Fight the Boll Weevil

Cotton is now bringing twenty-three cents per pound and will probably bring more between now and the first day of September. Begin now to fight the Boll Weevil if you expect to gather any cotton. Next fall, unless some remedy is applied to check the weevil, they will destroy the entire crop in York County this year.

Ferguson & Youngblood

We have two shipments of Calcium Arsenate and cheap Molasses that we are expecting any time. This is credited to be the best remedy yet tried. Come and get a supply and save your cotton crop if such a thing is possible.

It Is Wonderful

We still have on hand a little fertilizer suitable for corn.

OBITUARY

DIED—About 10 o'clock last night at his home in the Harmony section of York county following a long period of ill health, Mr. JAMES S. GLASSCOCK, in the 68th year of his age. Disinterested Witnesses

FOR TWENTY-THREE YEARS the readers of The Enquirer have been told almost every week that the MUTUAL BENEFIT LIFE INSURANCE COMPANY was and is THE BEST Life Insurance Company in the world, and during that time hundreds of people have become convinced of the TRUTH of the assertion, and acted on their conviction, and today the Company has more enthusiastic boosters than any other company doing business in the county. We know of numerous instances where persons thinking of buying life insurance, having been interested by agents representing other companies, have sought the advice of Mutual Benefit Policy Holders, who were also insured in from one to four other companies, as the BEST company in which to insure, and invariably the MUTUAL BENEFIT has been enthusiastically recommended. The recommendation in each instance was based on the experience of Disinterested Witnesses. You have a perfect right to insure without investigating the MUTUAL BENEFIT, as You Will Pay the Freight—pay more and get less—but you will always have reason to congratulate yourself if you "Look Before You Leap."
