ey must always accompany the order.

An election will be held on Tuesday next, November 10th, for Intendant and Wardens, of the town of Anderson, at which election all male citizens within the corporate limits, twenty-one years of age, and who have resided in the corporation sixty days next preceding the election, are entitled to vote; Provided, that their names have been duly registered. This registration is entire-Iy new, and it is necessary for every voter to register his name in order to participate in the selection of municipal officers. The managers who conducted the recent election are to manage this election also, and will open the books of registration in the Sheriff's office on Friday, Nov. 6th, Saturday, Nov. 7th, and Monday, Nov. 9th, when the opportunity closes, and all not registered on the last day named will be debarred the privilege of voting on next Tuesday.

We have at last succeeded in obtaining a supply of paper, after numberless disappointments, caused by relying upon others to fulfill their promises. The delay last week has necessarily thrown the paper behind its usual time again, but we will have the "machine" in perfect order hereafter.

GIN HOUSE BURNT. .

We learn that the gin house of Messrs. B. F. and D. B. SLOAN, in the village of Pendleton, was desiroyed by fire on Monday afternoon last. The fire was accidental, caused by friction of the machinery and the loss of cotton is divided between several parties, none losing heavily.

ANOTHER GARRISON.

A garrison of twenty-five Federal soldiers, under command of Lieut. MILLER, of the 6th Infantry, arrived in this place on Saturday night last. The presence of these soldiers has not affected the condition of affairs, either before, during or since the election, as this community maintains a profound peace within its borders, and will continue to be quiet and orderly at all times, we hope and believe. The garrison will probably remain here for some days, we understand.

THE ELECTION.

Testerday was remarkably quiet and free from disturbance, although there was a tolerable full vote of both parties, and consequently a large crowd of persons in attendance. We commend the moderation and spirit of tolerance exhibited by all classes, and trust that the harmony and peace of this section may never be disturbed from political causes, above all others. For the past two years, this District has been singularly exempt from deeds of violence and bloodshed, and we fervently trust that this state of things may be perpetuated-Now, that the election is over, let every man devote himself to the improvement and advancement of our homes, and the development of material interests and prosperity of this section:

. AR GOV. SCOTT AGAIN.

In our last issue, we took occasion to criticise rather mildly the proclamation of Gov. Scott. In this number, an address to the people is published, wherein the Governor endorses the utterances of our State Executive Committee, and commends the moderation and good sense of the Democratic party. This address is well-timed and appropriate, and we gladly hail it as an auspigions sign that reason has resumed her sway over the mind of the Executive. His authority and efforts to preserve the public peace will be sustained by every good citizen, and he has only to avoid the hazardous extreme of arraigning the inposcul in order to secure the guilty.

The address of Republican leaders, which will be found in another column, is likewise worthy of praise and commendation. Their actions have only to conform to their declarations in this address, and peace will reign undisturbed throughout the State. So mote it be.

GRANT ELECTED. We have no doubt that the result of the election on Tuesday will place General GRANT in the Presidential chair for a term of four years from next March. Further, this result will fasten upon the. country another four years of Radical misrule, exorbitant taxation, and extravagant expenditure in finit results that have ensued from the admirable the administration of government. This is the national aspect of affairs. But the excited contest being over the question of Federal interference honest and impressive terms they have called on with domestic affairs in the South will be speedily nemoved from the public gaze, and with the present organized governments in the reconstructed States the people are to go forward in the discharge of their duties as citizens. The whole aim and object of the Radical policy for the past two years ating the vehemence of feeling of those to whom has been to strengthen that party in the Presidential election. We have said this from the begin- have quieted the apprehensions and conciliated ning of the agitation of Reconstruction. That ob- the respect and good will of their political oppojeet being settled, the primary cause of dissension | nents. This is certainly a just cause for congratuand division among the Southern people, white and colored, is now far removed. Only local and gives me unfeigned pleasure to acknowledge it, domestic influences will control the future policy and to earnestly invoke the co-operation of every of South Carolina. Although, we have an odious government, actuated by prejudice and oppression. to the fullest extent, the profile policy so admirafoisted upon us, redemption must be had through | bly inculcated by the Democratic leaders. Let penceful agencies, patient forbearance and firm adherence to principle. These will conquer finally, and appeals be made to the intelligence and reason, and with brave hearts and strong minds we must address future efforts to the redemption of our beloved State from misrule at home. We believe this will be done, and far more speedily than many persons imagine. Practically, however, the present is gloomy enough, with enormous taxation and the reckless extravagance of the present State government starring us in the face. But we advise State be maintained and perpetuated, and her all to be of good cheer, and look upon the bright side of the future. Nothing is gained by despondency, and neither will despair bring about a bet-

THE RESULT IN THIS DISTRICT.

