Thursday Morning, January 13th, 1870.

JOHN T. SLOAN, jr., is the regular authorized agent in Columbia to solicit advertisements and procure subscriptions for the Intelligencer. W. H. B. Topp is duly authorized to act a

agent for the Anderson Intelligencer and the Rural Carolinian, and will receipt for subscriptions to either of these journals. We return our thanks to Hon. HORACE

CAPRON, Commissioner of Agriculture, for a pamphlet copy of the Report of his department for the months of November and December.

The Laurensville Herala records the death of Mr. THOMAS C. WILKES, formerly of Anderson, but for many years a resident of Laurens. He died on the 4th inst. of apoplexy, at his residence in that village. His numerous friends and acquaintances in this vicinity will sorrowfully unite in sympathy with the bereaved family.

We are in receipt of a note from Mr. J. W. TRAWFORD, of Cold Spring, Pickens county, stating that he has received many letters requesting him to send the celebrated sweep plows which he has used so successfully. He does not make these plows, nor will the smiths make them for unknown parties. Persons desiring these plows can get them by sending the money in advance either to Mr. JAMES HUNTER OF Mr. CYRUS STEPHENS, at Pendleton, both reliable and first-rate workmen.

The January number of the Southern Cultivator has been received. It begins another year with bright prospects of increasing success, and the initial number gives evidence of still greater effort on the part of its editors to furnish the planting community with a sound, practical journal, embracing the most varied and complete information concerning the farm, garden and household. We continue our arrangement with its proprietors to club both journals at \$4.00 per year, invariably in advance.

### THE ACADEMY OF MUSIC.

It will be seen by an advertisement of the Mansger, Mr. Joun T. Fond, that the eminent comedian, Mr. James H. HACKETT, will make his appearance for a few nights at the Academy of Music in Charleston, beginning on next Monday night. His representation of "Falstaff" is said to be the finest in the world, and lovers of the drama would be well repaid by a visit to Charleston during the coming week. The management is sparing neither pains nor expense to render the entertainments at this new and elegant temple worthy of extensive patronage,

#### THE MINETEENTH CENTURY.

The January number of this magazine is an improvement, in our humble judgment, upon former issues. Among the most noticeable articles is one from the pen of Judge Longstrett, reviewing Ex-Gov. PERRY'S sketch of Mr. CALHOUN. We have read this review with a great deal of interest, and aside from the merits of the controversy between them, we think that the author of "Georgia Scenes" has completely vanquished the Ex-Governor in a literary point of view. Those who are not subscribers to the Niaeteenth Century, should at once send in their names and money to Mr. G. W. FANT, at the Post Office, who is the authorized agent, and who will be glad to serve customers regularly with single copies.

## THE PHOSPHATE BILL.

The Legislature has taken no action, since the re-assembling of that body last week, on this important measure. It is probable, from all that we osition will prove effectual and that the valuable river beds of phosphates will be so managed as to produce an extensive revenue to the State. At least, we are confident that the proposed monopoly will be a failure, and for once the Republican majority in the Legislature will gain the approval of all good citizens by s wise and sensible course. In this connection, we desire to applaud the conduct of the Charleston Daily Republican, which has steadfastly refused to becme an abettor in this huge monopely, and on the contrary has dealt some of the heaviest blows against it which the scheme has received from any quarter.

# ESCAPED FROM CUSTODY.

A couple of white youths named Donaldson and a negro named Henry Aiken escaped from the fail of this county on Sunday night last, and have not since been heard from, although parties went in immediate pursuit. Their escape was effected by filing an iron bar and letting themselves down to the ground by the assistance of blankets fastened together. The white boys were confined on a charge of fogery, and the negro for petit larceny. One of the whites is a deserter from the Federal army, and the other deserted at this place several years age, for which he was duly punished. They are the youths engaged in victimizing some of our merchants a few weeks ago by forged orders.

We learn that a man by the name of DRIVER was committed to jail on Tuesday last, charged with stealing a trunk from Messrs. Bennett & KEESE the day before. The trunk was recovered, and in endeavoring to make his escape, DRIVER appropriated to his use another man's horse, which was also recovered in a short time.

