The colored Secretary of State, F. L. Cardoan, resigned his office two weeks ago, to accept "professorship in the Howard University, Washington, D. C.

We published a rumor several weeks vicinity of Williamston, and that it was supposed the robbery was committed by strangers. We have since learned that the report was entitely false, and it has been surmised that the alleged tobacconist, who was in the employ of another parson, started the report to hide his own defalcations.

We are pained to record the death of Mr. Marshall Sharpe, an estimable citizen of Abbeville County, which occurred at his residence on Sunday morning last, after an illness of only a few days. Mr. Sharpe was well known to the people of Anderson, and had Been engaged for some time past as traveling agent of the Piedmont and Arlington Life Insurance Company.

The numerous friends and acquaintan-'ces of Mrs. Daniel H. Silcox, of Charleston, will be pained to learn the news of her death, which occurred on the 10th of October, after an illness of only a few hours. Mrs. Silcox was an active, earnest Christian, and had been a consistent member of the Baptist Church for thirty-five years. The family resided in this place for several years during the war, and Mrs. Silcon gained many warm friends during that period.

For the past ten days, there has been grea maitement in financial circles over the reported fraudulent issue of South Carolina bonds. The allegations of the New York World, as originally made, are published in this issue. That paper has followed up these declarations

Our State Finances.

with other and stronger accusations against the State officers. Gov. Scott and Treasurer Parker attempted an explanation of the printing of such an unusual amount of bonds, and admitted that \$20,204,000 had been printed, but declared that there was no intention to increase the State debt, and that \$9,000,000 had never been signed or issued. Admitting as true all that their explanation claims, the facts thus presented appear to sustain the allegation that there is an over issue of bonds, but to what extent no one can rightfully conjecture, unless there was a full exhibit of the State's finances, which will never be accorded by the present dministration, we fear. We think it probable that, since the new bonds have taken such fearful leap downwards, that enough has been purchased at the lowest figure by the of the over issue from market. In this view of the case, it becomes possible for these manipulators of the State credit to hide their defalcations, especially when the taxes are forced to be paid within a very short time, which might enable them to redeem bonds now under game. In the meantime, the State credit is

impaired, and bankruptcy seems inevitable. Various remedies are suggested to relieve the State of this financial embarrassment. Repudiation is relied upon by some persons, and it since that a tobacconist had been robbed in the is announced that a caucus of colored men solemnly agreed in Columbia to repudiate the entire bonded debt of the State, old and new-The Charleston News advocates the non-payment of taxes, until a trustworthy exhibit is made of the entire liabilities of the State, and until satisfactory guarantees are given that the people's money will be legitimately applied. We are not yet prepared to advocate repudiation of any past of the State debt lawfully contracted, nor do we think it advisable to refuse payment of County taxes, and it would be difficult to dissever this from the State levy-But we think there is a way to stop this shameless plundering of an oppressed people. Once establish the guilt of the parties concerned in the over-issue of bonds or other fraudulent transactions, and then apply legal remedies, such as ferreted out and brought to grief the wholesale robberies in New York city. Let the Executive Committee of the Taxpayers' Convention take this matter in hand, and get hold of the right parties, have them arrested by legal process, brought to trial for their misdeeds, and thus strike at the root of the evil. Enough is known at this time to place nearly all connected with the State government in the Penitentiary, and a movement of the kind indicated might reveal the whole series of un-

people.