The Democracy of Anderson District have covered themselves with glory. The triumph is complets and decisive, and the Radical party has dwindled to such insignificant numbers that the future of our District is wrested forever from their unholy grasp. But we will not indulge in exulsant shouts over the disgraceful defeat and complete rout of the Radical forces in our midst; the figures are eloquent enough, and we give them as

THE RESULT IN THIS STATE. A dispatch from Charleston, published in the haniz, states that the Republicans have carried that city by a reduced majority. Also, that the State is conceded for Grant, but the Democrats claim two out of the four Congressmen. As the returns from the country had not reached Charleson when this despatch was forwarded, we think it likely that the concession is made too early, and that an official count will be necessary 'to decide. In other words, we think the election is doubtful in this State, to say the lenst of it. What an official count may produce, remains to be seen, but we are strongly inclined to the belief that: the Democrats have carried South Carolina, which will be glory enough for one day.

The Democrats have gained in Richland District, and Newberry is claimed for the Democracy. We have heard from two polls in Abteville District-Diamond Hill and Union, both unanimously Democratic. .The Republican majority in Chester vilage is supposed to be about 200.

Walhalla, in Oconee county, gives 412 for the Democrats and 105 for the Radicals.

MARYLAND.-Increased votes on both sides. Frederick County is reported Republican-went Democratic last year by 500.

NORTH CAROLINA .- Out of 18 points in North Carolina reported, only 6 show Democratic maorities: and even these are light, as compared with Republican majorities at other points.

Louisiana .- New Orleans has gone Democratic by 25,000. The State is largely Domocratic. But few Republican votes were cast.

ALABAMA .- The Republican majority is 4,000 in Montgomery; Dallas 5,000; Barbour 1,500. The State is doubtful.

TO THE CITIZENS OF SOUTH CAROLINA.

FELLOW-CITIZENS: The numerous complaints made to this Department of murders and outrages, committed by wicked and inconsiderate persons, excited by intense party feeling, made it my duty to issue the late proclamation, calling upon all good and true men, without respect to political predilections, to unite in a determination to discountenance and denounce lawlessness and violence, and in an effort to recover and maintain the good name that has heretofore been the heritage and pride of our beloved State. It is now my pleasing duty to congratulate you upon the beneand well-timed address of Gen. Hampton and the Executive Committee to the Democratic party. For the Anderson Intelligencer.

EQUALITY, S. C., Oct. 80, 1868. Mr. Editor: By invitation from Richard Fletcher nd others, in company with two of the white citizens of the neighborhood, (Messrs. F. M. Glenn and Maj. L. Newton,) I attended a meeting of colored people, to day, at Macedonia church, near Mrs. Glenn's, called for the purpose of taking counsel among themselves as to what course they, he colored people, had best pursue in the approaching Presidential election.

On motion, Richard Fleicher was called to the chair, who, in a plain, forcible and practical manner, explained the objects of the meeting. He was followed by Moses Crews and others, in turn, until each colored man present had expressed his views and opinions, plainly and candidly, in reference to the colored people in the approaching elec-

After some remarks by the white men present. vote was taken on the question, as to how many of the colored people present preferred to vote for Seymour and Blair; how many present for Grant; and how many preferred to remain neutral, not taking part either way? There were eight present, and when the question was put one stepped out for Grant, five for Seymour, and two preferred to remain neutral. Afferwards, the two following resolutions were proposed and adopted as the sense of the colored people present:

Resolved, As the sense of this meeting, it is the duty and interest of the colored people of this State to unite with the whites, in elections, until we place the Government of our State in the hands of the good and true men of our commonwealth. and thus secure an economical administration of our governmental affairs-in which the colc-ed nan, equally with the white man, is alike deeply | interested—and thus promote the prosperity of our common country, and the peace and harmony

Resolved, That while we do not intend to attach ourselves to either of the political parties at pres-ent existing, yet we believe it would be to the in-terest of all classes of our citizens to vote for Seyieve, the best interests of our country.

Now. Mr. Editor, the results of this meeting, hough small in numbers, has developed the important truth, that the intelligent colored men of our our State to the hands of foreigners and strangers, and are now disposed to unite with the whites, good and true men of our own citizens. They, of government which has been adopted for our State, by those strangers and foreigners, is entirely pecially that the reckless extravagance of our liste earnings of our impoverished people, and in devising new and expensive schemes of education, of olice, of taxation, have evinced an utter disre- cable to this county, that a love of alliteration me and of the best interests of all classes of our citizens, and an utter incapacity to administer the government of our State, so as to promote the general good of all our people-

Another important fact, Mr. Editor, was develped by this meeting, which ought to be known. It is that they, the colored people, appreciate bindness and fair dealing on the part of the whites, and that such a course of conduct will ultimately enlist their sympathies in our behalf.

At the very spot of ground where this meeting was held, stands a new and comfortable log house, erected by the colored people for preaching and school purposes, on the lands of Mr. Glenn, who, in every possible way, has given them his countenance and encouragement in these laudable undertakings. And in this course of conduct, Mr. Glenn has the sanction of the white citizens generally of that neighborhood. Mr. Glenn, however, maintains, by the terms of the original contract, such a control as to prevent this sanctuary of the living God ever being perverted to political purposes, and would not consent that the meeting referred to should be held in the church, though it

Thus, Mr. Editor, I have given you a hasty sketch of a meeting of colored people, which, though small and insignificant in numbers, and like the little cloud not bigger than a man's hand, yet may be the harbinger of an entire revolution in political sentiment of the colored people of the State, which, in God's own good time, may bring so recently been committed in some portions of deliverance and happiness to our now distracted and oppressed people. May God speed the good work. Respectfully yours,

THOS. H. RUSSELL.