OUR STOCK QUOTATIONS .- The great fluctuations and uncertainity of value attendant on the commonest securities since the war make reliable and regular quotations of great value to the public. We are glad to announce, therefore, that we have made arrangements with Mr. A. C. KAUFMAN, of Charleston, to furnish us with a weekly report of those securities most important to our readers. Mr. KAUFMAN'S quotations of Southern securities appear regularly in the Financial Chronicle and the Wall Street Journal, of New York, and the Charleston Courier, three of the leading financial and commercial papers of this country, and may be depended on as strictly accurate for the day on which they are made.

THE EMPORIUM OF FASHION IN ABBEVILLE.-We observe that the copartnership heretofore existing between FOWLER & McDonald has been dissolved by its own limitation. The business will be continued by our friend, JAMES W. FOWLER, whose endeavor will be to make his establishment compare with similar retail stores in the cities. In the spring, a dress and mantua making department will be added, which will be conducted by a lady of taste and skill, with efficient assistants. We bespeak a liberal share of patronage for our enterprising and worthy friend.

- A private letter from Hon. Alexander H. Stephens states that his health is not good. He is barely able to sit up, and not able to stund. The numerous friends of the great Georgian will receive this news with regret.

# HOW A RADICAL CONGRESSMAN SPENDS HIS LEISURE MOMENTS.

The peccadilloes of Radical officials in this State have been so often exposed as to render the subject almost threadbare. But occasionally we are refreshed by instances of such sublime rascality that it would be wrong not to allow the public to enjoy them. It will be remembered that while the "gold bill" was pending before Legislature, prior to the bolidays, there was considerable comment as to the presence in Columbia of one Bowen, member of Congress from this State, who was evidently exerting his influence over the colored members to obtain the passage of this highly important measure to the bondholders, which class it was thought Bowen represented. Well, it matters not for the purpose of this article whether he was thus engaged, to the neglect of his arduous duties in Congress, then in session. But we are reliably informed that, during his leisure moments, Bowen was employed in franking envelopes for the dusky legislators at a furious rate. He would take his seat by a sable brother, and during the conversation which ensued between them, Bowen would exhaust the supply of envelopes on the members table by writing thereon his official frank. After this was done, he would move off to another "man and brother," and perform the same act of kindness with the utmost suavity, and so on through the list of colored gentlemen likely to remember the modest favor by giving Bowen his support in the next nominating convention, Will any decent Radical newspaper in the land defend such conduct? It is an unblushing fraud upon the government, perpetrated in open daylight, and without the flinsy pretence of aiding the Republican party. We trust that the influential colored men who have already declared war against Bow-EN will continue their assaults upon him, and seek to oust such a disreputable character from the exalted position now prostituted to his own base uses.

#### THE DEAD OF 1869.

The lengthy list of illustrious persons who died during the year just closed is quite remarkable. Among the prominent public men of the United States, we observe the following:

John Minor Botts, formerly member of Congress from Virginia, and a noted Whig politician, died January 8th, 1869; also, Gen. Lovell H. Rousseau, of Kentucky, who served in Congress and as a Federal officer during the late war.

January 25th, Francis W. Pickens, of South Carolina, L'inister to Russia under Buchanan's administration, and afterwards Governor of this

March 14th, Gen. James Guthrie, of Kentucky, Secretary of the Treasury under Pierce and afterwards United States Senator.

March 27th, James Harper, a member of the well-known publishing firm in New York, and once Mayor of that city.

July 80th, Hon. Isaac Toucey, of Connecticut, Secretary of the Navy under Buchanan.

September 6th, Gen. John A. Rawlins, of Illinois, Secretary of War at the time of his death.

September 8th, Hon. Wm. Pitt Fessenden, of Maine, United States Senator. September 10th, Hon. John Bell, of Tennessee, formerly U. S. Senator, and a candidate for the

Presidency in 1860. October 8th, Franklin Pierce, of New Hampshire, Ex-President of the United States.

