A New State Proposed.

Anderson Intelligencer. ANDERSON C. H., S. C. THURSDAY MORNING, FEB. 27, 1873.

nor All advertisements from Executors, Administrators and other Fiduciaries, and all Citations for Letters of Administration, must be paid for in advance from and after this date. February 1, 1873.

We learn from the Dalton Citizen that Mr. N.B. Cary has located in the town of Lafayette, Ga, and is practicing law, with favorable prospects of advancement in the profession. Mr. Cary is a native of old Pickens, and has many friends in this community.

This is a progressive age, in truth, and latterly there seems to be an unusual progress in the establishment of newspapers in South Carolina. One of the latest candidates is entitled The Progressive Age, published at Newberry, and edited by Thos. P. Slider, Esq., of much renown as a journalist, and who has relumed the fires of his youth in this effort to keep pace with the times. We wish success to the undertaking.

The Atlantic and Great Western Canal. Hon. W. P. Price, of Georgia, has kindly forwarded us a copy of his able and interesting speech, delivered in the House of Representa-" tives on the 13th inst., in advocacy of water lines of transportation as a national necessity. The speech is mainly devoted to the interesta of the Atlantic and Great Western Canal, and important project now being urged by our neighboring State, and which proposes to connext the Ohio river by canals with the Atlantic ocean-affording safe, easy and cheap transportation between the Northwest and the At-

lantic coast. Inite Inite 121244

The Press Convention.

The Columbia Union wants to know what has become of the proposition to hold a meeting of the editorial fraternity of this State, and suggests the 18th of March as a suitable time for the meeting. The suggestion meets with favor in various quarters, and we would further suggest that the proprietors of the four dailies in Columbia issue a formal call, and invite the representatives of every newspaper in the State to be present on that occasion. By the way, is there any truth in the rumor that the newspaper press of Columbia propose to furnish a grand banquet as an imaugural ceremony in honor of the formation of a Press Association in South Carolina?

A 28 00 an Annexation Scheme.

A paragraph is going the rounds, originally set affoat by the Atlanta Herald, we believe, 196,365. Sixth in rank out of 24 States. to the effect that a project is on foot to annex a part of South Carolina to Georgia. This statement continues as follows :

The people directly interested in the scheme are willing to it, and it is understood that Gov. Moses, of South Carolina, also favors it. A commission will be appointed by Gov. Moses, who will ask for a similar commission from Gov. Smith. These two commissions will sketch out some basis of aunexation. The ternitory proposed to be annexed embraces Oconee and Pickens Counties, commencing at Andersonville, and running along the Seneca River thence to the North Carolina line, South Caro-lina, reserving the right to fish, etc., in said Tugalo and Seneca Rivers. This territory was

It has been reported for several weeks that there is quite a formidable movement among the citizens of Western North Carolina and East Tennessee, with a view of uniting the two sections and forming a new State, to be called "Frankland." The Nashville Banner says that the movement in East Tennessee does not amount to much, and objects to letting that

region lose its share of that "blessing in disguise"-the State debt. The same objection might be urged sgainst the movement in Western North Carolina, as the old North State has a considerable share of this "blessing." So, too, an objection may be raised to the proposition we have to submit in this connection, but we are entirely willing to concede these "blessings" and allow the full benefit to accrue to the original owners. Our proposition is that a new State be formed, embracing East Tennessee, Western North Carolina, Western South Carolina and North Georgia, in a shape nearly quare, and encompassing a region of country unsurpassed on this continent, well deserving the appellation long since applied of the "Switzerland of America." An examination of the map shows that the proposition is not chimerical, and a knowledge of the country demonstrates the fact that the people are homogeneous, while the climate cannot be equalled in the United States. The inducements of the proposed State, now sparsely settled, would cause an influx of immigrants from every quarter, especially when we consider that it would be free from all the entingling alliances of the past, including those "disguised blessings," now the heritage of the four States from which we propose to take a slice for the formation of this new El Dorado. Indeed, we can think of only one conceivable drawback to this movement, which is that we would be necessarily compelled to take in Chattanooga; to which persons acquainted with that delectable locality might seriously object, and even this is overbalanced by the thought that the wonders and beauty of

Lookout Mountain would belong to us. Altogether, we are willing to take Chattanooga, for the sake of carrying out this grand project.

Population of South Carolina.

