THURSDAY MORNING, JULY 3, 1873.

Sons of Temperance.

Anderson Division, No. 1, will have a public installation of officers on Thursday evening, 10th inst., in the Court House. An address will be delivered by J. C. C. Featherston, Esq. The public generally and ladies especially are invited to attend. Members are requested to be punctual in attendance.

Early Cotton Blooms.

The first cotton bloom received at this office was handed in on the 26th of June, from the plantation of Mr. James D. Warnock, by a colored man named Samuel Geer, whose crop it represented. The "Red Sign" was not far behind, however, as the next day we received a specimen from that quarter, which nearly verifies our prediction that the Red Sign would be

National Bank of Anderson.

At a meeting of the Directors of the National Bank, held on Tuesday last, S. Bleckley, Esq., was chosen Director in place of Hon. James L. Orr, deceased. A dividend at the rate of 12 per cent, per annum was declared, from the profits accrued since its establishment, which indicates successful management. In the State Savings and Insurance Bank, a dividend at the same rate has been declared.

The Local School Tax.

Saturday last was the day designated by law for the citizens to assemble in their respective School Districts, and determine the question of levying a local tax for the support of free schools. In the School District embracing the corporate limits of Anderson there was no meeting. We learn from the School Commissioner, Capt. Thos. P. Benson, that reports have been received by him from the townships of Belton, Honea Path, Broadaway, Garvin and Williamston stating that there was a levy of one mill upon the taxable property in these School Districts, in accordance with the recommendation of the Trustees and Teachers, at their recent meeting.

Arrest of the Burglar and Recovery of Stolen Goods.

We have the satisfaction of reporting the capture of one of the burglars connected with the robbery of Maj. Borstel's jewelry store on the night of June 2nd. From the circumstances elicited upon enquiry of those connected with the capture, it appears that a man calling himself Jim Robinson visited the neighborhood of Dick's Creek Tunnel, between Walhalla and Clayton, Ga., early last week, professing to peddle jewelry and other goods. His conduct excited suspicion among some of the citizens, especially as he offered the jewelry so cheap. Accordingly, his movements were closely watched, and after several days, during which time Robinson was under the influence of liquor kindly furnished, it was determined that he was connected with the burglaries in this town and Pendleton; whereupon, Mr. Eugena W. Beck started for this place to setn information concerning the jewelry stolen from Maj. Borstel. He arrived here nd soon the evidence was furnished him which rendered it almost certain that the suspicions were correct. Obtaining a description of the stolen goods, Mr. Beck returned to Walhalla in the afternoon, accompanied by Deputy Sheriff James H. McConnell, of this

These gentlemen pushed on in the direction of Clayton on Monday night, and finding that Robinson had changed his quarters, they sought information as to his whereabouts, and speedily got upon his track, ascertaining that he had gone beyond Clayton, in the direction of Franklin, N. C. About three o'clock on Tuesday morning, having been reinforced by Messrs. Ira Langston, Henry Fountain and Wm. Pickett, they surrounded the house of a Mr. Mc-Curry, four miles from Clayton, and effected an entrance without much ceremony, and in a few minutes laid their hands upon Robinson, who was alarmed at the noise and had risen from the bed. He made no resistance, however, and the party started back with him, taking breakfast at Clayton. In coming to Walhalla, Robinson attempted to make his escape, but was prevented by a well-directed blow of a rock which Mr. Langston deftly wielded to his discomfiture. The party arrived in Walhalla without further incident, and after guarding the prisoner the entire night, came down on was regularly committed into the custody of Sheriff McGukin.

