Anderson C. H., S. C., January 7, 1869

**Office of Udolpho Wolfe,**

SOLE IMPORTER OF THE

**Schiedam Aromatic Schnapps,**

209 BEAVER STREET, NEW YORK.

NOVEMBER 3, 1868.

To the People of the Southern States:

When the pure medicinal restorative, now so widely known as Wolfe's Schiedam Schnapps, was introduced into the world under the endorsement of four thousand leading members of the medical profession, it was a trial of the preparation and a report of the result, accompanied each specimen. Four thousand of the most eminent medical men in the Union promptly responded. Their opinions of the article were unanimously favorable. Such a preparation they said, had long been wanted by the profession, as no reliance could be placed on the ordinary liquors of commerce, all of which were more or less adulterated, and therefore unfit for medicinal purposes. The peculiar excellence and strength of the oil of juniper which formed one of the principal ingredients of the Schiedam, together with an unalloyed character of the alcohol element, give it, in the estimation of the faculty, a marked superiority over every other diffusive stimulant as a diuretic, tonic and restorative.

These satisfactory credentials from professional men of the highest rank were published in a condensed form, and enclosed with each bottle of the Schnapps, as one of the guarantees of its genuineness. Other precautions against fraud were also adopted; a patent was obtained for the article, the label was copyrighted, a fac simile of the proprietor's autograph signed, a fac simile of the label and cover of his bottles, and that of the preparation were embossed on the bottles, and the corks were sealed with his private seal. No article had ever been sold in this country under the name of Schiedam Aromatic Schnapps, in 1851; and the label was deposited, as his trade mark, in the United States District Court for the Southern District of New York that year.

It might be supposed by persons unacquainted with the distinguishing characters of the pure article upon the reputation of honorable merchants by vending deleterious trash under their name, that the protection so carefully thrown around these Schnapps would have precluded the introduction and sale of counterfeits. They seem, however, to have only stimulated the rapacity of impostors. The trade mark of the proprietor has been stolen; the endorsement which his Schiedam Aromatic Schnapps alone received from the medical profession has been claimed by mendacious humbugs; his labels and bottles have been imitated, his advertisements paraphrased, his circulars copied, and worse than all, dishonorable retailers, after disposing of the genuine contents of his bottles, have filled them up with common gin, the most deleterious of all liquors, and thus made his name and brand a cover for poison.

The public, the medical profession and the sick, for whom the Schiedam Aromatic Schnapps is prescribed as a remedy, are equally interested with the proprietor in the detection and suppression of these nefarious practices. The genuine article, manufactured at the establishment of the undersigned, in Schiedam, Holland, is distilled from a barley of the finest quality, and flavored with an essential extract of the berry of the Italian juniper, of unequalled purity. By a process unknown in the preparation of any other liquor, it is freed from every acrimonious and corrosive element.

Complaints have been received from the leading physicians and families in the Southern States of the sale of cheap imitations of the Schiedam Aromatic Schnapps in those markets; and travellers, who are in the habit of using it as an antidote to the baneful influence of unwholesome river water, testify that cheap gin, put up in Schiedam bottles, is frequently palmed off upon the unwary. The agents of the undersigned have been requested to institute inquiries on the subject, and to forward to him the names of such parties as they may ascertain to be engaged in the atrocious system of deception. In conclusion, the undersigned would say that he has produced, from under the hands of the most distinguished men of science in America, proofs unanswerable of the purity and medicinal excellence of the Schiedam Aromatic Schnapps; that he has expended many thousand dollars in surrounding it with guarantees and safeguards, which he designed should protect the public and himself against fraudulent imitations; that he has shown it to be the only liquor in the world that can be uniformly depended upon as unadulterated; that he has challenged investigation, analysis,

comparison, and experiment in all its forms; and from every ordeal the preparation which bears his name, seal and trade mark, has come off triumphant. He therefore feels it a duty he owes to his fellow-citizens generally, to the medical profession and the sick, to denounce and expose the charlatans who counterfeit these evidences of identity, and he calls upon the press and the public to aid him in his efforts to remedy so great an evil.

The following letters and certificates from the leading physicians and chemists of this city will prove to the reader that all goods sold by the undersigned are all they are represented to be.

**UDOLPHO WOLFE.**

I feel bound to say, that I regard your Schnapps as being in every respect pre-eminently pure, and deserving of medical patronage. At all events, it is the purest possible article of Holland Gin, heretofore unobtainable, and as such may be safely prescribed by physicians.

**DAVID L. MOTT, M. D.,**  
Pharmaceutical Chemist, New York.

26 PINK STREET, NEW YORK, Nov. 21, 1867.

**UDOLPHO WOLFE, Esq., Present:**

DEAR SIR: I have made a chemical examination of a sample of your Schiedam Schnapps, with the intention of determining if any foreign or injurious substance had been added to the simple distilled spirits.

The examination has resulted in the conclusion that the sample contained no poisonous or harmful admixture. I have been unable to discover any trace of the deleterious substances which are employed in the adulteration of liquors. I would not hesitate to recommend your Schiedam Schnapps, for medicinal purposes, to the community, as an excellent and unobjectionable variety of gin.

Very respectfully yours,  
**CHAS. A. SEELY, Chemist.**

New York, 53 Cedar Street,  
November 26, 1867.

**UDOLPHO WOLFE, Esq., Present:**

DEAR SIR: I have submitted to chemical analysis two bottles of "Schiedam Schnapps," which I took from a fresh package in your bonded warehouse, and find, as before, that the spiritsous liquor is free from injurious ingredients or falsification; that it has the marks of being aged and not recently prepared by mechanical admixture of alcohol and aromatics.

Respectfully,  
**FRED. F. MAYER, Chemist.**

New York, Tuesday, May 1.

**UDOLPHO WOLFE, Esq.:**

DEAR SIR: The want of pure Wines and Liquors for medicinal purposes has been long felt by the profession, and thousands of lives have been sacrificed by the use of adulterated articles. Delirium tremens, and other diseases of the brain and nerves, so rife in this country, are very rare in Europe, owing, in a great degree, to the difference in the purity of the spirits sold.

We have tested the several articles imported and sold by you, including your Gin, which you sell under the name of Aromatic Schiedam Schnapps, which we consider justly entitled to the high reputation it has acquired in this country; and from your long experience as a foreign importer, your Bottled Wines and Liquors should meet with the same demand.

We would recommend to you to appoint some of the respectable apothecaries in different parts of the city as agents for the sale of your Brandy and Wines, where the profession can obtain the same when needed for medicinal purposes.

Wishing you success in your new enterprise, We remain your obedient servants,  
**VALENTINE MOTT, M. D., Professor of Surgery, University Medical College, New York.**  
**J. M. CARNOCHAN, M. D., Professor of Clinical Surgery, Surgeon-in-Chief to the State Hospital, etc., No. 14 East Sixteenth street.**

Dec 23, 1868

**LIFE INSURANCE.**

"THE important subject of Life Insurance is gradually and deservedly gaining public attention by the force of its own merits. The time is not far distant when the death of a man leaving his family unprotected for by a Policy of Life Insurance, will leave the stain of neglected duty upon his character. It is a duty which every man owes to his own dependents and to the community. He who neglects it is not a good husband, father, or citizen. He has no right, even, to risk the chance of throwing the future support of his family, in case of his death, on the community at large, or on relatives and friends, when it is in his power so easily and surely to provide against such contingencies.—New York Express."

"A prudent man foreseeth the evil."—Proverbs 22: 3.

While in health, call on the subscriber and secure a Life Policy. You do not know what a day may bring forth.