November 4th, George Peabody, of Massachusetts, the eminent philanthropist.

November 7th, Admiral Charles Stewart, known as "Old Ironsides," of the U. S. Navy.

November 10th, Gen. John E. Wool, distinguished for his services in the Mexican war. November 11th. Hon. Robert J. Walke, Secre

tary of the Treasury under Polk, and one of the ablest financial writers in the Union. November 12th, Hon. Amos Kendall, Posmaste

General under Jackson, and one of the most noted politicians of that day and time. November 21st, Hon. Benjamin Fitzpatrick, of Alabama, formerly Governor of that State and

member of the United States Senate. December 21st, Hon. Edwin M. Stanton, o Pennsylvania, Secretary of War from 1862 to

ENFORCEMENT OF THE CIVIL RIGHTS BILL .- It seems that the law passed by the Legislature of this State, approved February 18th, 1869, entitled "An act to enforce the provisions of the Civil Rights Bill of the United States Congress," is about to be tested in Charleston. A colored man, for whom a ticket had been bought by a white man applied for admission to the dress circle of the Academy of Music, and was refused admission by Manager John T. Ford, of Baltimore, the lessee. Another colored man applied for admission to the reserved seats, and was likewise refused. Whereupon warrants were issued, upon affidavits by the two colored men, and Mr. Ford was arrested for violating the law referred to, and gave bend for his appearance at the next term of Court. The Act of the Legislature specifies that if any party engaged in any business, calling or pursuit for which a license is required, and for which he made lawful application, discriminates on account of race, color or previous condition he is liable to a fine of not less than \$200, or less than six months imprisonment. The case is an interesting one and we shall await its termination with anxiety to know whether or not this law will stand the test of legal scrutiny, and be allowed to restrain individuals in the conduct of their business.

Dowie, Moise & Davis .- With the new year, we observe that the well known Drug House in Charleston of Dowie & Moise has changed the style of its firm as above, and has gained a considerable accession in the person of Mr. WM. C. DAVIS, formerly of this place, whose numerous friends will be gratified to hear of his promotion. We are well acquainted with all the members of this firm, and can conscientiously recommend them for enterprise and liberal dealing. Their business has een steadily increasing, and their house now ranks amongst the foremost among the list of honorable merchants in the "good city by the sea." In referring to the change, the Courier says : "Mr. DAVIS has been connected with the house for several years, and his many friends in all parts of South Carolina, as well as in adjoining States, will be pleased to learn of this change in his fortunes. We know Mr. D. well, and can therefore say that while we are glad to see him occupy his new position, we know that he cannot work with more zeal for his house than he has done hitherto."

- In his message to the Pennsylvania Legislature, Gov. Geary favors the recognition of Cuban independence, and advocates the policy of expanding the currency by establishing National Banks where none now exist. The State receipts last year were not quite five and a quarter millions, and the expenditures nearly five millions. The State debt amounts to \$32,814,000.

- G. E. Elford, Esq., has resumed the publication of the Greenville Mountaincer, and begins with an encouraging prospect of success.

- Mrs. Eliza J. Baker, daughter of Chief Justice Moses, died in Sumter recently.

#### THE LABOR QUESTION.

The following joint resolution concerning the appointment of agents to supervise the making of contracts with laborers has been introduced into the Legislature of this State, and referred to the Committee on Labor :

Be it Resolved, By the House of Representatives, the Senate concurring, That the Governor be, and he is hereby, authorized and empowered, immediately after the passage of this resolution, to appoint Contract Agents or Supervisors for each county of the State, whose duty it shall be to furnish all persons wishing to contract with proper forms, showing clearly the obligations of employ-

ers and employees.

That the Agent or Supervisor shall keep an office at the county seat of each county, where shall be recorded a copy of each contract made, and the names of all parties to the same; to hear and examine all disagreements, and, as umpire, award justice to the aggrieved party, except in such cases | er of speech, as well as in part the use of his which require legal interference through the limbs. He remained speechless and helpless for

The contracts shall be in triplicate form, employer and the employee holding one each; and the third shall be filed and recorded in the office of the Agent or Supervisor for the county, each copy receiving the signature and seal of the Agent to validate it, for which duty he shall recieve a fee of fifty (50) cents from each party contracting, and

furnish necessary papers.