When he was captured, Robinson had in his possession two carpet sacks, well filled with son and Abeville, with the assistance of jewelry and other goods. Out of the nineteen gold and silver watches, fifteen of them have been recovered, besides the greater portion of be cut off from the great thoroughfares of the breastpins, rings, chains, and other valua- freight and travel, unless the present move is bles belonging to Maj. Borstel. At least twothirds of the goods stolen here were in his possession, besides a quantity of the dry goods taken from the store of Mr. E. G. Evans, in Pendleton, on the 9th of June. Robinson claims that he purchased the goods from anether man, who hailed from Brooklyn, N. Y., giving him \$1,000. The prisoner is an old offender against the laws of his country, being that the road would be built in this generation, identified as the notorious horse-thief who figured conspicuously in this section six or seven years ago. He was once captured by From this unfortunate result we can derive a Mr. John R. Cochran, but made his escape, lesson of practical importance. Another golden | bled to pay our common tribute to the memoafter receiving a pistol shot in his left arm. He was then charged with stealing a horse from Mr. Thomas J. Hill, of Abbeville County, and another from Mr. Samuel W. Williford, of this County. We are informed that he was tried in this matter. By manifesting real earnestness, at Abbeville and sentenced to seven years in and heartily co-operating in the use of the the Penitentiary, but made his escape from means at our command, we can quickly gain

that institution. The gentlemen engaged in his capture deserve much praise for their conduct, and receive the warmest commendations from our ervens, who are highly gratified at the recovjewelry, as main portion of Maj. Borstel's We have no donafe lodgment of the burglar. plices in both transa Robinson had accomscore up to this writing.

Our Railroad Interests.

We are gratified to note the increasing interest among our citizens to forward the movement set on foot to secure the location of the Chicago and Augusta Railroad by this point. The present activity in the public mind indicates that there will be no laggardness in fully discharging every obligation likely to accomplish the desired result. The feeling now apparent denotes a full purpose to work heartily in the right direction, when that is plainly developed. 1871; his brother William in 1872, and now We must agree upon the basis of action, and then unitedly press forward, urging harmony Robert Alexander has returned to Georgia, and in council and co-operation in vigorous effort. Success will be deserved, if not attained. No delusive hopes should be indulged, but the difficulties in our way boldly met and overcome, if possible.

We propose to indicate the most feasible plan, in our judgment, now offered to the people of Anderson. It is conceded that the purchase of the Blue Ridge Railroad by parties friendly to our interests will greatly enhance our prospects, yet, it must be remembered, that the mere purchase of this Road by parties intending to complete it from Walhalla to Clavton does not necessarily bring the through route by way of Anderson. Active measures are already inaugurated to make the line diverge at Seneca City, passing through the Fork, and crossing the Savannah River at Andersonville, thence to Augusta on the Georgia side. The survey of this route is now being made, and we are not blind to the fact that, whatever its advantages or disadvantages may prove, the citizens of Georgia will naturally look with favor upon the proposed scheme. The prejudice against South Carolina will doubtless influence the citizens of Augusta to some extent, but it is our duty to show them that their best interests will be materially subserved by uniting with the people of Anderson, Abbeville and Edgefield, thereby securing a ocal trade of much importance, whether or not the great scheme of a national highway across the mountains is perfected.

This can be done by adopting a line in which Augusta is already interested. We mean the Greenwood and Augusta Railroad, which has been chartered and surveyed, and found to be a most practicable route. This contemplated road is to pass within ten or twelve miles of Abbeville C. H., and our proposition would be to construct a road from this place to the nearest point of intersection with the Greenwood and Augusta survey. The Counties of Abbeville and Anderson ought to subscribe 250,000 each to the construction of this road, when by uniting with the citizens of Greenwood nd Augusta the line would be complete from Walhalla to Augusta, thence to Port Royal Savannah and Charleston. The scheme is practicable and reasonable, and with proper effort the subscription of \$500,000 by the two counties can be obtained, together with additional subscriptions from other quarters. Aucusta would enlarge her subscription to the Greenwood and Augusta Railroad, as that city would receive the enhanced benefits of the

The construction of such a road is a necessity to the people of Anderson and Abbeville, even though there was no prospect of furthering the project of the contemplated line from Chicago to the South Atlantic coast. Can any one doubt the result of the location of the through line, were the road from Anderson to Augusta now in operation or being constructed? We would have infinite advantage over by the morning train from Walhalla on Mon- all other projected lines from Clayton to Au- paragrap) contains so much practical good rusta and the time is now at hand when we may safely venture to expend our means and language, and endorsing the sentiments there energies in securing this decided advantage.

