#### DEATHS IN OUR MIDST.

A most remarkable scene of mourning occurred in our town on Tuesday last. It was the burial of two well known citizens, and the melancholy ceremonies of the day were participated in by large numbers of people.

Mr. W. K. HARRIS died in this village on Sunday afternoon, after a lingering illness of some months. He had been a resident of Anderson for nearly five years, and was generally esteemed for his kind and benevolent disposition, together with a faithful discharge of every duty in life. Mr. HARRIS was a native of North Carolina, though his youthful days were spent in this vicinity. His family removed to Georgia about twenty-five years ago, and afterwards to Tennessee, from which latter State he came back to Anderson early in 1865. He was in the 45th year of his age.

The remains of Mr. HARRIS were escorted from his residence by the Masonic fraternity and the Sons of Temperance to the Methodist Church, where the funeral discourse was delivered by Rev. W. A. Hodges, before a large and attentive congregation. He was buried in the Presbyterian churchyard with Masonic honors.

Mr. JONATHAN T. HARRISON departed this life at his residence, three miles west of Anderson, on last Monday morning. For more than five years, Mr. Hannison has been a sufferer from rheumatism, and has nearly all that time been confined to the house by this affliction. He bore his great sufferings with an uncomplaining spirit, and was sox removed from Fairfield to this place about seventeen years ago, and has ever been held in federate army for several years, and in the dis-

took charge of the body, and with appropriate generally, and in reply to many inquiries, the have on them over eight hundred cases, exclusive honors deposited in the grave all that was mortal of their deceased brother.

### THE CHARGE AGAINST DEMOCRATIC MEM-

In its usually flippant way, the Charleston Daily Republican replies to our demand for proof as to the charges of bribery and corruption alleged against the Democratic members of the Legislature. It cites an article in the Marion Star, in which assertion is made that there was "a company of Representatives in the last Legislature in the art of making them. Certainly, the honest masses represented in the Legislature by Democrats would promptly repudiate any man, whatever his station or services, who would be guilty of reprehensible practices in public life. But we repeat that, in our opinion, there is no justice or reason in the sweeping charge made by the Republican, and we shall await the developments hinted at by that journal with the confident expectation that " nearly every Democratic member " will be fully and completely exonerated from the remotest taint of bribery and Louis, and edited with marked ability by GEO. corruption. DEATH OF HON. W. F. DESAUSSURE .- The Columbia papers announce the death of this distinguished gentleman, which occurred on Sunday last, in the 79th year of his age. Mr. DESAUSSURE was one of the oldest citizens of Columbia, and was distinguished for his learning, abilities, character and public services. He was an eminent lawyer, and had served his State with fidelity both in the Legislature and in Congress. His life was active, useful and pure, and his death will be style. BEHIND THE TIMES .- A paragraph is going the rounds of the press, stating that "ABCHIBALD Topp has been appointed mail agent on the Greenville railroad, vice N. K. Sullivan, declined." We observed this item in the Newberry Herald of last week, credited to the Washington Star. Now, the facts stated are literally true, but the occurrence is about seventeen years old. Our respected and lamented friend, Mr. Topp, has been dead nearly ten years, and the circumstances of his appointment to the position of mail agent were well nigh land, Newberry and Fairfield. It seems to have forgotten until recalled by this paragraph. How been a pleasant re-union of the medical fraternity. does it happen that such an item of news is now The following gentlemen were elected officers of the set affoat? QUERY .- We would like to know why so many boys, without any person to control them, are allowed to disturb the public on almost every occasion. We don't blame the boys, for they will indulge in their The Association adjourned to meet in Charles- frolicksome ways so long as they go unchecked. RADICALISM.

The New York Sun, a Republican journal, thus expresses its opinion of Grant's administration:

General Grant has been in office just one year. What has his administration accomplished in these twelve months, and how does he himself stand today in the estimation of the party that elected

him to the Presidency?

We do not misinterpret the public judgment when we say that no man ever chosen to the Presidential office stood so low at the close of the first venr of his term, in the estimation of the leading minds of his party, as General Grant does. They perceive that he has a narrow intellect, very good when backed by a rather firm purpose, or pushed forward by the resolute will of others, to work doggedly along upon a plain, straight line, but utterly incapable of taking broad views of a sub-ject, or rising to heights where one may survey the ground all around him, and look far ahead into other fields, some of which he may soon be required to occupy. In a word, his supporters have learned that he has not a single statesmanlike quality for meeting the unprecedented exigency which has overtaken the Republican party. General Grant's supporters have likewise found

out, after a year of painful experience, that he possesses not the slightest sagacity or tact as a politician, and has not the faintest idea of the method by which parties are to be kept together and stimulated to vigorous action. This total absence of skill as a politician is, however, not surprising in one who, while in civil life, during the stormy controversies of the last twenty years, took so little interest in public affairs that he never voted but once, and then for James Buchanan.

The natural result of this all but unanimous verdict of leading Republicans is, that not one of them, except he be a recipient of the Presidential bounty, contemplates the renomination of General Grant-a judgment never before entered up against any regularly elected President at the close of his first year in office.