All contracts for the year 1870 must be recorded as set forth above, and be subjected to the same rule of approval and record, though made, signed

and entered upon. The Agent or Supervisor shall enter into recognizance, for the faithful performance of his duties, in a bond of not more than \$2,000, or less than \$1,000, and hold his office for two years, unless superseded for negligence or misconduct.

#### THE BLUE RIDGE RAILROAD:

Mr. DOYLE, of Oconee county, offered the following joint resolution in the House of Representatives on Monday last. It was referred to a special committee of seven from the House and three from the Senate:

Whereas the building of the Blue Ridge Railroad has been a favorite enterprise of the people of South Carolina for twenty years, and the present General Assembly has sustained it, with an approximation to unanimity unsurpassed in the annals of legislation on a subject involving such grave considerations; and whereas the managenent of the affairs of said road have been such as to elicit much inquiry, and to reflect on both the Legislature and those wno manage the affairs of

said enterprise; therefore, be it

Resolved, by the House of Representatives, the Senate concurring. That a committee, to consist of three members of the House, and two of the Senate, be appointed, with full power to send for per sons and papers, to investigate every transaction had since the re-organization of the Blue Ridge Railroad Company, with instructions to report the result of their investigation at least ten days before the adjournment of the present session.

Our Duty .- Aother year is upon us, and, before its close, we will have another general elec-tion. State officers, members of the Legislature and Congressmen are to be elected by us in Octo-

ber next. It is of vital moment to the best interests of our State that the present incumbents be defeated, and good men elected in their stead. This is practicable, if we will simply do two things, which wis-

dom demands: 1. Be united. He who prefers a man or set of men to the success of the party opposed to official dishonesty, is not true. He may boast that he is not fettered by party nominations, but when he pursues a course which must end in the defeat of good men, he is himself not a patriot and not to ne trusted.

2. We must be practicable. The fourteenth and fifteenth amendments to the Constitution of the United States have settled many things—the first is passed and the second will be. We must read the changes wrought by these amendments. Questions which divided the two great political parties of the country two years ago would appear ridiculous if lugged into political carvass now. They are settled against us. Congressional reconstructions of the particles of the particular and the second with the particles of the particles of the particles. ion and negro suffrage are issues of the past, quite as much as the Louisiana purchase and the Mexican war. If we do not so regard them, we are impracticable, unwise, and destined to defeat. Victory is in our hands, if we will only grasp it.
Our platform is one upon which white and black

may unite and join hands. It is "opposition to official dishonesty." We want no other plank. Upon this, we would nominate good men, and they would be elected. We beg our readers to think over these things, and begin to prepare themselves. By July, we ought to have our candidates in the field, without division. Soon, aye, very soon, we should commence the work of organization. Let men begin to think of clubs; and let clubs be as brief in their resolutions as possible. Let them, above all things, be wise, and careful not to waste their strength in tilting against wind-mills. Union Times.

FOR THE FARM, GARDEN, AND HOUSEHOLD .- We can confindently recommend all our readers to promptly provide themselves with the American Agriculturist for 1870. We have received the first number of the 29th annual volume, and find it filled with a large amount of exceedingly practical useful information, not only on every subject pertaining to soil culture, including the garden, the lawn, and fllower bed, and the care of the little plots of the city and village homestead, but also for the housekeeper, and the children. Many excellent engravings, both beautiful and instructive, give additional interest to every number. Taken altogether, the American Agriculturist is one of the most beautiful and valuable journals in the world, adapted equally to city, village, and country, while it is a marvel of cheapness owing to its unprecedented circulation, which divides the cost of preparation among so many, that a great deal can be given to each. Terms, \$1.50 a year; four copies \$5, or ten copies for \$12. It is richly worth all it costs and more. ORANGE JUDD & Co., Publishers, 245 Broadway, New York.