THE TESTIMONY OF AN IMPARTIAL AND UNPREJU DICED ENGLISH RESIDENT.

> PENDLITON, ANDERSON Co., S. C., October 27, 1868.

Sir-Governor Scott's proclamation on the conduct of the white inhabitants of the upper counties has astonished me. Will you allow me to give ridence in the case?

If I had the honor to be an American citizen, or South Carolinian; or had I the privilege of roting for the officers of the nation, or for this State; or if I belonged to the Republican or Demoeratic party, I should not write to you, because it might be alleged that my social or political predi-lections had biased my judgment and readered my testimony worthless. But as I am only an Engmour and Blair in the approaching Presidential lishman, having no vote, in no way connected with any political party, no Confederate, but simply a serves at home, and promoting thereby, as we befound in this quiet place and genial climate, I think myself entitled to be heard, and to be credited on a matter which injuriously affects the character of the county in which my home is fixed, and State are becoming satisfied that they committed neighbors. I am so fan free from prejudice a great mistake, in committing the government of against the colored people, that had slavery continued I should not have bought a home in South Carolina; for my education and conscience taught me that slavery was a wrong and an evil to both especially in State elections, until the government | the slave and his owner. So having no pro-slavery of the State is again placed in the hands of the sympathies, nor present or past interests to thwart my judgment or my conscience, I claim to be received as a veracions witness, whose evidence of

It is not true, as reported to Governor Scott, that in this, Anderson, county the lines are violaunsuited to the necessities of our people, and espeople murdered for political differences, families forced away from their homes, threats of death Legislature, in creating a host of new offices with used to political opponents, or to Radicals of any large salaries, to feed and fatten on the hard-color. Neither is it true that arms, good, bad or indifferent, are openly or secretly imported, nor are the roads patroled by day or night. The whole of these allegations are so untrue, and so inappli have been the cause for uniting Abbeville and Anderson in the Governor's proclamation, and not a

In Ireland in 1846 and 1848, in Canada in 1849, in Cuba in 1855; but I have never seen a people so inoffensive, so resigned, and so desirous to hope for the dawning of better days as those of this county are. So much for the whites. Now for the negroes, for I would do justice to all. They are not less industrious than the farm laborers in England and Ireland; but they are less skilful, and therefore do less for the same wages, but are quite equal to my expectations. They do not steal ; they seldom commit an act properly called crime, but are quiet and useful people, being a large portion of the wealth of the State. We need more of them. In the two years of my residence here, I know of but three crimes county-two were murders committed by negroes on white men (Hunnicutt, and another near Anderson Courthouse), and the theft of my horse out of his stable by a Tennessee negro, who escaped with the horse to that State, was three times arrested, and three times broke jail, being free and safe now in Arkansas.

I am told no white man has been committed for crime in a radius of ten miles for the last ten years. I feel it my duty thus publicly to protest against these calumnies circulated to our prejudice, principally because the power of doing mischief lies in the circumstance that the Governor has proclaimed

TO THE REPUBLICANS OF SOUTH CAROLINA. "Let us have peace." So says our great and good

leader, Gen. Grant. So say all good Republicans. So say we, the undersigned members of the Republican party in South Carolina. We hold that the Republican party is emphatically the party of peace and quiet, of law and order. We hold that every man who will commit or encourage violence or lawlessness is a criminal, and merits the unqualified condemnation of all good Republicans. We censure, without reserve, all the recent acts of violence, not only the horrible murders of Martin, Randolph and Nance of our own party, but also the firing upon Ward at Newberry, and the acts of incendiarism at Abbeville and elsewhere. If Republicans have been engaged in any of those outrages we denounce them as false to the principles of our party, and as criminals justly meriting the severest penalties of the law. Violence is only justified in self-defence, and never in retaliation or for revenge. It is the business-of the law to punish crime and not of individuals.

We hail with satisfaction the address of the Democratic State Central Committee as the harbinger of better and more quiet times. 'We will gladly unite with the leaders of the Democratic party in doing all in our power to prevent incendiary language; to preserve the peace; to maintain order, and to assert the supremacy of the laws. We urge upon the leaders and speakers in the Republican party the necessity of discountenancing and condemning violence on all occasions We call upon every member of the Republican party, white or colored; to abstain from all acts of retaliation and violence, and to do all in his power to have guilty persons arrested and punished. whether they be Republicans or Democrats. Let not the good name and noble principles of the Republican party be tarnished by acts of bloodshed or other crimes. Let it be seen that the publican party of the North, is th consistent advocate of law and order, of peace and barmony, of humanity and justice.