The ninth census of the United States, containing statistics of population, is an interesting and valuable document, embracing a large amount of practical information, from which we make the following compilation of, interesting data in regard to our State, viz:

In 1790, South Carolina had a total popula tion of 249,074, ranking as the seventh State in the Union, among a total of 17 States. Whites, 140,178; free colored, 1,801; slaves, 107,094. In 1800, the total population was 345.591whites, 196,255; free colored, 3,185; slaves 146,151. Sixth in rank out of 20 States. In 1810, the total population was 415,115whites, 214,196; free colored, 4,554; slaves, In 1820, the total population was 502,741whites, 237,440; free colored, 6,826; slaves, 258,475.19 Eighth in rank out of 27 States. In 1830, the total population was 581,185-

whites, 257,863; free colored, 7,921; slaves, \$15,401. - Ninth in rank out of 27 States. In 1840, the total population was 594,898-

whites, 259,084; free colored, 8,276; slaves, 327,038. Eleventh in rank out of 29 States. In 1850, the total population was 668,507-

whites: 274,563; free colored, 8,960; slaves, 384,984. Fourteenth in rank out of 33 States. In 1860, the total population was 703,708whites, 291,300; free colored, 9,914; slaves, 402,406; Indians, 88. Eighteenth in rank

Ser The Baptist congregation propose to ask me in what way can these things be best purchase one of Mason & Hamlin's splendid organs, and the requisite amount of money is already subscribed for that purpose. The organ will be here within a few weeks.

We are to have the Berger family in town next week, but the Gass family inform the public that they expect to be in town also, with a large lot of fine young mules, equal to any stock brought to this market the present season. We refer to the advertisement of the Messes, Gass in another column.

Der We learn that the distinguished temberauce lecturer. Edward Carswell, Esq.; of Canada, has been invited to visit our town and deliver a lecture on temperance. Mr. Carswell is fulfilling a series of engagements in the easte n part of the State, and is described as unusually eloquent and forcible as a lecturer. We trust that he will find it convenient to accept the invitation.

Ber We are indebted to Hon, John Wilson for a copy of the revised and amended Homestead Law, which has just passed the Legislature, and which received the sanction of leminent jurists before its passage. The bill was constructed by Senators Wilson and Keith, and embodies the principal features of laws heretofore enacted for the perpetuation of the homestead, omitting all previous legislation of doubtful or unconstitutional character-which renders this bill nearly perfect, and much more satisfactory as a permanent statute, involving the legal rights of every household in the State. We will publish the Act next week.

THE BERGEE FAMILY OF SWISS BELL RING-ERS .--- The announcement that the Berger Family propose to visit Anderson next week awakens the liveliest anticipations among the lovers of public amusements. The popularity of this troupe; whose entertainmants are said to be refined and elevating in their character, extends from Maine to California, and we trust they will receive the welcome of a crowded house on each evening. A special feature is the young ladies' silver cornet band, and all the latest music and most popular songs will be introduced. Of course, the music of the bells will be the chief attraction to many persons, while the comicalities of Mr. Sidney Franks will furnish food for laughter. Remember, on Monday and Tuesday evenings, at Masonic Hall.

Important Surgical Operation.

We are informed that Dr. J. W. Gurley recently operated on Mr. Matthew Snipes for senile cataract, and on the seventh day after the operation, Mr. Suipes was able to recognize objects around the room, and his sight is still improving. Mr. Snipes has been deprived of vision for nearly three years, during which time he has spent several hundred dollars, without experiencing any benefit, under treatment of parties in Atlanta, Ga., who make diseases of the eye a speciality. He has experienced very little pain since the operation

IMMIGRATION .- In the House of Representatives, on Monday last, Mr. Hurley reported the following concurrent resolution, adopted by the Committee on Immigration, which was agreed to and ordered to be sent to the Senate. The preamble and resolution received the concurrence of the Senate, and are as follows :

Whereas, the time remaining of the present ession is not sufficient to enable th Houses to develop and perfect a practicable plan for the encouragement of immigration to this State; and whereas, the subject is one certainly among those of the first importance to the best interests of the whole State, inasmuch as the influx of new citizens, bringing numbers and wealth to strengthen and develop the State, is the surest means of restoring peace, concord and true prosperity to all our people; and whereas, such a subject requires great research and the patient collection, arrangement and statement of the various inducements to immigration, which South Carolina affords; therefore,

Resolved, by the House of Representatives, the Senate concurring, That the Clerk of the House of Representatives, and the Clerk of the Senate be, and they are hereby, empowered to collect and arrange such information as may be deemed valuable and necessary, for the use of the General Assembly, in dealing with the subject of immigration, and to cause the same to be prepared in suitable form for the use of the General Assembly, with a view of presenting to the world the unrivalled agricultural, manufacturing and mineral resources of this State. The said Clerks are authorized to conduct the work herein provided for, during the months of the present year, preceding the meeting of the General Assembly in November next, and to have their report in readiness at the commencement of the next session of the General Assembly.