So much for General Grant personally, and his aspirations and hopes for the future. And now, how fares it with his administration? Has it met the just expectations of the people any better than he himself has? The reconstruction policy was clearly defined and nearly consummated be fore he assumed the executive chair. With a plain path before it, the administration has been vexatiously dilatory and shamefully remiss in completing the work of reconstruction. Every State in the Union voted for President in 1868 except Virginia, Mississippi and Texas. The Republicans swept the field; Congress assembled on the fourth of March, 1869, and yet, after the lapse of a year, Virginia and Mississippi are only just restored to full fellowship, while Georgia has been partially thrust out of the Union, and Texas, has not been admitted at all. Can this be success, or does it not rather deserve the name of a conspicuous and utterly inexcusable failure of the administration to carry through a programme so plain that a wayfaring man, though a non-political President,

need not err therein? !
How stands the case in regard to our foreign relations? The course of the administration has brought the Republic into contempt both in Europe and America. While the brave, the generous, the sagacious Rawlins was alive, there was hope for Cuba; for he had long been wont to exert great power over Grant. At his death the cause of Cuba fell into the hands of the pusillanimous Fish and the pompous Sumner; and since that disastrous hour we have witnessed naught but base bowing of the knee of this great Republic at the feet of decrepit Spain. As to the Alabama claims, they are further from settlement now than when Andrew Johnson left the White House, while England views tne dullness of the administration with surprise and its imbecility with contempt. As patriotic and high souled Americans contemplate the deplorable condition of our foreign relations, they are fain to cry out, "Oh for one hour of Marcy or of Seward?

And what is the policy of the administration on financial questions, the leading issues of the future? Has it got a policy of any sort? If so, do we find it in the votes of the sixty Republicans in Congress, who went with Mr. Marshall for a strictly revenue tariff, or in the votes of the eighty or ninety Republicans, who favored protection? Do we find it in the votes of the large majority of the Republican members, who supported Mr. Loughridge's resolution for the issue of fifty millions more of greenbacks, or in the votes of the Republican minority, who resisted his proposition? And what are General Grant's opinions on these vital questions? Does he know any more about them than the veriest tyre in political economy? Has he got a financial creed? If he has, pray what is it? Can Schenck, can Butler, can

But there are loud and reiterated promises our Democratic members as faithful, inc about the reduction of expenditures. Mr. Dawes informed the people of New Hampshire that General Grant was in favor of cutting the appropriations down to the lowest possible figure, and that wherever he could see a chance to save a single dollar it should surely be done; and the only result of this promise which the country has yet seen, so far as the President personally is conperned, is the raising of the salaries of his two or three doorkeepers, and the appointment of two or three needless sham secretaries on his official staff. When the people begin to realize that their taxes are reduced, they will begin to believe that unnecessary expenditures have been cut off, and not till then. And even when that auspicious bour arrives they will be apt to attribute this reform hore to their own vehement outcries for relief, backed by the resterated demands of the independent press, than to the administration's skill or its

desire for retrenchment. The public debt has been reduced, as it certainy ought to be in view of the enormous surplus in he treasury, drawn from the pockets of the people by an exorbitant and remorseless system taxation. When both the debt and the taxes are reduced, the public will begin to feel that the plan now pursued is not merely a new application the old scheme of robbing Peter to pay Paul. T reduction of the debt, too, shows rather larger on paper than in fact; and the credit of all the realvaluable results in this behalf is due very much

o Mr. Boutwell, and not at all to General Grant. But, after all, one of the most marked and disastrous failures of the administration, in its effect upon the Republican party, and upon General Grant personally, springs from his distribution of official patronage. From the members of his cabinet and his foreign ministers, all the way down to the very tax collectors and tide waiters, no President ever made so many weak, incompetent, and, viewed from a party standpoint, utterly worthless appointments. The great majority of President, his administration, or the Republican organization, while many of them bring all three into disrepote. Nepotism, always disgraceful; favoritism, admirably fitted to excite jealousies and heartburnings; and incapacity, which breeds contempt, have characterized a large class of General Grant's appointments; while many of his most favored beneficiaries, though they have been able to accumulate fortunes, had not the slightest claim to the rewards of the Republican party, pever rendered it any services ere they took and have been only a damage to it ever since. And worse than all, the President has bestowed some of these offices for pecuniary considerations.

No administration can survive such a waste. such a venal prostitution of its patronage as this In short, General Grant has, at the close of his first year, proved so lamentable a failure, both as a statesman and a politician, that no well-informed and far-seeing Republican contemplates his renomination as a possibility; while a large body of the party apprehend that his course must inev-itably break it in pieces before the next Presiden-

LOCAL AND STATE INTELLIGENCE. ITEMS .- EDITORIAL AND OTHERWISE THE FAILURE OF GRANT AND THE KNELL OF THE MINORITY IN CONGRESS .-- ITS GROWING STRENGTH AND INFLUENCE.

> The following rather noteworthy confession is made in the Christian Union, published in New York, and edited by Henry Ward Beecher:

The Democratic side of the House is growing stronger every day. Not, of course, in numbers, but with the accession of Cox, of New York, and Voorhees, of Indiana, both ready debaters; there seems to have been a consolidation of forces. As a result, more is yielded to them by the majority, and no more days and nights are wasted in filli bustering. The country regarded our gag-rule legislation as a sort of war measure, and so upheld and defended it; and so long as it was used alone to carry on the legislative part of the war, it was well; but it was too dangerous a party weapon to play with beyond the days when it was absolutely necessary. While it would be a national misfortune to have the control of the House pass into the hands of Democracy, it will be a matter of congratulation when the minority shall be somewhat stronger; so strong in fact as to be able to force deliberate action in all matters, and to prevent the previous question being made a party machine for compelling a strict partisan

At present, the Democrats, when they have chance, can make a good show in debate. sharp, quick and witty. Voorhees is ready, and has a voice that of itself attracts attention; because it is such a wonderful relief to have a member speak so that he can be heard distinctly and easily, without leaning forward and opening the mouth, and setting a hollowed hand behind each ear. Marshall and Beck are men of ability, and their positions on committees give them considerable weight. Fernando Wood, whatever you may think of him in New York, is one of the best behaved men in the House, and his bearing is always what the representative folk dream about before they come to Washington and see the real article with his feet upon his desk, and hear the roar that rises in the galleries as if the foundations of a new Babel were being put in below.