Another idea in the construction of a road to unite with the Greenwood and Augusta eve promotes their interests will likewise pro-Railroad. The route from Chicago is not defi- mote the interests of all classes. It is a sensenitely and irrevocably fixed, although it is is as well as wicked policy to depress the and cars are under contract, and in progress, s rougly indicated, and subsequent events may agricultural prosperity of a country. The tax and will certainly be ready for the fall busidemonstrate the desirability of constructing on cotton and tobacco demonstrated the folly the main line through the Sassafras Gap, a as well as the baseness of the Radical party. our friends in Pickens propose. Doubtless tle prime movers in this Chicago and Augusta connection will be influenced by the digosition made of the Blue Ridge Railroad and should this road pass into the hands of parties inimical to the through line, which & not at all improbable, then another route vill be se- erally, and make all more prosperous and lected, and the Sassafras Gap live will be happy. We see no reason why persons should prominently urged for adoption. Hence, the not enter the order, if they choose, or stay out read from this point to August would place of it, if they choose." us on the through line in any event, and we are furnished with another poverful incentive to engage in its construction,

The most striking point, which we desire to impress upon all interested, lies in the fact already stated that the construction of the line from Anderson to Augusta would permanently benefit this section, whether or not the connection with the West is ever made. It would be a direct outlet to the principal marthe train yesterday morning, where Robinson kets, and would carry into execution the wishes of our people, as embodied in the Savannah Valley project, thich received so much attention before the war. The counties of Ander-Augusta and other points, can well afford to make the investment, as they are destined to successful. Here is our last and only chance.

The people of Anderson were miserably cheated and desperately wronged in another enterprise, but we are not prepared to fully exculpate our own citizens from their share of responsibility in the loss of the Air Line Railroad, as indifference and apathy contributed no little to this result. Many scouted the idea and folded their hands with strange unconcern, oblivious to the fact that the world moves .opportunity is offered, and we have faintly outlined the project, with the hope of awakening solved, serious thought and reflection among the citizens of Anderson, who will be expected to lead the assistance of others in this movement, and the disappointment of the past will give way to brighter hopes for the future.

The formidable list of persons who have invested in the Singer Sewing Machine, purchased at the agency in Anderson, attests the excellence and popularity of this machine. Rendleton, but there are no in Anderson and "A few more left of the same sort." Call on A Sad Record.

By a recent letter from Texas, we learn that Mrs. W. O. Alexander died at her residence in of the deceased, who formerly resided near O. Alexander moved with their families to we record the death of the latter's wife. Mrs. a part of William's family remain in Texas.

The Waverly House.

The Abbeville Medium is quite complimentary to this hotel, and we are frequently assured by travelers that such praise is well deserved. Although enjoying a monopoly in the business, the proprietors never relax their efforts to please the public, which is not often the case in towns and villages. We trust the firm of Miller and Robertson will long continue to enjoy the favorable opinion of their guests, transient and permanent:

The Waverly House at Anderson is a most excellent place of rest. Mrs. Robertson cannot be excelled, and the genial G. W. Miller, the host, has no equal. His two regular "Sundayschool boys" are most excellent company. The rates are low and fare splendid.

Cæsar's Head. This famous retreat is coming again into opular favor, and the present summer will witness an unusual hegira of health and pleasure seekers from all parts of the State, intent on the enjoyment of its unsurpassed scenery and invigorating atmosphere. The management of the hotel, so famous under the superintendence of Col. Ben. Hagood, has been confided to Dr. F. A. Miles, an experienced physician, who will render the healthy visitor more happy by creature comforts and carefully guard the invalid with the utmost attention. As our venient distance of Greenville, and conveyances ticularly if the weather is warm. are always in readiness at that point to carr persons to the mountains. We propose an excursion from Anderson for a brief sojourr at Cæsar's Head and Table Rock.

