance to the ever-widening rule of bureaucracy."

And it is all too true for the real American to contemplate without a feeling of sadness. This home of the free and the brave to be under the absolute control of this wet nursing process that is now in the ascendency. But let us hope that the pendulum has swung as far as it will go and that soon it will swing back in a sane and correct position.—Newberry Herald and News.

Self-Sacrificing Japanese.—An American furrier generally clothes your wife by skinning you. Here is a Tokyo furrier who has put up an English sign over his shop which reads as follows: "Garments made with your skin or our skin."

SHOES AGAIN

IT HAS ALWAYS been our policy to buy our goods to the best advantage possible and to price them to our trade so as to give them full 100 cents value for every dollar spent at this store. We've never tried to make you believe that we bought a \$2.00 article and have great pleasure in selling it to our customers for "only \$1.00." That isn't done very often—not as a regular thing.

We want our customers to know and believe they do know that when they spend a dollar here it is for 100 cents in value.

We have told you that we have reduced the prices on Ladies' Shoes to just about One-half the prices of a year ago. The reason for this is that we have entirely too many Ladies' Shoes—we must reduce our stock—hence the sharp reduction, and if you will take a tip from us, we suggest that now is the best time you have had in quite a while to buy a pair or two pairs of fine shoes of correct styles for Ladies.

Our Ladies' Shoes at present prices are more than full 100 cents value per dollar.

Our stocks of Shoes for Men, Boys and Girls, of all styles and qualities are very complete and prices are very moderate—quality considered.

See us for Rubber Boots and for Overshoes for men, women and children.