To Steptics.

The almost daily receipt of voluntary testimonials from every part of the country, from Physicians, Clergymen, old and young, male and female, is sufficient to convince the most skeptical that DR. TUT'S EXPECTORANT is the most valuable LUNG BALSAM of the age; many wonderful cures have been per-formed by it, as may be seen by hundreds of certificates in the hands of the proprietor. Try

it and you will doubt no longer.

Ingalo and Seneca Rivers. This territory was originally what was known as old Pickens District. Two very thriving towns, Walhalla and Pendleton, will be thrown into Georgia under the cession of this territory. One of these Counties—Pickens, we believe—paid \$28,000 State tax last year.

We will first correct the errors in the above paragraph, which are so palpable that we are astonished at their promalgation by any one at all familiar with the geography of this section. The proposed line, beginning at Andersonville and running along the Seneca River to the North Carolina line, does not include the territory known as old Pickens District, but embraces the greater part of Ocones County and a considerable portion of Anderson County. Pendleton is on the east side of Seneca River, and cannot properly be ceded to Georgia with the proposed boundary. Under the Ordinance dividing Pickens, District, a line was drawn which leaves the southern boundary of North Carolins where the White Water River enters this State, thence down the centre of said river to Bavenel's bridge, ion Senece, Biver, and thence along the centre of the road leading to Prodleton, until it intersects the line of Anderson County. The territory lying east of said line was thrown to Pickens, and that lying west of said line was named Oconee. Hence, the county of Pickens is untouched by this new scheme, and a portion of Oconee is left out in the cold on the east nide of Seneca River.

It is plain that the paragraph is a sensational one, and while we are free to admit that the people directly interested might readily assent to the proposed arrangement, and unite their fortunes with the prosperous Georgians, there is not much probability that the scheme will be accomplished. It has evidently arisen from the fact that the Legislature of South Carolina, on the 8th of January, 1872, authorized the appointment of three Commissioners to meet a similar Commission on the part of Georgia, for the re-adjustment of the boundary line between the two States, because under the treaty of 1787, "the citizens of South Carolina have no rights of fishing in the Savannah River, or using or drawing off the waters of said river for the uents. purposes of navigation or manufacturing."-The Commissioners are empowered to arrange and finally determine the line' between said States, and their action is to be binding upon South Catolina. This is the gist and purport newspapers at this late day, and which has the Governor of Georgia indicates its willingness for a re-adjustment. So far as we are informed, the Legislature of Georgia has not yet power. In regard to the joint resolution, we terests of private parties, whose purpose was to as the Georgians now enjoy a monopoly of the in the year 1787, to which we have already al- some progress, real and actual. luded.

of 26-States. In 1870, the total population was 705,606-

whites, 289,667 ; free colored, 415,514 ; Indians, ot 37 States.

STATISTICS OF ANDERSON COUNTY. According to the census return, the total population of Anderson County in 1830 was Baltimore Eye and Ear Infirmary. His plan 1860, 22,873; in 1870, 24,049.

The population of townships is given as follows; as they existed June 1, 1870, viz: Belton, 1364; Broadway, 1378; Brushy Creek, 1752; Centreville, 1880; Dark Corner, 1178; Fork, 1562; Garvin, 1577; Hall, 1240; Hones Path, 1926 ; Hopewell, 1296 ; Martin, 1525 ; Pendleton, 2115 ; Rock Mills, 861 ; Savannah, 1067 ; Varennes, 1892; Williamston, 1426.

IS The celebration of Washington's Birthday was duly observed in Charleston on last Saturday. There was a grand military display, embracing the Rifle Clubs and other organi zations, and the whole city was ablaze with enthusiasm. Hon. W. D. Porter delivered a lengthy and eloquent 'oration on the life and character of Gen. Washington, at the Academy of Music, which was crowded with ladies and gentlemen. The entire festivities were under the auspices of the Washington Light Infantry, an old and honored corps, and nothing occurred to mar the enjoyment of the day.

The bill to encourage and aid manufactures, which exempts capital employed in this business for a period of ten years, has finally passed the Legislature, and will doubtless receive the approval of the Governor. This is one of the best measures yet enacted by the present Legislature.