Next Monday is the day fixed to begin the collection of State and County taxes, and an official notice from the State Auditor appears in this issue, declaring among other things that the penalties prescribed by law will be strictly enforced on and after the 15th of January next the last named official only agreed to suspend the penalties for non-payment in those counties where sea island cotton is grown, while the entire State has been under the impression that no penalty would attach until the 1st of March. This impression was created by the proceedings of the Taxpayers' Convention, and on reference to that document, we find it distinctly announced in a report made by Gen. M. C. Butler, that his Excellency "requested them to report to the Convention that he would authorize the Comptroller to suspend the collection of taxes in all cases where the payment thereof was inconvenient to the tax payers. That this postponement shall extend to the first of March, 1872, and that the penalty for non-payment should not be enforced in the meantime," Now, this report of Gen. Butler was submit ted to the Taxpayers' Convention on the 12th day of May last, just six months ago, and not one word has ever been intimated that the exact meaning of the Governor was not clearly understood and reported by Gen. Butler's Committee. The lapse of time and acquiescence of Gov. Scott in the declarations made in this report, attest the truth of every word it contains in reference to his pledges on the subject of collecting taxes, at least. But circumstances have changed, and now that it is necessary to supply a depleted Treasury, in order to save Gov. Scott and his associates from bankruptcy and ruin, the State Auditor is made to deny that any such "general promise" was ever made by his Excellency! We knew that Gov. Scott had been frequently charged by his political friends with an easy disregard of truth and his own promises, but we must confess that this official acknowledgment of utter and reckless falsehood takes us by surprise. No sane man will doubt for a moment, after an examination of the facts, that Gov. Scott pledged himself to Gen. M. C. Butler and other gentlemen of the Taxpayers' Convention, that he would suspend the penalty for non-payment of taxes until the 1st day of March. The State Auditor declares, "Wednesday night in his usual health, but was in behalf of his Excellency and in the face of the record, that such promise was never made. and that the penalty will be enforced on and after the 15th of January. Such shameless duplicity is in keeping with the character ascribed to his Excellency by his brother carpetbaggers, and hereafter the people of South Carolina will know what is meant by "Gov. Scott's word and honor."

Annual Meeting of the Farmers' Association.

The annual meeting of the Anderson Farmers' Association has been called for next Saturday, 18th of November, and every member of the Association and all persons fovorable to Inderson Farmers' Association the enterprise ought to be in attendance. The Association has been in existence nearly four years, and its annual fairs have been constantly increasing in interest and importance. By careful and prudent management, the Association has been kept in sound financial condition, and through the exertions and liberality of those connected with recent efforts to taise, careful examination, we award the premiums money for the erection of buildings, it is confidently believed that a handsome sum will be at the disposal of the Association when it meets next Saturday. Last winter it was determined that a joint stock company should be organized, and committees were appointed in the various townships to solicit subscriptions of stock .-The members of these committees are expected to report to the annual meeting, and we hope that a favorable response will be made. But we would urge every one to attend the annual Ring financiers to enable them to retire a part meeting, and be prepared to take stock in the Association, so that the future success and permanency of the enterprise might be fully assured. Besides the privileges obtained by becoming a stockholder, we have no doubt as to the profitable nature of the investment, as there is every reason to expect handsome dividends. hypothecation and begin anew their little The Association must be placed on a permanent repo and enduring basis, and we are fully satisfied that the joint stock principle is the only true method of obtaining this permanency; as it will at once secure fair grounds and suitable buildings.

This body of gallant men assembled in Coumbia last week. Gen. Jubal Early, of Virginia, delivered the annual address on Friday evening before a large and intelligent audience, and received an enthusiastic welcome from his old friends and comrades. His address is spoken of as a valuable contribution to the history of the late war. After the address, the annual re-union supper took place, and was argely attended. The regular and volunteer coasts received appropriate responses from the distinguished gentlemen present. Business meetings were held on Friday and Saturday, at which the report of the Executive Committee was submitted, and the election of officers took place. The former officers were re-elected with Gen. Hampton as President. Resolutions disavowing any knowledge or sympathy with the Ku Klux organization were, presented by Gen. Sale of the Greenville Railroad.

It is announced that the South Carolina Railroad has purchased a sufficient amount of stock to obtain control of the Greenville and Columbia Railroad. The interest of the "Ring," we suppose, which amounted to fifty thousand shares, constitutes the purchase. We have frequently heard rumors to this effect during the present year, and doubtless negotiations to this end have been pending for many months, but the information about the actual sale comea to us in such a shape that we think it may be relied upon that the Greenville and Columbia Railroad has again changed hands. It is a matter of congratulation, in our opinion, that the South Carolina Railroad obtains this con-

Security Life Insurance and Annuity Company. Among the few Life Insurance Companies which promise to show an increase in the amount of new business transacted during the present year, is the Security Life Insurance and Annuity Company of New York. Its business shows a large and healthy increase over that for the corresponding period of last year, and will doubtless continue on in as favorable a ratio until the close of the year. The management of this Company has been from the first very able and conservative. It has lent itself to none of the cheap and tawdry devices for getting present business at the expense of Inture insolvency. We believe that the Company has pursued from the outset a very just and fair policy in its dealings with its Policy-Holders, and to this it is doubtless largely inlebted for the popularity which it enjoys .- Eztract from the Insurance Spectator of October, 1871.

