A Silver Lining

IT HAS BEEN TRULY SAID that behind every cloud there's a silver lining. We believe that. Despite the fact that we have ben having lots of rain, cool weather, and that feeling of depression that pervades the atmosphere and brings a feeling of "the blues," we believe there's a silver lining behind the clouds. And too, we believe the dark clouds are very necessary at times. If we experienced no dark clouds in our every day affairs it wouldn't be long until we'd forget that we are but children of a Higher Power and think that we are running the whole show, which we are not.

TO BE SURE there's a silver lining behind our clouds and things will come out all right and fine when we begin to look up and see white instead of black or red; when we become a little more optimistic and look for the silver lining.

Dress up—look your best—feel your best look prosperous-you'll feel better-See us for the Clothing of style and quality; the Shoes that look good and are good in style and quality; the Felt and Straw Hats that are comfortable and look the part; the Gents' Furnishings that are right in styles and qualities; the Dress Goods that will appeal to the ladies who want correct styles and correct qualities, and the many other things that will help to brush away the dark clouds of doubt and depression.

You'll find our prices most attractive-more especially when you investigate the qualities of our offerings in all lines.

YES, TO BE SURE there's a silver lining behind the clouds-brighter days are sure to come."