The Legislature last week adopted a concurrent resolution to adjourn sine die on yesterday afternoon, and we presume the members are now returning to their beloved constit-

For the Anderson Intelligencer. TO THE COUNTY COMMISSIONERS :

The periodical freshets in all our water courses should admonish those having control of the joint resolution, which seems to have of bridges, roads, &c., of the necessity of erestawakened such general interest among the ing permanent structures, at least over streams on roads leading to the County town. Why never been carried out, as the Commissioners the necessity of building bridges every few from this State are not to be appointed until years? Why not at once build a bridge or bridges with stone piers, over all such streams, that would last for thirty years. One instance, the bridge across Deep Creek, between Anderacted upon the proposition, and Gov. Smith son and Earle's bridge across Seneca, has been will not likely appoint Commissioners until washed away and rebuilt about every four years proper authority is conferred by the law-making for the last forty years, and at a cost each time of, say, \$300 or \$400. A good bridge, on stone suspect that its passage was secured in the in- piers, can be built there for \$1,000, which would any means or organization to aid in cases of last for thirty or forty years. Is this economy fire. If they have, I don't know it. Is it their engage in manufactures on the Savannah River, or is it not? Why not now employ a compe- duty to do anything in this direction? Would able for its clear exposition of constitutional tent engineer, lay off your roads with easy water privileges, under the terms agreed upon grades, build substantial bridges, and show judicious outlay of a small amount for this pur-

performed by Dr. Gurley, which has been entirely successful, and reflects credit upon the skill and proficiency already attained by the 124; Chinese, 1. Twenty-second in rank out Dr. in this new field of labor. Dr. Gurley has spent the winter in attending lectures at the Maryland University of Medicine, and witnessing operations by Dr. J. J. Chisolm, of the

17,169; in 1840, 18,493; in 1850, 21,475; in of operation and after-treatment, in the case of Mr. Snipes, is the same as that introduced to the profession by Von Graefe and Weber, of Berlin. We congratulate him apon the first effort in the surgical line, and trust that he will meet with continued success in this important branch of the medical profession.

Burning of Rankin's Mills.

The flour and saw mills of Maj. G .- W. Rank n, situated on Three-and-Twenty Creek. were entirely destroyed, by fire on Saturday night last. It was clearly the work of an incendiary. A pine torch was applied to the weather-boarding of the gin-house, only a few feet from the mills, and the side of the ginhouse was sprinkled with spirits of depentine, but the weather-boarding was dampland this building was only scorched. The destruction of these mills entails a heavy loss upon the proprietor, who has already expended large, sums of money, as our readers will remember, in the maintenance of law suits during the past year or two, in which his mill-dam was charged as a public nuisance, in that it endangered the health of the community. This fresh disaster, and its attendant circumstatices.

creates a general sympathy for his losses. Circumstances connected with the burning ed to the arrest of two colored men, James Babb, jr., and Frank Babb, who are brothers, and living within a mile or two of the mills. A preliminary examination before Maj. Larkin Newton, Trial Justice, resulted in their commitment to jail on Monday evening, charged with the incendiarism. A writ of habeas conpus has been sued out in their behalf, and a furthe: examination of the case will be held before Trial Justices Whitefield and Breazeale to-motrow (Friday) morning. Messrs. Reed & Brown represent the prisoners.

For the Anderson Intelligencer.

MR. EDITOR : Will you do me the kindness to allow me a little space in your good paper to call the attention of the Town Council to the fact that, whilst they (the Intendant and Wardens) have done much for the protection of the tax-payers of the town, and also done much (none too much) for the peace of the town, they have not done one thing that would be a great source of security to the property holders of the place ? And that one thing is this, they have never provided nor attempted to provide any sensible tax-payer in this town object to a questions involved, and is exceedingly valuable pose? We cannot have an old-fashioned fire-A CITIZEN. engine and cisterns for the protection of all the Southerners.

ion of the government of Louisiana and Alabama, and the dissensions prevailing among the rival political factions in those States, has in a measure influenced this change of programme, the President beliving it inappropriate for him to visit those States under the present condition of affairs. '

It is asserted that three Democrats and two Republicans of the Judiciary Committee favor a report impeaching Colfax. This constitutes a majority of the committee.

WASHINGTON, Feb. 24.