The Weather and Crops.

This vicinity received copious showers of rain on Monday last, amounting to a good season, and freshening the growing crops. Heavy and abundant rains fell i other sections of the County last week, aid we may conclude that the crops are in favrable condition. The general onslaught uon the superabundance of grass has been steadily maintained, and we have good reports from every neighborhood that the cotto fields are measurably clean, and the plat is now thriving. The wheat and oat crops ae nearly harvested, and are turning out much better than was anticipated in the spring. The limited area devoted to the cereals i universally regretted, since the weather has een so propitious. Early corn is nearly out of danger from expected drought, and two or three weeks of favorable weather will place the upland corn beyond peradventure.

Patrons of Husbandry.

The rapid ree and progress of this order, men, begets senseless opposition and puerile remarks from the uninitiated. The following sense that we cannot refrain from adopting its in comained:

We believe that the organization above named will afford protection to farmers against moneyed monopolies, and will give an impulse to education and intelligence among the agricultural classes. The benefit conferred upon them will be reflected upon society gen-

of Rifles.

At the close of the funeral services of the Hon. James L. Orr, at Anderson, that portion of the old regiment, in attendance on the occasion, numbering about one hundred, met in the grove near the Presbyterian Church, when Col. Miller appointed a Committee, consisting of W. C. Keith, J. J. Norton and F. E. Harrison, to draft resolutions of respect to James L. Orr, our first Colonel. The committee reported the following preamble and resolutions, which were unanimously adopted:

WHEREAS, the organization of Orr's Regiment of Rifles was due to the patriotism and love of his State of the Hon. James L. Orr; and whereas, the discipline and efficiency which gave to the Regiment its brilliant record in the history of the lost cause, was due to his great firmness, energy and administrative ability; and whereas, we, a portion of the remnant of the Regiment, realizing the true worth of the deceased statesman, jurist and patriot in the work of organizing, disciplining and equipping the Regiment which bears his name, as well as his fatherly kindnes and friendship towards us while with us as Colonel, during his service in the Confederate Senate, and since the termination of the war, have now assemry of the great deceased. Be it, therefore, re-

1. That in the death of the Hon. James L. Orr, our first Colonel, we, in common with the community, State and country at large, mourn the loss of a devoted friend, useful citizen and eminent statesman.

2. That we tender our sympathies to the bereaved family in their irreparable loss. 3. That a copy of these resolutions be forwarded to the family of the deceased, and their publication be requested in the newspapers of Anderson, Abbeville, Oconce, Pickens and

Marion Counties.

Every tax-payer in Anderson County will find it profitable to read the advertisement of the County Auditor, Mr. T. J. Webb, re-

for the Anderson Intelligencer. The Best Method of Curing Hides.

As the season for butchering cattle, sheep, Johnson County, Texas, on the 28th of Mar, &c., has commenced, I beg to call the attention in the 56th year of her age. This news will of butchers and farmers of Anderson County recall sad memories among the acquaintances to the very defective manner of curing hides and skins usually practiced by them, not only Craytonville, in this County. Robert and Wm. to their own injury and loss, but to a great extent detrimental to all the industries direct-Texas in the fall of 1870. The fermer died in ly connected with the hide, leather and shoe trades. I allude to the process of drying hide lots in Anderson, \$18,000 in "A" Bonds.
without the application of salt, or the use of Same, to Cynthia J. Roberts, 24 acres, \$3,000 without the application of salt, or the use of other agents for the preservation of th felt from putrifaction and decay. Many persons erroneously employ wood ashes fo this purpose, which is to the hide or skin robably the most destructive and injurious appliance that ignorance or careless indiffe-nce could have devised. Of the many the sands of hides and skins annually taken off a our County, scarcely one fourth of the nomber are properly cured; hundreds are thro-a away or wasted through carelessness and neglect, and the remainder are so indifferently handled as to render their conversion ; to a prime quality of leather next to an impossibility.