Gbituary. DEPARTED this life, on the 25th day of December, 1869, at his residence in this Town, Mr. MILFORD BURRISS, in the 55th year of his age. The sadness produced by the death of this esteemed and useful citizen will long be felt by many hearts. In no case, perhaps, has death

come more unexpectedly, or more forcibly suggested to our minds the solemn declaration of our Lord,—"Therefore, be ye also ready, for in such an hour as you think not the Son of Man cometh.' No man within the range of our knowledge seemed to possess in a higher degree the elements of a physical constitution which would encourage the hope of a long life, than did our departed friend. Suddenly, however, and to the astonishment of all, were these hopes crushed by the fatal stroke which told but too plainly that his days upon earth were numbered, being deprived of the powa few days after the shock, and then passed into the spirit world. It is not, however, alone the suddenness with which he was called away which fills our hearts with sadness, but also the loss which we have sustained. Industry and perseverance in his chosen pursuits were strikingly characteristic of him from early life. To these he attributed, under God's blessing, the practical knowledge and means which he had acquired, and by which he could be useful to those around him. But it is in another and more sacred relation that his loss is more keenly felt. As a husband he was devoted and kind; as a father, affectionate, tender and indulgent, ever ready to consult the interests and happiness of those thus committed to him; as a friend, he was ardent and confiding; but while our hearts are filled with sadness at the loss which we have sustained in these respects, "we sorrow not as those without hope." Several years ago he made profession of religion and united with the Anderson Baptist Church. Subsequently he removed his membership to a church in the country, where it remained until about three years ago, when his wife and two daughters joined the Anderson Church. He then brought his mem-bership again to the Church of which he was first a member, where it remained until he was re-moved, as we trust, to the Church triumphant,

the tears from all faces, "and they shall hunger no more, neither thirst any more.' "Asleep in Jesus, blessed sleep,
From which none ever wakes to weep;
A calm and undisturbed repose,

where there is no more sickness, pain or death, "and there is no night there, and they need no

candle, for the Lord God is the light of the City;

and there is no more weeping, for God shall wipe

Unbroken by the last of foes."

# ETIWAN GUANOS,

SOLUBDE MANURES, and SULPHURIC ACID, MANUFACTURED AT CHARLESTON, under the direction of DR. N. A. PRATT, Chemist for the Sal-

phuric Acid and Super-Phosphate Company.
Soluble Phosphoric Acid, in the form of Soluble Phosphate of Lime, or Dissolved Bone Phosphate. is the basis of all good Fertilizers, and these are valuable in the ratio of Soluble Phosphoric Acid

which is in them.

The immense deposits of Phosphatic Guanos which were discovered in 1867 in South Carolina, by Dr. Pratt, consists mainly of Insoluble Phosphate of Lime, which is made available as a Fertilizer by being ground to powder, and reduced by Sulphuric Acid to such a condition as to make its insoluble phosphate soluble in water, and thus made capable of being taken up by growing plants. The insoluble Phosphate found in any commercial Fertilizer is of no more value to the plant than the original Phosphate rock. The greater the proportion of this Soluble Phosphate which any Fertilizer contains, the less the quantity required per acre, and consequently the cheapest Fertilizer is that containing the highest per centers of Soluble Phosphate.

Their Fertilizers are offered under two forms:

Bone Phosphate of Lime, \$60 per ton, 10 per cent. discount for cash.

2. ETIWAN, NO. 2.—Peruvian Superphosphate, guaranteed to contain 20 per cent. of Dissolved Bone Phosphate, and 1½ to 3 per cent of Ammonia, with a sufficient addition of Peruvian Guano to adapt it to all crops, \$70 per ton, 10 per cent. discount for cash.

We also offer Dissolved Bone, of high grade, for planters or manufacturers, who may desire to mix into any other compost, and we suggest that this is the best and cheapest method for manufacturers to transport the Sulphuric Acid centained in the mixture. Will be sold at a fixed rate for each per centage.