The parties were arraigned before Trial Justice Hammond in the afternoon, and upon examination of the charge against Culbertson of assault with intent to kill, the jury returned a verdict of not guilty, as the shooting was regarded as justifiable. The trial of the colored oman for assault and battery was fixed for yesterday afternoon.

Death of Mr. Robert Pickens.

Another old and highly respected citizen of ithis County has passed from time to eternity. Mr. Robert Pickens departed this life on Thursday, 2nd of November, in the 77th year of his age. He retired at the customary hour on aroused about one o'clock by some disturbance in the house, and upon going back to bed, remarked to his wife that he felt a little unwell. Two or three hours later, Mrs. Pickens awoke, and failing to receive any response to her enquiries, she soon ascertained that life was exfinct. It is supposed that he died from heart disease, and that he never experienced any severe pain, but succumbed to the grim monster as if dropping into gentle slumber. Mr. Pickens had been a member of the Methodist Church from early youth, and had always lived consistently with his professions. He was born and reared upon the place where he died, and had never lived elsewhere. His father's birthplace, and settled by his grandfather, both of whom were named Robert Pickens, the old homestead has never belonged to a person of any other name. Mr. Pickens was twice married, and was the father of eighteen children, seventeen of whom lived to be grown, and ten of them are now living. He was an intelligent and up-"fight citizen, and greatly respected by all who knew him.

The State Fair.

The third annual Fair of the South Carolina Agricultural and Mechanical Society took place in Columbia last week, and proved eminently successful, as we learn from parties in attendance. The auxiliary joint stock association received a new impetus, the sum of 15,000 being in Upson County, was burned. This was the first cotton subscribed, and it is contemplated to raise \$100.-000. - The alien, imported governments of the Southern States, says the Washington Putriot, have added to the funded debt of those States one hundred and seventy million dollars in three years ! And the annual rate of increase of this debt is now, even after all the exposures made and protests uttored, not less than thirty millions. Should Grant be re-elected, every one of these States will inevitably become bankrupt.

- We regret to see that the Savannah Republican, the oldest daily newspaper in the South, has been sold under the Sheriff's hammer. The failure of the Charleston Mer-cury a few years since is another instance of the uncertain-ty of journalism, even when backed by old age and repu-tation. No calling, perhaps, requires more industry, tact and censeless vigilance, than journalism. Especially is this the case with daily newspapers. Be Guided by what you Know.

There is an old proverb which says, "Expeience is the safest guide." To this guide the sick and ailing naturally turn when casting about for the means of relief. They enquire what a medicine has done for others, before they adopt it themselves. Of all the remedies and preventives in use, Hostetter's Stomach Bitters meets the test most triumphantly, and hence its immense popularity and vast sales. The sufferer from indigestion is sure to find some one among his friends who has been cured of this ailment by the famous vegetable stomachic. The victim of fever and ague, liver complaint, constipation, nervous prostration, or general debility, has only to make inquiry in the neigh-borhood where he resides in order to discover what this standard restorative has effected in cases similar to his own. In the published tes-timony to its merits he will find a volume of timony to its merits he will find a volume of proofs of its sanitary properties, which it is im-possible for his common sense to resist. He tries it, and the effect it produces on his system adds another to the host of witnesses in its favor. Thus, its reputation, founded on facts, not as-sertions, continually grows and spreads. Char-latans and imposters, some of them mere local tricksters, and others who take a somewhat wider range, attempt to thrust into the hands and down the throats of invalids, their hap-hazard concortions, as substitutes for the tonle hazard concections, as substitutes for the tonic which for so many years has been a medicinal staple throughout the United States, Spanish America, Canada, and the West Indies, but only succeed to a limited extent. In this reasoning age, the people, having ascertained what is really deserving of their confidence, decline "rnnning after strange gods." MANUFACTURING ENTERPRISE IN CHARLES-

ron.-Charleston is fast becoming a manufacturing as well as a commercial city. The largest manufactory of doors, sashes, blinds, &c., in the Southern States is that of Mr P P TOALE, on Horlbeck's Wharf in that city, sales rooms at No 20 Hayne street. Mr TOALE's advertisement appears in another column.