To ere hides correctly requires but little troule and but a small outlay; the process is simple, cheap, and in all seasons certain in its \$1,562. good results: First, spread the hide out, flesh side uppermost, straightening out all creases and folds, and then apply one pound of salt to every eight pounds of green hide, or from one piut to one gallon of salt according to the size of the hid; after which fold the hide up, lapping in al the flanks and edges, keeping flesh to flesh as much as possible. In this condition allow i to remain two or three days, by which time tie salt will have dissolved and thoroughly penerated the tissue, when it may be hung up to dy in a shady and airy place. Skins, such as hose of sheep and goats, require usually fem one pint to one quart of salt, which should dways be applied the instant the skin is taken from the animal, as they are, especially the reader's know, Casar's Head is within con- former, very tender and quickly putrify, par-

Many persons labor under the mistaken belief that it is a waste of salt when used for the purpose of curing hides. For the especial benefit of such economical persons, I have deduced from actual test the following table, showing the comparative weights of differently cured hides, with their value annexed, based upon the present prices of leather:

40 lbs. green hido, salted, gives 22 lbs. dry, worth 15 cts. 2 lb " " unsalted, " 18 " " 12 "
" " ashed, " 16 " " 10 "

Hence, there is an evident gain, not only in the weight, but also in the market value of salted hides over those cured otherwise; a gain which will not only pay handsomely for the salt used, but also for the trouble-a fact which it is to be hoped will induce our butchers and farmers, or any who may have the handling of green hides, to remedy this great evil, thereby saving hundreds of hides and skins from waste and destruction, better supplying our markets with a superior material for the manufacture of leather, of which a better article will be produced and lower prices established; and in the end, prove a saving to our people of many thousands of dollars, annually expended in the North for leather, shoes and boots, all of which, or at least a great measure, could be furnished at home but for the want of a little economy like every successful venture in the affairs of and care in the simple matter of curing hides.

EQUIPPING THE GREENVILLE AND COLUM-BIA RAILROAD-THE PROPOSED QUICK SCHED-LE.—The Greenville and Columbia Railroad, one of the most important feeders of Charleston, will be put in first class order as rapidly "s farmes feed and clothe the world, what- as possible. Five hundred tons of T rails, with the most approved fastenings, have been provided, and are being laid down with all practicable dispatch. Additional locomotives

It is proposed, when the improvements of the track are sufficiently advanced, to quicken the schedules on the Greenville and Columbia Railroad, and connect its trains at Columbia with a special fast passenger train of the South Carolina Railroad, so as to bring the Greenville and the Columbia passengers into Charleston at about half-past ten o'clock at night.

Few persons have any adequate idea of the difficulties which have surrounded the Greenville and Columbia Railroad since it passed into the hands of its present owners. The road was worn out; its rolling stock was in a miserably dilapidated condition; the increase in business tasked the capacity of the line to From the Keowee Courier.

Resolutions Adopted by Orr's Regiment destroyed its credit, and prevented the management from spending money, as they had proposed to do, in refitting and equipping the road. The public complained of insufficient accommodation, but it may safely be said that, without the co-operation of the South Carolina Railroad, and the liberal use of its motive power and cars, there would have been a complete block-up of freight above Columbia. This trouble is now past, and by the time that active business re-opens, the Greenville and Columbia Railroad is expected to be in a condition to give ample accommodation to both freight and passengers .- Charleston News and

