

The Home Town First

Help Your
Own Town
and You
Help
Yourself

WE MUST HAVE MORE HOMES IF WE WANT YORK TO GROW

IF YOU'RE PLANNING TO BUILD, - - - BUILD NOW

**Home
First**

Here's one time you can be a "public benefactor," while at the same time **SAVING YOURSELF A LOT OF MONEY.**

Just realize the big fact that the cost of everything that goes into **BUILDING** is about as low as it will be for years to come,—in some cases lower!

The home you **BUILD NOW** will cost less **NOW.** It will get you out of the **RENT-PAYING**

CLASS, and you can turn your rent-money into deposits for your bank-account.

The home or apartment you leave is sorely needed by someone less fortunate than you,—he must continue to rent.

The building you put up will give jobs to dozens of men, directly and indirectly. It will put new life into the hardware, lumber, millwork and other lines of business.

It will put money into circulation, some of which will **COME BACK TO YOU.**

Every new home in **YORK** adds to the population of York. It enhances the value of real estate around it. The jobs it creates increases the **EARNING POWER** of our workers, and **ALSO THEIR BUYING POWER,** which means **NEW PROSPERITY FOR ALL.**

BUILD NOW!