It has been officially decided by the postoffice department that C. M. Wilder, postmaster at Columbia, South Carolina, cannot during his incumbency of that office, hold his seat as a member of the board of aldermen of that city, under the executive order forbidding the joint holding of State and Federal offices, which

takes effect on the 4th of March next. W. L. Scruggs, of Georgia, has been appoint-ed resident Minister to the United States of

Columbia at Bogota. The President was at the Capitol to-day, and ad an interview with the Committee on Privleges and Elections. It is said he urged action to relieve him of the responsibility for Louisi-ana. He made, it is said, no suggestions, but

simply urged legislation. The President sent a message to Congres urging legislation on the fishery matters. SENATE.-D. C. DeJarnette's disabilities have been removed. Hill presented Gordon's

credentials. During the discussion over Caldwell's case and the proposition to postpone, Carpenter said, "But the case of Louisiana did demand legislation, and if not acted upon at this session; there was imminent dauger of a civil war and blood-hed in that State.? In view; therefore, of the very brief time left of the session, he thought that it was best to let this Caldwell matter go over until after March 4th. The case of Caldwell was postponed. The Agricultural College bill was discussed.

House .- The Judiciary Committee , report that they have no jurisdiction in the case of Colfax, Ames and Brook's connection with the Credit Mobilier, because the former was not Vice President, nor Ames nor Brooks members of the present Congress, when questionable. transactions occurred.

- The Methodists of Greenville, S. C., have recently completed a new house of worship, which was dedicated with appropriate services on the 9th inst. Bishop Doggett, of Virginia, preached the dedication sermon. Over two thousand dollars were raised on the spot to complete the last payment on the house. The new church is said to be a very handsome one. - Strange to say, the Baptists, though quite

strong in this section of the country, have never had a church at Abbeville C. H. They have recently undertaken to build a church in the town. A lot has been secured, and a considerable amount of money has been raised for the purpose. Rev. R. N. Pratt, a promising young minister of that denomination, is the leader in the enterprise. - We learn from the Augusta Constitution-

alist that the Fort Royal Railroad is almost completed, only three miles of the track being tompleted, only three nines of the total sources for laying the track, as we understand, will expire by limitation, on Friday next, therefore

it is expected that the road will be completed in about a week and trains will run through from Augusta to Port Royal.

- The New York Tribune thinks the intended Southern tour of the President affords a great opportunity for conscientious investigation, so far as practicable, into the causes trouble which still disturb the South, and also to apply remedies which may seem lawful and expedient. He can do a great deal towards persuading Southerners of power and will of the desire of the nation to aid them out of their difficulties in every proper way. It hopes the South will meet this cordial, friendly advance in the spirit in which it is meant. Noth ing can be gained by any exhibition of cold ness or hostility to the administration.

- The existence of the Spanishi republic is a source of uneasiness at the court in Berlin. The Emperor William now regrets the false step he took toward the readjustment of governmental affairs in France. He is sorry he did not re-establish Napoleon the Third or some other monarch in Paris, and accept the payment of a slight indemnity rather than have permitted public events to take the course they did. The Emperor William regards the Spanish republic as a political and popular consequence of the French republic, and he is

anxious and uneasy because he is uncertain

THE MARKETS. ANDERSON, February 26, 1873. The cotton market closed this evening 18

Corn 1.10 to 1.15; Peas 1.10; Flour \$12 to \$15; Bacon 10 to 15 cents.

OBITUARY.

From the Eutaw (Alabama) Whig and Observer.

Mr. J. W. COATES, son of the late Dr. James Coates, of South Carolina, and nephew of the Drs. Sanders, of Clinton and Pleasant Ridge, died suddenly—living only about 48 hours after being attacked—at the residence of Mrs. Strait, near Clinton, on the 8th inst. The deceased was

an exemplary young man, industrious and en-ergetic, and although he had been in the county but a short time, his friends were numerous, as been widely circulated by the friends of that measure, and has received well deserved and earnest attention. It is particularly commend-able for its clear exposition of constitutional guestions involved, and is exceedingly valuable with lady relatives and many friends, who watched his dying moments with those tender emotions only known to woman's heart. We scheme, so near and dear to the hearts of all tender his bereaved mother and sisters our ondolence in this severest of all afflictions.

Send Your Proxies to J. H. James.

TO THE STOCKHOLDERS OF THE SOUTH CAROLINA BAIL-ROAD AND SOUTHWESTERN BANK : I represent over Two Million Dollars worth of Stock, and with the co-operation of others at the next meeting (on the 8th of April) I pro-