HONOR TO HIS MEMORY.-It is proposed to raise by subscription a sufficient sum of money to erect a suitable and appropriate monument to the memory of Hon. Jas. L. Orr. The plan manufacturing a very good article of smoking suggested is, that the subscription should be tobacco, and affords a great convenience to the made as follows: By the Bar of his Circuit; by the Masons of the State; by the members of Orr's Regiment, and by his friends generally. Judge Orr was a Past-Grand Master of the Department, with a view of ascertaining their State, and this suggestion is made by some of exact condition and exactly how much truth his personal friends and Masons of Charleston, there is in the report that soon after the close and we feel assured that his numerous friends of the war many important papers were rein the up-country will gladly catch up the moved. suggestion and avail themselves of it at least as a means of testifying their esteem for him. spot. - The Washington Republican, a staunch Administration paper, makes the following significant admission: "The political contests of the coming months promise to be of unusual interest and importance. The Republican party, since its overwhelming victory under the leadership of General Grant last fall, has met with a series of moral reverses, the exact effect of which the future alone will disclose. The unsavory revelations in the Credit Mobilier business, disastrously affecting some of the most trusted leaders in the organization, the retroactive clause of the salary increase bill, together with other unpleasant transactions of lesser note, have undoubtedly combined to weaken the party in the opinion of a large number of its most steadfast friends and supporters, and to render doubtful in more than one State the chances of victory, which only six months ago were so certain elsewhere."

OBITUARY.

DIED, at his residence in Senatobia, Miss., on the 15th of June, 1873, HENRY L. P. McGEE, a native of Anderson District, S. C. in the 35th year of his age.

Grim monster, death, has taken from our midst a generous, kind-hearted friend, a pure and upright citizen, and fond and devoted husband and father, and many are the hearts surrowed by the demise of him who had so many good and noble qualities to endear him to the people. By his death the community has sustained irreparable loss—society a useful mem-ber and relatives an affectionate and loving kinsman. To all we tender deepest sympathy, and especially would we invoke the commiseand especially would we invoke the commise-ration of "Him who tempers the wind to the shorn lamb" upon the grief-stricken wider and the helpless orphaus. May they be consoled with the belief, yea knowledge, that while he is dead to them in this world, his soul has winged its flight to brighter realms where, with arch-angels, he awaits their coming.—

RAILROAD MEETING.

Senatobia (Miss.) Times.

The citizens of Anderson County, interested in the proposed railroad from Ch gusta, Ga., on the route through Anderson, Abbeville and Edgefield, are respectfully invited to meet in the Court House on Saleday in August, for the purpose of choosing delegates to the proposed convention of friends of this route, which will be held at Abbeville on the 13th prox. Other business connected with this project will likewise be presented, and the friends of the enterprise are urged to be present.

B. F. WHITNER,

July 3, 1873

STOCKHOLDERS' MEETING.

The shareholders in the purchase of the University property are invited to meet in the Court House on this (Thursday) afternoon, July 3rd, for the consideration of important business

By order of the Chairman. JAMES A. HOYT, Secretary. July 3, 1873

We see that Proctor & Gamble's Extra Olive Soap is becoming very popular in our city, its quality we know is superior, and being nicely perfumed we are not surprised that consumers prefer it, and that it has a large

HORSES! HORSES!

ON the 26th instant we will receive from St. Louis, Missouri, twenty head of fine double and single harness and saddle HORSES, which we will sell on good terms at our Stables which we will said in Walhalla, S. C. THOMPSON & STEELE.

June 25, 1873

W. W. HUMPHREYS, Judge of Probate. 52 5

July 3, 1873 A CARD!

From the Merchants at Anderson C. H., S. C.

ANDERSON, S. C., June 11, 1873. WE, the undersigned, Merchants of this Town, take this early opportunity of informing ALL PERSONS who buy supplies or Goods from us on a Credit, that we CERTAINLY EXPECT PAY WITHOUT EXCEPTION by the FIRST OF OCTOBER OF DECEMBER NEXT at farthest. We have to pay promptly for all we buy, and shall expect the same from our customers. The old expect the same from our customers. The old style way of selling goods on twelve months' credit, with the privilege of twelve years, has "played out." M. LESSER, N.K. SULLIVAN & Co.
