The "Pain Killer,"

AFTER THIRTY YEARS TRIAL, is still receiving the most unqualified testimonials to its virtues, from persons of the highest character and responsibility. Physicians of the first respectability, recommend it as a most effectual preparation for the extinction of pain. It is not only the best remedy ever known for

> BRUISES, CUTS, BURNS, &c.,

DYSENTERY or CHOLERA.

Or any sort of bowel complaint, it is a remedy unsurpass ed for efficiency and rapidity of action. In the great cities of India, and other hot climates, it has become the Standard Medicine for all such complaints, as well as for Dyspensia, Liver Complaints, and other kindred disorders. For Coughs and Colds, Canker, Asthma and Rheumatic difficulties, it has been proved by the most abundant and convincing testimony, to be an invaluable medicine. Directions accompany each bottle.

Sold by all Druggists. Price 25 ets., 50 ets., and \$1 per bottle.

What Does Reason Say !

The little mongoose when bitten by a deadly serpent re-The little mongoose when bitten by a deadly serpent resorts to a certain plant, eats of it, and escapes the effect of the poison. That is instinct. Human beings on the other hand, must depend on reason and experience in selecting the means of protecting health and life against unwholsome influences. Now, what does reason say on this vital subject? Does it not tell us that to invigorate and purify the system is the best way to protect it against the invisible poison which generates disease? Surely it does? The next question is, what guide shall we follow in choosing a medicinal safeguard? Reason replies, let your monitor be experience. Well, the experience of eighteen years comprised in one unbroken series of satisfactry testimonials sasures us that HOSTETTER'S STOMACH BITTERS possess strengthening, regulating and antiseptic properties which are not combined in the same happy proportions in any other preparation extant. This therefore is the antidote to which reason bids us resort when health is imperilled either by the malaria which produces epidemic disorders, or by any other cause, whether inherent and constitutional or connected with our habits, occupations and parsuits. The venom of a noxious reptile is scarcely more subtle and dangerous than that which lurks in foul air and impure water. To escape the fevers, billious disorders, disturbances of the bowels, and other serious malacies produced by these insalubrious elements, it is absolutely necessary that the stomach and all the secretive organs should be, so to speak, in a robust condition. Upon the amount of resistance which the vital system can oppose to the deleterious liftuences that assail it, the safety of the health depends, and it is because the Great Vegotable Invigoraut imparts energy and régularity to the most important functions of the body, that it can be recommended and guaranteed as an invaluable preventive medicine. sorts to a certain plant, eats of it, and escapes the effect of

Ahead of the North.

In many things the North has for a long time been ahead of the South, merely because our people have neglected their natural advantages. In nothing was this more palpably the case than in the manufacture of Doors, Sashes, Blinds, Mouldings, &c. This was noticed by Mr. P. P. TOALE, an enterprising Charlestonian, and he has now one of the largest and most successful manufactories of Doors, Sashes and Blinds in the whole country. See his
